Lazaro, 2022-07-18. Approx. 795 pages. UNIQUE Five step screening model is systems and symptoms based and follows the standards for competency established by the American Physical Therapy Association covering past medical history, risk factor assessment, clinical presentation, associated signs and symptoms, and review of symptoms. UNIQUE Case studies are based on clinical experience and give real world examples of how to integrate screening information into the diagnostic process and when to treat or refer. Evidence for the screening process is based on peer-reviewed literature reporting on the sensitivity, specificity, and likelihood ratios of yellow cautionary and red warning flags. Quick reference summaries include tables, boxes, follow-up questions, clinical signs and symptoms, and case examples. Key Points to Remember boxes at the end of each chapter provide quick bulleted summaries of critical information. Practice Questions allow you to check your understanding of concepts presented in the chapters. Laboratory tests and values relating to physical therapist practice are presented in the inside front and back covers of the text for quick reference. Screening tools and checklists are available in the book and on the Evolve website and are downloadable and printable for use in the clinic. NEW Revised content throughout the book provides the most current information for effective practice and includes updated references as well as a discussion of pain mechanisms.
