Bazaar Exchange and Mart, and Journal of the Household ,1875 India Migration Report 2020 S. Irudaya Rajan, 2020-11-26 India Migration Report 2020 examines how migration surveys operate to collect analyse and bring to life socio economic issues in social science research With a focus on the strategies and the importance of information collected by Kerala Migration Surveys since 1998 the volume Explores the effect of male migration on women left behind attitudes of male migrants within households the role of transnational migration and it effect on attitudes towards women Investigates consumption of remittances and their utilization asset accumulation and changing economic statuses of households financial inclusion of migrants and migration strategies during times of crises like the Kerala floods of 2018 Highlights the twenty year experience of the Kerala Migration Surveys how its model has been adapted in various states and led to the proposed large scale India Migration Survey and Explores issues of migration politics and governance as well as return migration strategies of other countries to provide a roadmap for India The volume will be of interest to scholars and researchers of development studies economics demography sociology and social anthropology and migration and diaspora studies **The Bazaar,**

Exchange and Mart, and Journal of the Household ,1871 Beyond the Resources of Poverty Sebnem Eroglu, 2016-04-08 This groundbreaking volume researches the lives of gecekondü settlers in the capital city of Turkey in order to understand how households cope with poverty and why some households are more successful than others in reducing their deprivation It takes a critical stance towards existing conceptions such as household survival livelihood and coping strategy and develops an alternative model based on four types of household response to poverty income generation income allocation consumption and investment In explaining household responses and their outcomes for poverty the book demonstrates the role of different resources beyond income including social economic and cultural capital It emphasises broader structural factors such as labour market processes and state policies which influence the availability and or benefit

delivery capacity of household resources and thereby moves beyond the dominant view which overemphasises the resilience of the poor Gender divisions within the household are also examined The book adopts an innovative method for measuring poverty The new method combines objective and subjective dimensions of deprivation to develop a unique way of addressing two central questions what are those standards of living whose absence indicates deprivation and how can the value of each standard of living be determined **The American Exchange and Mart and Household Journal** ,1887 **Household Words** Charles Dickens,1851 **Arthur's Home Magazine** ,1884 **Household Words** : ,1854 **Household Livelihoods in Semi-arid Regions: Options and Constraints** B.M. Campbell,S. Jeffrey,W. Kozanayi,M. Luckert,M. Mutamba,C. Zindi,2002-01-01 The study sites Methods The wealth index and its variation Human financial physical and natural capital the assets available to households Households productive activities the generation of cash and subsistence gross income Exploring household strategies Net income and poverty Temporal changes in livelihood strategies Modelling livelihood change Making a difference **Motivating Change: Sustainable Design and Behaviour in the Built Environment** Robert Crocker,Steffen Lehmann,2013-07-24 Today s most pressing challenges require behaviour change at many levels from the city to the individual This book focuses on the collective influences that can be seen to shape change Exploring the underlying dimensions of behaviour change in terms of consumption media social innovation and urban systems the essays in this book are from many disciplines including architecture urban design industrial design and engineering sociology psychology cultural studies waste management and public policy Aimed especially at designers and architects Motivating Change explores the diversity of current approaches to change and the multiple ways in which behaviour can be understood as an enactment of values and beliefs standards and habitual practices in daily life and more broadly in the urban environment **Money and Credit** Bruce G. Carruthers,Laura Ariovich,2013-05-03 This book offers a fresh and uniquely sociological perspective on money and credit As basic economic institutions money and credit are easy to overlook when they work well When they malfunction as they did in the new millennium s global financial crisis their importance becomes obvious and demands further investigation Bruce Carruthers and Laura Ariovich examine the social dimensions of money and credit at both the individual and corporate levels from the development of personal credit and a consumer society to the role of government in the creation of money In clear prose they illustrate how the overall future of the economy is governed by the financial system and the flow of capital into and out of firms operating in particular industrial sectors as well as the social meanings money itself acquires and the ways people distinguish between dirty and clean money This accessible and engaging book will be essential reading for upper level students of economic sociology and those interested in how the bills coins and plastic in our pockets shape the world we live in **Dhaka's Changing Landscape** Rita Afsar,Mahabub Hossain,2019-11-05 Between 1991 and 2010 Dhaka s population more than doubled to 15 million Simultaneously the city s contribution to the national economy almost trebled Clearly population growth was accompanied by

an unmistakable trend of economic growth and a significant decline in urban poverty and income inequality On the other hand Dhaka s high population density exacerbated serious environmental challenges and it was soon ranked as one of the world s least livable cities In the context of these contradictory signals of rapid urbanization Dhaka s Changing Landscape sets to answer three most intriguing questions Are the poorer segments of urban population which migrate with dreams for better lives benefitting from positive economic trends Are these benefits sustainable Are these benefits creating scope for this group to have a stake in the city s growing prosperity By studying 600 households and applying comparative analysis over a span of 20 years the authors examine demographic and economic trends to understand the patterns scale and complexity of urban poverty income inequality and rural urban migration Going beyond the space and poverty debate they enlighten the readers about the quality of life questions sustainability matters and gender and generational roles and relations necessary to understand qualitative transformation and migrants prospects for a better future
