M. W. Dixon,2005-06-30 This book shows how grammar helps people communicate and looks at the ways grammar and meaning interrelate The author starts from the notion that a speaker codes a meaning into grammatical forms which the listener is then able to recover each word he shows has its own meaning and each bit of grammar its own function their combinations creating and limiting the possibilities for different words He uncovers a rationale for the varying grammatical properties of different words and in the process explains many facts about English such as why we can say I wish to go I wish that he would go and I want to go but not I want that he would go The first part of the book reviews the main points of English syntax and discusses English verbs in terms of their semantic types including those of Motion Giving Speaking Liking and Trying In the second part Professor Dixon looks at eight grammatical topics including complement

clauses transitivity and causatives passives and the promotion of a non subject to subject as in Dictionaries sell well This is the updated and revised edition of A New Approach to English Grammar on Semantic Principles It includes new chapters on tense and aspect nominalizations and possession and adverbs and negation and contains a new discussion of comparative forms of adjectives It also explains recent changes in English grammar including how they has replaced the tabooed he as a pronoun referring to either gender as in When a student reads this book they will learn a lot about English grammar in a most enjoyable manner
