Tornado Ben Hubbard, 2014-07-17 What is it like to witness a tornado This book looks at the Moore El Reno and other tornadoes using firsthand accounts to describe events and people's experiences providing multiple perspectives from eyewitnesses survivors the emergency services scientists and the media **Orr, Campbell, Mitchell, and Shirley Families in Ireland, America and More** Elaine L. Orr, 2020-09-09 The third edition of the history of the Orr Campbell Mitchell and Shirley families which in its title now recognizes that Paul Orr and Isabella Boyd's descendants went to places beyond the U S is updated as of 2020 The more than 4 000 known descendants counting spouses of Paul Orr and Isabella Boyd went largely to the U S but also to Canada Australia New Zealand England and Scotland Some McMurtry Mitchell McQuigg and Forsythe families stayed in Ireland In the U S they have lived in died in or been married in 49 of the 50 states Vermont must be too far north They do tend to cluster though with Oklahoma being the state that drew a bunch from the Midwestern families That makes sense since it was opened for land sales at a time when the Orr family was on the move Of course California beckoned to some in each family As they settled in the Orrs married into families of all the other immigrants and of the Native American residents who were there long before Europeans They have also married into families of other races Truly melding into the melting pot Disaster Deaths Bimal Kanti Paul, 2020-12-31 This book conducts a systematic inquiry into the tragic deaths caused by natural disasters at different geographic scales It employs key disaster concepts and classification of disasters to understand the high mortality rates and the various factors associated with these deaths Deaths are the direct and immediate impact of disaster events which have remained a major concern for disaster managers and policy makers all over the world Using primary research and secondary data this book provides a

comprehensive analysis of various facets of disaster deaths such as trends circumstances and causes and determinants at global regional national and subnational scales It offers a holistic perspective on disaster mortality which has been lacking for some time The book not only fills this research gap but also suggests important policy implications for disaster managers and policy makers working in multilateral bilateral local and international nongovernmental organizations NGOs These policies include effective strategies to significantly reduce the risk of deaths caused by natural disasters which are explored through chapters written in a clear and accessible style Drawing together the case studies on past major disasters as well as recent ones the book provides new and critical insights into deaths precipitated by natural disasters Suitable for both technical and nontechnical readers the book has a broader appeal and will thus be useful for practitioners researchers students as well as activists in the area of hazards and disasters who are interested in studying mortality due to extreme natural events
