**Tourism, Climate Change and Sustainability** Maharaj Vijay Reddy, Keith Wilkes, 2013 Other research dimensions discussed in the book are drawn from Brazil Hawaii England Australia and New Zealand

**Climate Change and Tourism** Susanne Becken, John Hay, 2012-06-25 The contribution of tourism to climate change and the likely consequences of climate change for key tourist destinations has been well reported and discussed Yet there is a lack of evidence based systematic practical advice as to how the tourism industry should respond to the challenge of climate change Building on a sound conceptual understanding of the links between climate change and tourism this book shows how the tourism sector might best respond It not only focuses on the roles of supportive policies and institutions in ensuring a strong enabling environment for practical responses but also on the practical responses themselves This practical approach is presented through a large number of case studies and examples which illustrate how policy and industry initiatives have been implemented in tourism and if or why they were successful The majority of examples come from places such as the Caribbean Spain the Maldives Nepal and the UK as well as Australia New Zealand and other parts of the Pacific The examples are presented within an overall framework that facilitates the translation of adaptation and mitigation policies into practice This book offers the tourism industry students and academics the opportunity to advance from the earlier more conceptual texts on tourism and climate change by taking a much more practical approach Its global coverage through the use of international case studies

fosters a cross fertilisation of ideas and initiatives This text provides a detailed analysis of best practices in the face of climate change across countries and geographically diverse tourist destinations and operations      **Aircraft Valuation**  
David Yu,2020-10-23 This book is one of the first to explore aviation and aircraft leasing and its values establishing it as a standalone investable asset class within the larger real assets industry Airplanes are a crucial but capital intensive component of the global economy The author as an academic researcher appraiser advisor and businessperson in the industry bridges a gap in the existing literature with his analysis of the underlying aviation asset class return and risk profile The book describes the characteristics dynamics and drivers of the global Asia and China specific aviation and leasing landscapes Recent effects of COVID 19 on aviation and an analysis of the drivers affecting cross border mergers and acquisitions in the industry are also investigated The book includes 20 years of empirical aircraft valuation evidence and analysis of its characteristics establishing the aircraft and sub segments as asset classes In addition characteristic comparisons to other real asset subclasses and benchmarks are examined This book will be of interest to academics financiers investors industry participants and more general aviation enthusiasts
