Basho Bashō Matsuo, 2013 Basho Matsuo Basho, 2013-09-13 Basho stands today as Japan's most renowned writer and one of the most revered Wherever Japanese literature poetry or Zen are studied his oeuvre carries weight Every new student of haiku quickly learns that Basho was the greatest of the Old Japanese Masters Yet despite his stature Basho's complete haiku have not been collected into a single volume Until now To render the writer's full body of work into English Jane Reichhold an American haiku poet and translator dedicated over ten years of work In Basho The Complete Haiku she accomplishes the feat with distinction Dividing his creative output into seven periods of development Reichhold frames each period with a decisive biographical sketch of the poet's travels creative influences and personal triumphs and defeats Scrupulously annotated notes accompany each poem and a glossary and two indexes fill out

the volume Reichhold notes that Basho was a genius with words He obsessively sought out the right word for each phrase of the succinct seventeen syllable haiku seeking the very essence of experience and expression With equal dedication Reichhold sought the ideal translations As a result Basho The Complete Haiku is likely to become the essential work on this brilliant poet and will stand as the most authoritative book on the subject for many years to come Original sumi e ink drawings by artist Shiro Tsujimura complement the haiku throughout the book

Haiku, Other Arts, and Literary Disciplines Toru Kiuchi, Yoshinobu Hakutani, 2022-01-28 Haiku Other Arts and Literary Disciplines investigates the genesis and development of haiku in Japan and determines the relationships between haiku and other arts such as essay writing painting and music as well as the backgrounds of haiku such as literary movements philosophies and religions that underlie haiku composition By analyzing the poets who played major roles in the development of haiku and its related genres these essays illustrate how Japanese haiku poets and American writers such as Emerson and Whitman were inspired by nature especially its beautiful scenes and seasonal changes Western poets had a demonstrated affinity for Japanese haiku which bled over into other art mediums as these chapters discuss

Poetry, Publishing, and Visual Culture from Late Modernism to the Twenty-first Century Natalie Pollard, 2020-05-27 This is a book about contemporary literary and artistic entanglements word and image media and materiality inscription and illustration It proposes a vulnerable fugitive mode of reading poetry which defies disciplinary categorisations embracing the open endedness and provisionality of forms This manifests itself interactively in the six case studies which have been chosen for their distinctness and diversity across the long twentieth century the book begins with the early twentieth century work of writer and artist Djuna Barnes exploring her re animation of sculptural and dramatic

sources It then turns to the late modernist artist and poet David Jones considering his use of the graphic and plastic arts in *The Anathemata* and next to the underappreciated mid century poet F T Prince whose work uncannily re activates Michelangelo s poetry and sculpture The second half of the book explores the collaborations of the canonical poet Ted Hughes with the publisher and artist Leonard Baskin during the 1970s the innovative late twentieth century poetry of Denise Riley who uses page space and embodied sound as a form of address and finally the contemporary poet Paul Muldoon who has collaborated with photographers and artists as well as ventriloquising nonhuman phenomena The resulting unique study offers contemporary writers and readers a new understanding of literary artistic and nonhuman practices and shows the cultural importance of engaging with their messy co dependencies The book challenges critical methodologies that make a sharp division between the textual work and the extra literary and raises urgent questions about the status and autonomy of art and its social role

Essays on Unfamiliar Travel-Writing John Anthony Butler, 2017-01-06 This book comprises a number of essays on travel narratives which are somewhat unknown to the general reader They include writing by people who travelled from the East to the West as well as those going the usual way The travellers include a seventeenth century accountant a Persian shah an Indian rajah and a Hawaiian king as well as an Irish doctor an American journalist and a Japanese poet The book presents these travellers in an informal manner although there are discussions about identity otherness and stereotyping as they are displayed in the narratives The book will appeal to students and academics as well as the general reader
