**The Savior Generals** Victor Davis Hanson, 2013-05-14 Stirring portraits of five commanders whose dynamic leadership changed the course of war and history by prominent military historian Victor Davis Hanson Victor Davis Hanson has written another outstanding and eye opening book The Washington Examiner Leading military historian Victor Davis Hanson returns to non fiction in The Savior Generals a set of brilliantly executed pocket biographies of five generals who

single handedly saved their nations from defeat in war War is rarely a predictable enterprise it is a mess of luck chance and incalculable variables Today s sure winner can easily become tomorrow s doomed loser Sudden sharp changes in fortune can reverse the course of war These intractable circumstances are sometimes mastered by leaders of genius asked at the eleventh hour to save a hopeless conflict created by others often unpopular with politics and the public These savior generals often come from outside the established power structure employ radical strategies and flame out quickly Their careers often end in controversy But their dramatic feats of leadership are vital slices of history not merely as stirring military narrative but as lessons on the dynamic nature of consensus leadership and destiny **Belisarius** Ian Hughes (Historian),2009

*Battles and Generals: Combat, Culture, and Didacticism in Procopius' Wars* Conor Whately, 2016-03-17 In Battles and Generals Combat

Culture and Didacticism in Procopius Wars Whately reads Procopius descriptions of combat through the lens of didacticism arguing that one of Procopius intentions was to construct those accounts not only so that they might be entertaining to his audience but also so that they might provide real value to his readership which was comprised in part of the empire's military command In the course of this analysis we discover that the varied battles and sieges that Procopius describes are not generic rather they have been crafted to reflect the nature of combat as understood by Procopius on the three fronts of Justinian's wars the frontier with Persia Vandal north Africa and Gothic Italy The Land of Piceno Phoebe Leed,Nathan Neel,2021-07-01 Indigenous peoples cancelled by a burgeoning empire Devastating earthquakes level ancient monuments Marauding invaders loot and pillage art treasures And yet verdant hillsides ripple with vineyards and olive groves The dramatic blue Sibillini Mountains shelter shepherds freedom fighters and necromancers Lined with palms and orange trees the luxurious Adriatic coast is monitored by medieval towers and pagan temples This is the Land of Piceno Le Marche Italy whose founding symbol Picus sacred woodpecker of Mars guides us through the vicissitudes of time The History of the Decline and Fall of the Roman Empire Edward Gibbon,1830 **Encyclopaedia Britannica; Or A Dictionary of Arts, Sciences, and Miscellaneous Literature** ,1823 Art History 101 . . . **The Sea and Civilization** Lincoln Paine,2013-10-29 A monumental retelling of world history through the lens of maritime enterprise revealing in breathtaking depth how people first came into contact with one another by ocean and river lake and stream and how goods languages religions and entire cultures spread across and along the world's waterways bringing together civilizations and defining what makes us most human Lincoln Paine takes us back to the origins of long distance migration by sea with our ancestors first forays from Africa and Eurasia to Australia and the Americas He demonstrates the critical role of maritime trade to the civilizations of ancient Egypt Mesopotamia and the Indus Valley He reacquaints us with the great seafaring cultures of antiquity like those of the Phoenicians and Greeks as well as those of India and Southeast and East Asia who parlayed their navigational skills shipbuilding techniques and commercial acumen to establish thriving overseas colonies and trade routes in the centuries leading up to the age of European expansion And finally his narrative traces how commercial shipping and naval warfare brought about the enormous demographic cultural and

political changes that have globalized the world throughout the post Cold War era This tremendously readable intellectual adventure shows us the world in a new light in which the sea reigns supreme We find out how a once enslaved East African king brought Islam to his people what the American sail around territories were and what the Song Dynasty did with twenty wheel human powered paddleboats with twenty paddle wheels and up to three hundred crew Above all Paine makes clear how the rise and fall of civilizations can be linked to the sea An accomplishment of both great sweep and illuminating detail The Sea and Civilization is a stunning work of history
