Beyond Biocentrism Rethinking Time Space Consciousness And The Illusion Of Death

Craig Chalquist, Garret Barnwell

Beyond Biocentrism Rethinking Time Space Consciousness And The Illusion Of Death:

Beyond Biocentrism Robert Lanza, Bob Berman, 2016-05-03 Biocentrism shocked the world with a radical rethinking of the nature of reality But that was just the beginning In Beyond Biocentrism acclaimed biologist Robert Lanza one of TIME Magazine's 100 Most Influential People in 2014 and leading astronomer Bob Berman take the reader on an intellectual thrill ride as they re-examine everything we thought we knew about life death the universe and the nature of reality itself The first step is acknowledging that our existing model of reality is looking increasingly creaky in the face of recent scientific discoveries Science tells us with some precision that the universe is 26.8 percent dark matter 68.3 percent dark energy and only 4.9 percent ordinary matter but must confess that it doesn't really know what dark matter is and knows even less about dark energy Science is increasingly pointing toward an infinite universe but has no ability to explain what that really means Concepts such as time space and even causality are increasingly being demonstrated as meaningless All of science is based on information passing through our consciousness but science hasn't the foggiest idea what consciousness is and it can't explain the linkage between subatomic states and observation by conscious observers Science describes life as a random occurrence in a dead universe but has no real understanding of how life began or why the universe appears to be exquisitely designed for the emergence of life The biocentrism theory isn't a rejection of science Quite the opposite Biocentrism challenges us to fully accept the implications of the latest scientific findings in fields ranging from plant biology and cosmology to quantum entanglement and consciousness By listening to what the science is telling us it becomes increasingly clear that life and consciousness are fundamental to any true understanding of the universe This forces a fundamental rethinking of everything we thought we knew about life death and our place in the universe

Quantenphysik und das Bewusstsein des Universums. Zweite erweiterte Auflage. Bruno Del Medico, 2025-09-01 Wenn wir über Quantenphysik sprechen denken wir sofort an beschwörende Bilder flüchtige Teilchen mysteriöse Sprünge unverständliche Zusammenhänge Doch die faszinierende Revolution die im 20. Jahrhundert von Wissenschaftlern wie Niels Bohr Werner Heisenberg und Erwin Schrödinger eingeleitet wurde beschränkte sich nicht auf Gleichungen Sie stellte unsere Gewissheiten über die Beziehung zwischen Materie und Bewusstsein zwischen Beobachter und beobachtetem Universum auf den Kopf Die Frage die Physiker und Philosophen seit Jahrzehnten beschäftigt ist überraschend Wäre das Universum existieren wenn es keine bewussten Beobachter gäbe Bereits 1931 erklärte Max Planck Ich halte Bewusstsein für grundlegend Alles wovon wir sprechen alles was wir betrachten existiert nur dank Bewusstsein Diese Vision fand in den Quantenphänomenen des 20. Jahrhunderts fruchtbaren Boden Das Doppelspaltexperiment das Thomas Young erstmals 1801 durchführte und aus einer Quantenperspektive neu interpretierte zeigt wie ein Teilchen sein Verhalten bei Beobachtung ändert Einigen Physikern zufolge verbleibt die Realität ohne einen bewussten Beobachter in einem unbestimmten und probabilistischen Zustand Ein weiteres Schlüsselkonzept ist die Quantenverschränkung Wenn zwei Teilchen miteinander verschränkt sind bewirkt jede Veränderung des einen Teilchens

sofort eine Veränderung des anderen unabhängig von der Entfernung Seit den 1980er Jahren haben Experimente wie die von Alain Aspect an der Universität Paris bestätigt dass Verschränkung real ist Die Botschaft scheint klar Im Herzen der Realität ist alles miteinander verbunden Sogar das Bewusstsein scheint Teil dieses universellen Netzwerks zu sein David Bohm Physiker und Einstein Schiler postulierte in den 1980er Jahren das Universum sei ein Superhologramm eine vernetzte Struktur in der jeder Teil Informationen über das Ganze enthält Bohm argumentierte das menschliche Bewusstsein sei an diese universelle Struktur gebunden Tief im Universum schrieb Bohm gibt es eine implizite Ordnung eine fundamentale Einheit die Materie Geist und Bewusstsein umfasst Diese Perspektive spiegelt alte stliche Philosophien wider Im Buddhismus und Hinduismus wird die Vorstellung dass das individuelle Selbst Teil eines kosmischen Bewusstseins ist seit Jahrtausenden gelehrt Der Philosoph Carl Jung formulierte in den 1950er Jahren in Zürich das Konzept des kollektiven Unbewussten eine Dimension in der Gedanken Erinnerungen und Archetypen in einer Art platonischem Ideenraum zirkulieren der jenseits des individuellen Geistes liegt Heute erscheint die Behauptung Bewusstsein sei lediglich ein Produkt des Gehirns reduktionistisch Die Quantenphysik hat zeitgenössische Denker dazu veranlasst die metaphysischen Wurzeln der Realität neu zu bewerten Seit den 1990er Jahren postuliert Roger Penrose dass das menschliche Bewusstsein mit Quanteneffekten in den Mikrotubuli von Neuronen zusammenhängt Vielleicht ist das Universum wie der große Physiker John Archibald Wheeler in den 1980er Jahren vermutete partizipatorisch Schon der Akt des Beobachtens trägt zur Gestaltung der Realität bei Die Frage mit der diese zweite Ausgabe beginnt ist einfach und beunruhigend Sind wir Teil eines universellen Bewusstseins Ob durch mystische Visionen in Indien oder Experimente im Herzen des Westens die Quantenphysik legt weiterhin nahe dass die Welt ohne ein Bewusstsein das sie beobachten kann nicht wirklich existiert Und dass der menschliche Geist vielleicht nur ein Funke des größeren Bewusstseins des Universums ist

The Fullness of Love Eric Todd, 2022-08-22 Eric Todd experienced a life changing phenomenon of life after death at the moment of his mother's passing He intuited a Oneness wrapped in indescribable Love and Peace or an InfiUnity with God Todd is also a recovering Evangelical calling to repeal and replace Churchianity Baptized in a history of racism partisan politics and religious nationalism he makes the case that it is a dangerous cult co-opting the name of Christ He believes that the teachings of Jesus unfiltered by centuries of constrictive voices are revolutionary to hearers today As such Todd declares a mandate saying It's time to know deeper not more and has found freedom in the unknowing mysteries of God In *The Fullness of Love* Todd draws from the ancient faith's wealth of orthodoxy distilling difficult and nuanced biblical passages to transform the message and practice for the twenty first century

Reading Beyond the Lines: A Treatise on Consciousness, Energy, Spirituality and Healing Liyla S, 2022-06-08 On an unsuspecting Friday night Liyla lost her son to an accident Lost and disillusioned all she wanted was a chance to speak to her son again tell him she loved him and missed him But death is the end isn't it In a mind bending journey through the many planes we humans exist in Liyla's life changes as she encounters people who help reach across the veil of life and connect her to her

son This event opens a door in her life through which she discovers the meaning of life and beyond Her studies ranging from contemporary Western sciences to ancient Indian wisdom lead her to understanding what it means to live and our purpose on this planet along with a clear realization that the universe is just energy This book will take you on a journey that answers many questions that have plagued humanity What exactly is the mind What is Consciousness What is destiny And the biggest one of all What happens after our physical forms pass from this life Liyla looks at these questions with a scientific lens hoping to bridge the gaps between science and spirituality for each one of us looks for answers for these same questions within this cosmos In this book the spiritual aspects of life are explained with reference to the Panchakosha five layer theory of Indian spirituality which is elucidated in the Upanishads and other ancient Indian books This gives a strong logical basis to understand Consciousness and life in the physical and subtle planes **Soul Light** Dorothea Fuckert, MD,2023-01-05 Each Soul incarnates with a unique blend out of 100 and more Divine gifts In the body s compacted light energy they often build blockings masked marvels yet lead to our evolutionary purpose On more than 2000 Afterlife Journeys the author facilitated her clients unmediated visceral experience of their Soul in a higher dimensional heavenly realm Imagine perceiving yourself in a virtual mirror as a conscious being of light radiating your unique gifts energy and colors and having even more expanded Soul states Dr Michael Newton s proven method enables this safe profound Spiritually Transformative Experience STE

Consciousness and Matter Kirill Kopeikin,Alexei V. Nesteruk,2024-03-21 This volume represents a collective effort to advance research on the perennial problem of matter and consciousness body and mind It contains contributions from the fields of philosophy psychology physiology cosmology and physics However its distinctive emphasis is on the key role of theology The modern natural sciences historically arose as an attempt to read the second book of God that is the book of Nature The contributors to this volume maintain that this orientation of early modern science was correct and that our contemporary understanding of matter and its link with the psychic world can only be plausibly advanced through an appeal to theology Attempts to resolve the problem of consciousness without theological insights yield problematic reductions of mind to matter or vice versa The authors maintain that a Christian theological understanding of creation and of humanity provides a framework for a more fruitful way forward in our interdisciplinary attempts to engage the issue **Near-Death Experiences** Jim Willis,2024-04-09 Thousands perhaps millions of people have had near death experiences NDEs Why do so many report uncannily similar experiences What are they a simple trick of the mind and body or something more What are we to make of them and do they tell us anything about the possibility of an afterlife An illuminating and thought provoking journey into the enigmatic territory where science spirituality and human consciousness converge Near Death Experiences Afterlife Journeys and Revelations presents a comprehensive journey through different interpretations of NDEs The Scientific What neuroscience medicine and biology have to say about what happens at the brink of death The Religious What NDE like experiences found in the Bible the Tibetan Book of the Dead the Talmud the Quran and other religious tracts tell us Historic

and Personal What folklore and personal stories reveal about this alternate consciousness that occurs during a life threatening situation The Metaphysical Possible answers involving quantum reality parallel universes and the subconscious Challenging you to explore all possibilities Near Death Experiences will have you reconsidering your understanding of life death and consciousness With more than 100 photos and graphics this tome is richly illustrated Its helpful bibliography provides sources for further exploration and an extensive index adds to its usefulness

A Theory of Nothing D. N. Warren-Smith MSc.,2017-01-12 From the day we are born life is teaching us lessons Whether it is how we navigate our physical environment or our socio cultural surround we are constantly trying to make sense of our reality by listening to these life lessons Yet while many of life s lessons reinforce our reality every so often life s lessons present us with a curious idea that everything out there our reality may not be as real as it seems A Theory of Nothing How Is the Finite Reality Created from the Infinite chronicles one man s lifelong journey to develop life s lessons into a concept of reality that challenges our preconceived notions of objectivity Although we tend to think of the world around us and our reality as being a shared objective world in which we live author D N Warren Smith furthers the philosophical argument that it is really our subjective perceptions that shape and even make the world around us With compelling logical arguments and descriptions of personal experience he shows that our most basic assumptions about the reality of our existence in fact keep the true nature of reality hidden from us Once we realise that there is no way to conclusively prove that we actually exist in an objective reality we must weigh up the implications of a non objective subjective reality and what it means for our lives We have a choice for our belief in what exists How will you choose

Profit with Presence Eric J. Holsapple,2023-03-07 It s time for leaders to join the mindful business revolution and find true success Although the world is currently abuzz with the term mindfulness some believe mindfulness is a fringe activity to be practiced before or after the workday if at all Too few business professionals take the time needed to be present and aware throughout the workday which is counterproductive Dr Eric Holsapple successful developer and entrepreneur has realized the value of mindfulness as not only a path to personal success but as a sound business strategy Mindfulness and Presence can transform business culture improving focus and communication while reducing distractions and stress Holsapple learned this lesson years ago after achieving success as defined by society but still feeling unhappy and stressed In Profit with Presence he shares the lessons he learned and his twelve pillars for personal and business success which are easy to understand and implement through practice exercises Holsapple shows that bringing mindfulness to the workplace is an investment that pays out real dividends Readers will learn from his journey along with support from other mindful leaders and research to help them bring mindfulness to themselves as well as their families businesses and communities Now is the time for leaders to invest in the mindful business movement and become part of the solution

Places Beyond Belief Michael K. Yen,2020-08-13 In 2017 Michael completed the first book in his planned trilogy From Physical to Metaphysical in Four Steps and One Giant Leap where he explored how we can

separate from our materialistic attachment by seeing past our bodies our emotions and our thoughts After these three steps Michael illustrated how by enhancing and refining our life energy we can take one giant leap into metaphysical consciousness In Places Beyond Belief he expands on the concepts raised in the first book and also details some of his out of body experiences OBE that offer direct evidence of how the non physical envelops our material reality Michael also tells the story of how encounters in material reality with ghosts qigong masters psychics a living Buddha and extraterrestrials prepared him for having OBEs Building on the events covered in the first book Michael recounts how in trying to uncover the true nature of his UFO experiences he turned to using OBEs as a way to find answers about the reality of the beings he encountered What he found was not what he expected and lead to his discovery of the field of spirit release therapy and the large body of psychological literature that the subject has produced since William Baldwin s Spirit Releasement Therapy A Technique Manual was published in 1995 While disclosing intimately personal experiences to illustrate his points Michael also takes time to discuss the big issues of the day highlighting how personal and spiritual development is intricately linked to how well we live in the material world Coming three years after his first book Places Beyond Belief follows Michael s journey deeper into the metaphysical world that he was only first discovering when he wrote One Giant Leap By daring to let direct experience be the guide Michael went to places beyond belief and came back to write about it

Hope Restored: An Autobiography by Paul Hellyer Paul Hellyer, 2018-09-07 This powerful book argues that the human species is at a tipping point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice Hellyer demonstrates that God is alive well and everywhere and that humanity's choice is between the Dark and the Light To follow the Light means giving up atomic weapons replacing the oil economy with clean zero point energy developed by Americans in the 1960s having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families a reconciliation of the two main branches of Islam and a just settlement of the Israeli Palestinian dispute to bring peace to the Middle East Finally it will be necessary for all countries races and faiths especially young people to forgive past atrocities and work together in common purpose to save the heritage they have in common
