Worrell, 2020-02-17 Together again for the first time Marx and Durkheim join forces in the pages of *Disintegration Bad Love Collective Suicide and the Idols of Imperial Twilight* for a dialectical exploration of the moral economy of neoliberalism animated as it is not only by the capitalist chase for surplus value but also by an immortal vortex of sacred powers Classical sociology and psychoanalysis are reconstituted within Hegelian social ontology and dialectical method that differentiates between the ephemeral and free and the eternal and fixed aspects of modern life Reforming the Greek Pension System Mr. Alvar

Kangur,Niki Kalavrezou,Mr. Daehaeng Kim,2021-07-16 The Greek pension system has been costly complex and distortive which has contributed to Greece s fiscal problems and discouraged labor force participation Several attempts to reform the system faltered due to lack of implementation pushback by vested interests and court rulings leading to reversals A series of reforms introduced throughout 2015 17 unified benefit and contribution rules removed several distortions and reduced fragmentation and costs If fully implemented throughout the long term these reforms can go a long way towards enhancing the pension system affordability However reforms faced setbacks and fell short of creating stronger incentives to build long contribution histories to deliver sustainable growth by improving the fiscal policy mix and to ensure fairness and equitable burden sharing across generations and interest groups Policy priorities should aim towards fully implementing the 2015 17 reforms and complementing them with additional reforms to address these remaining objectives
