with David Downs

Beyond Buds Marijuana Extractsa Hash Vaping Dabbing Edibles And Medicines

Walter J. Crinnion, Joseph E. Pizzorno

Beyond Buds Marijuana Extracts Hash Vaping Dabbing Edibles And Medicines:

Beyond Buds Ed Rosenthal, 2015-01-19 *Beyond Buds* is a handbook to the future of marijuana. Prohibition's end has led to a technological revolution that's generated powerful medicines and products containing almost zero carcinogens and little smoke. Marijuana icon Ed Rosenthal and leading cannabis reporter David Downs guide readers through the best new consumer products and demonstrate how to make and use the safest, cleanest extracts. *Beyond Buds* details how award-winning artisans make hash and concentrates and includes modern techniques utilizing dry ice and CO2. The book is a primer on making kief, water hash, tinctures, topicals, edibles, and other extracts from cannabis leaves, trim, and bud bits, and it goes on to explore and simplify the more exotic and trendy marijuana-infused products such as butane hash oil, BHO, shatter, wax, and budder. More complex than lighting a joint, these innovative products call for new accessories: special pipes, dabbing tools, and vaporizers, all of which are reviewed and pictured in the book. *Beyond Buds* expands on Rosenthal's previous book *Ask Ed: Marijuana Gold Trash to Stash*. Completely updated with full-color photographs that are both how-to guides and eye candy, this book enables not only the health-conscious toker but also the bottom-line driven cultivator.

Clinical Environmental Medicine Walter J. Crinnion, Joseph E. Pizzorno, 2018-04-26 Did you know that high levels of toxins in the human body can be linked to common conditions such as infertility, obesity, rheumatoid arthritis, heart disease, and diabetes? With therapeutic guidance designed for clinicians, *Clinical Environmental Medicine* focuses on how toxins such as arsenic, lead, mercury, and organophosphates have become one of the leading causes of chronic disease in the industrial world. The first edition of this text describes how to treat these undesirable elements and molecules that can poison enzyme systems, damage DNA, increase inflammation, and oxidative stress, and damage cell membranes. Expert authors Walter Crinnion and Joseph E. Pizzorno offer practical guidance for assessing both total body load as well as specific toxins. In addition, evidence-based treatment procedures provide recommendations for decreasing toxin exposure and supporting the body's biotransformation and excretion processes. NEW! Unique Practical diagnostic and therapeutic guidance designed for clinicians. NEW! Unique Coverage of the most common diseases for which toxins are a primary cause. NEW! Description of how each toxin causes damage, provides insights into sources, body load, and interventions for each toxin. NEW! Unique Entirely evidence-based content focuses on the most common conditions from which patients suffer. NEW! Unique Coverage of environmental toxicants, endogenous toxicants, and toxins of choice focuses on non-industrially exposed populations.

Cannabis Betty Wedman-St. Louis, 2018-04-19 Cannabis is one of the oldest cultivated plants, dating back 12,000 years, and demonstrates medicinal properties including immune support, anti-inflammatory effects, and cancer-fighting potential. As cannabis receives regulatory approval in the United States, clinicians will need guidelines to prescribe medical marijuana for various health conditions. This book presents information to healthcare professionals focusing on medical cannabis. It is a science-based overview providing clinical recommendations and dosing guidelines for practitioners to advise patients appropriately.

Features Discusses the endocannabinoid system role in homeostasis pain control and regulatory function in health and disease Advises clinicians on cannabis use in patients with cancer cardiovascular brain and liver function mood disorders and patients receiving palliative care Includes information on cannabis nutrition as well as the cannabis microbiome Features information on cannabis quality control for safe and effective delivery Cannabis A Clinician's Guide is written for clinicians providing a resource guide to help them assess the medicinal value of cannabis answer patient and consumer questions and recommend its use optimally The book is divided into three sections covering cannabis science use in clinical practice and regulations and standards It includes practical information on dosing guidelines and dispensary insights personal cannabis stories and an in depth look at the nutritional benefits of cannabis and how to use it in daily life From the Author As a clinical nutritionist I have been involved in the use of cannabis since 1981 while researching diabetes in India Ayurvedic medicine listed cannabis as a beneficial herb with curing properties In 1983 a Chinese medicine doctor in the Peoples Republic of China gave me a cannabis herbal supplement for sleep that he claimed Chairman Mao took regularly Upon returning to the United States no one would even talk to me about cannabis because of its Schedule I status During an Antioxidants class taught for Everglades University I included information on cannabis but was restricted from including it in the course description Cannabis A Clinician's Guide unveils deceit on this herbal medicine used for thousands of years providing insight into the science behind its use and how to incorporate cannabis into daily life especially for those suffering from neurological disorders cancer and mood disorders
