Transcending Self and Other Through Akogare [Desire] Chisato Nonaka, 2018-09-26 The Japanese concept of akogare has become well known in TESOL related literature in recent years usually in the context of interracial sexual desire In this far reaching new study of the internationalization of Japanese Higher Education Chisato Nonaka uses akogare as both an analytical lens and the object of enquiry and ultimately reconceptualises it as the creation of a space where individuals negotiate and transcend their ethnic national racial gender or linguistic identities The book innovatively engages with the often controversial binary of Japanese non Japanese and demonstrates how Japan often thought of as a homogenous nation may be at a critical crossroads where long held assumptions about a singular Japanese identity no longer hold true The book has profound implications for how internationalization can mean more than just the use of English

Knowledge as Value Ian Morley, Mira Crouch, 2008 This book considers the place and value of knowledge in contemporary society Knowledge is not a self evident concept both its denotations and connotations are historically situated Since the Enlightenment knowledge has been a matter of discovery through effort and knowledge for its own sake a taken for granted ideal underwriting progressive education as a process which not only taught for and about something but also ennobled the soul While this ideal has not been explicitly rejected in recent decades there has been a tacit move away from a strong emphasis on its centrality even in Higher Education The authors address the values that inform

knowledge production in its present forms and seek to identify social and cultural factors that support these values Against the background of increasingly restrictive conditions of academic work the first section of this volume offers incisive critiques of Higher Education with examples drawn from Australia and New Zealand The second group of chapters considers how academics have viewed and have tried to adapt to present circumstances The third section comprises papers that consider epistemological issues in the generation and promulgation of knowledge The chapters in this volume are indicative of the work that needs to be done so that we can come to comprehend and perhaps try and improve our relationship to learning and knowledge in the 21st Century This timely book will be of particular interest to workers in higher education it should also inform and challenge all those who have concerns for the future of the intellectual life of our civilization **Racial**

Nationalisms Sivamohan Valluvan, Virinder S. Kalra, 2020-12-17 This book addresses the centrality of race and racism in consolidating the nationalisms currently prominent in Brexit Britain Particular attention is given to the issues of refugees borders and bordering and the wider forms of nativist and anti Muslim sentiments that anchor today s increasingly populist forms of nationalist politics It is argued that the forms of scapegoating and alarmism integral to the revival of nationalism in British politics are fundamentally tied to racialised processes Equally however it is argued that such a political climate is not simply discursive but also yields acute forms of governance wherein an increasingly violent attention is given by the state to the border The chapters in the book do however also attempt to think through the possibilities of a constructive response to this moment Emphasis is given here to the everyday cultural textures that might help shape a popular opposition to racial nationalism Similarly the book attempts to unpack the appeal of today s distinctive populism in ways that might be more responsive to anti racist and anti nationalist sentiments Racial Nationalisms will be of interest to academics and researchers studying postcolonialism nationalism ethnic and racial studies and to advanced students of sociology political science and public policy This book was originally published as a special issue of the journal Ethnic and Racial Studies **Women's**

Anderson,2020-08-25 K pop Korean popular music reigns as one of the most popular music genres in the world today a phenomenon that appeals to listeners of all ages and nationalities In *Soul in Seoul* African American Popular Music and K pop Crystal S Anderson examines the most important and often overlooked aspect of K pop the music itself She demonstrates how contemporary K pop references and incorporates musical and performative elements of African American popular music culture as well as the ways that fans outside of Korea understand these references K pop emerged in the 1990s with immediate global aspirations combining musical elements from Korean and foreign cultures particularly rhythm and blues genres of black American popular music Korean solo artists and groups borrow from and cite instrumentation and

vocals of R B genres especially hip hop They also enhance the R B tradition by utilizing Korean musical strategies These musical citational practices are deemed authentic by global fans who function as part of K pop s music press and promotional apparatus K pop artists also cite elements of African American performance in Korean music videos These disrupt stereotyped representations of Asian and African American performers Through this process K pop has arguably become a branch of a global R B tradition Anderson argues that Korean pop groups participate in that tradition through cultural work that enacts a global form of crossover and by maintaining forms of authenticity that cannot be faked and furthermore propel the R B tradition beyond the black white binary

Bridges, 2020-02-10 Playing in the Shadows considers the literature engendered by postwar Japanese authors robust cultural exchanges with African Americans and African American literature The Allied Occupation brought an influx of African American soldiers and culture to Japan which catalyzed the writing of black characters into postwar Japanese literature This same influx fostered the creation of organizations such as the Kokujin kenkyu no kai The Japanese Association for Negro Studies and literary endeavors such as the Kokujin bungaku zensh The Complete Anthology of Black Literature This rich milieu sparked Japanese authors Nakagami Kenji and e Kenzabur are two notable examples interest in reading interpreting critiquing and ultimately incorporating the tropes and techniques of African American literature and jazz performance into their own literary works Such incorporation leads to literary works that are black not by virtue of their representations of black characters but due to their investment in the possibility of technically and intertextually black Japanese literature Will Bridges argues that these fictions of race provide visions of the way that postwar Japanese authors reimagine the ascription of race to bodies be they bodies of literature the body politic or the human body itself
