Exercises for advanced Spanish-speaking learners of English. Book 1.** Kennedy-Scanlon, Michael, Pladevall-Ballester, Elisabet, Cebrian, Juli, 2024-10-09 This book is the result of years of experience teaching English to Spanish undergraduates studying for a degree in English Language and Literature The focus of the book reflects the assumption that a large majority of the mistakes made by advanced level learners are the result of interference from their native language The approach adopted in this book is based on the idea that correcting one's own mistakes involves two separate operations namely first recognising the error as such and then providing the correction for it In the first two thirds of the book errors are explicitly identified for the learner whose task is simply to correct the errors In the final third however learners must carry out both operations It is this two step approach that the term guided error correction tries to reflect In order to provide sufficient practice each of the errors all characteristic of Spanish speakers learning English occurs on six separate occasions in the book In addition the book includes a section of brief explanatory notes at the back of the book where each of the errors is explained with Spanish translations provided to enhance comprehension of nuances in meaning These notes are cross referenced with each error in the exercises for handy referral but at the same time represent in themselves a compact reference source for common errors This book will be useful for advanced level Spanish speaking learners of English in any context though it has been designed primarily not for systematic consecutive classroom use but rather as a series of self correcting one page exercises that can be pursued sporadically at the learner's convenience This book is part of a series of three books **True to Life Pre-intermediate Teacher's Book** Ruth Gairns, Stuart Redman, 1995-06-29 True to Life is a five level course designed specifically for adult learners **Investigating Science for Jamaica: Separate Sciences Book 3** June Mitchelmore, 2017-09-07 Investigating Science for Jamaica Separate Sciences comprehensively covers the new National Standards Curriculum NSC for Grade in Biology Chemistry and Physics As well as acquiring scientific knowledge students will develop the process skills necessary to engage in scientific enquiry With activities and questions that provide a methodical approach to investigation and problem solving integrating ICT STEAM and enquiry based learning this course gives students an excellent foundation for the study of the separate sciences at CSEC level Workbook in Practical Neonatology - E-Book Richard Polin, Thomas Hays, 2025-01-02 Now in full color for the first time Workbook in Practical Neonatology Seventh Edition uses a highly effective case based approach to provide practical clinical guidance on evaluation diagnosis and treatment of newborns World renowned neonatologist Dr Richard Polin and
