Public Religious Disputation in England, 1558-1626 Joshua Rodda, 2016-04-15 With a focus on England from the accession of Elizabeth I to the mid 1620s this book examines the practice of direct scholarly disputation between fundamentally opposing and oftentimes antagonistic Catholic Protestant and nonconformist puritan divines Introducing a form of discourse hitherto neglected in studies of religious controversy the volume works to rehabilitate a body of material only previously examined as part of the great subjective mass of polemic produced in the wake of the Reformation In so doing it argues that public religious disputation debate between opposing clergymen arranged according to strict academic formulae can offer new insights into contemporary beliefs thought processes and conceptions of religious identity as well as an accessible and dramatic window into the major theological controversies of the age Formal disputation crossed confessional lines and here provides an opportunity for a broad comparative analysis More than any other type of interaction or material these encounters and the dialogic accounts they produced displayed the shared methods underpinning religious divisions allowing Catholic and reformed clergymen to meet on the same field The present volume asserts the significance of public religious disputation and accounts thereof in this regard and explores their use of formal logic academic procedure and recorded dialogue form to bolster religious controversy In this it further demonstrates how we might begin to move from the surviving source material for these encounters to the events themselves and how the disputations then offer a remarkable new glimpse into the construction rationalization and expression of post Reformation religious argument

The Poetics of Conversion in Early Modern English Literature Molly Murray,2009-10-15 This book considers the poetry written by converts between Catholic and Protestant churches within post Reformation England

Print and Protestantism in Early Modern England Ian Green,2000-11-02 In this highly innovative study Ian Green examines the complete array of Protestant titles published in England from the 1530s to the 1720s These range from the large specialist volumes at the top to cheap tracts at the bottom from radical on one wing to conservative on the other and from instructive and devotional manuals to edifying cum entertaining works such as religious verse and cautionary tales Wherever possible the author adopts a statistical approach to permit a focus on those works which sold most copies over a number of years and in an annotated Appendix provides a brief description of over seven hundred best selling or steady selling religious titles of the period A close study of these texts and the forms in which they were offered to the public suggests a rapid diversification of both the types of work published and of the readerships at which they were targeted It also demonstrates shrewd publishers frequent attempts to plug gaps in a rapidly expanding market Where previous studies of print have tended to focus on the polemical and the sensational this one highlights the didactic devotional and consensual elements found in most steady selling works It is also suggested that in these works there were at least three Protestantisms on offer an orthodox clerical version a moralistic rational version favoured by the educated laity and a popular version that was barely Protestant at all and that the impact of these probably varied both within and between different readerships These conclusions shed much light not only on the means by which English Protestantism was disseminated but also on the doctrinally and culturally diffused nature of English Protestantism by the end of the Stuart period Both the text and the appendix should prove invaluable to anyone interested in the history of the Reformation or in printing as a medium of education and communication in early modern England

Catholic Reformation in Protestant Britain Alexandra Walsham,2016-04-15 The survival and revival of Roman Catholicism in post Reformation Britain remains the subject of lively debate This volume examines key aspects of the evolution and experience of the Catholic communities of these Protestant kingdoms during the sixteenth and seventeenth centuries Rejecting an earlier preoccupation with recusants and martyrs it highlights the importance of those who exhibited varying degrees of conformity with the ecclesiastical establishment and explores the moral and political dilemmas that confronted the clergy and laity It reassesses the significance of the Counter Reformation mission as an evangelical enterprise analyses its communication strategies and its impact on popular piety and illuminates how Catholic ritual life creatively adapted itself to a climate of repression Reacting sharply against the insularity of many previous accounts this book investigates developments in the British Isles in relation to wider international initiatives for the renewal of the Catholic faith in Europe and for its plantation overseas It emphasises the reciprocal interaction between Catholicism and anti Catholicism

throughout the period and casts fresh light on the nature of interconfessional relations in a pluralistic society It argues that persecution and suffering paradoxically both constrained and facilitated the resurgence of the Church of Rome They presented challenges and fostered internal frictions but they also catalysed the process of religious identity formation and imbued English Welsh and Scottish Catholicism with peculiar dynamism Prefaced by an extensive new historiographical overview this collection brings together a selection of Alexandra Walsham's essays written over the last fifteen years fully revised and updated to reflect recent research in this flourishing field Collectively these make a major contribution to our understanding of minority Catholicism and the Counter Reformation in the era after the Council of Trent

Conversion to Catholicism in Early Modern Italy Peter A. Mazur, 2016-01-22 In the sixteenth and seventeenth centuries conversion took on a new importance within the Catholic world as its leaders faced the challenge of expanding the church's reach to new peoples and continents while at the same time reinforcing its authority in the Old World Based on new archival research this book details the extraordinary stories of converts who embraced a new religious identity in a territory where papal authority and Catholic orthodoxy were arguably at their strongest the Italian peninsula Through an analysis of both the unique strategies employed by clerics to attract and educate converts and the biographies of the men and women soldiers aristocrats and charlatans who negotiated new positions for themselves in Rome and the other cities of the peninsula a new image of Italy during the Counter reformation emerges a place where repression and toleration alternated in unexpected ways leaving room for negotiation and exchange with members of rival faiths

Shakespeare and Religion: Global Tapestry, Dramatic Perspectives Margie Burns, 2025-01-07 Twelve research articles deal with aspects of religion in the

plays of William Shakespeare from early in the dramatist's career to the end. Ordered by chronology, two chapters focus on history plays, three chapters focus on comedies and three on tragedies; one deals with *Troilus and Cressida* and three chapters deal with the late romances. The anthology does not cover all of Shakespeare's plays and collaborations or the lyric poems. The collection is ecumenical and transnational. While the contributors all recognize that Shakespeare wrote in a Renaissance Christian universe, Christianity is not the only world religion dealt with. Approaches involve history and philosophy as well as theology and individual perspectives vary. One thing the collection makes clear is that religion in some sense operates in every Shakespearean work and its large spectrum ranges through plot and character from shallow to deep, self-interested to elevated, bloody to harmonious. Religion and religious differences were also part of the fabric and history of the playwright's world, manifesting in the plays in situation, language and iconography. From various perspectives, a common denominator is that the authors approach aspects of religion as one element in an informed analysis of the works.

The Age of Reformation Alec Ryrie, 2017-01-12. The Age of Reformation charts how religion, politics and social change were intimately interlinked in the sixteenth century, from the murderous politics of the Tudor court to the building and fragmentation of new religious and social identities in the parishes. Alec. This second edition has been fully revised and updated and includes expanded sections on Lollardy and anticlericalism, Henry VIII's early religious views on several of the rebellions which convulsed Tudor England, and on unofficial religion ranging from Elizabethan Catholicism to incipient atheism. It is essential reading for students of early modern British history and the history of the reformation.

Inquisition, Conversion, and Foreigners in Baroque Rome Irene Fosi, 2020-02-10. In Rome, where strategies to re-establish Roman Catholic orthodoxy were formulated, the problem of how to deal with foreigners and particularly with heretics coming from Northern Europe was an important priority throughout the early modern period. Converting foreigners had a special significance for the Papacy. This volume, which includes several case studies, explores the meaning of conversion and the changes of policy adopted by the church bodies set up to protect orthodoxy. It uses inquisitorial documents from Archivio della Congregazione per la dottrina della Fede and sources from other archives and libraries both in Rome and elsewhere. This book is an updated and revised translation of *Convertire lo straniero* Viella 2011, including a bibliography reflecting the most recent scholarship on its subject.

Ben Jonson Ian Donaldson, 2012-02-20. Ben Jonson was the greatest of Shakespeare's contemporaries. In the century following his death, he was seen by many as the finest of all English writers, living or dead. His fame rested not only on the numerous plays he had written for the theatre, but on his achievements over three decades as principal masque writer to the early Stuart court, where he had worked in creative and often stormy collaboration with Inigo Jones. One of the most accomplished poets of the age, he had become, in fact if not in title, the first Poet Laureate in England. Jonson's life was full of drama. Serving in the Low Countries as a young man, he overcame a Spanish adversary in single combat in full view of both the armies. His early satirical play *The Isle of Dogs* landed him in prison and brought all theatrical activity in London to a

temporary and very nearly to a permanent standstill He was almost at the gallows for killing a fellow actor after a quarrel and converted to Catholicism while awaiting execution He supped with the Gunpowder conspirators on the eve of their planned coup at Westminster After satirizing the Scots in Eastward Ho he was imprisoned again and throughout his career was repeatedly interrogated about plays and poems thought to contain seditious or slanderous material In his middle years twenty stone in weight he walked to Scotland and back seemingly partly to fulfil a wager and partly to see the land of his forebears He travelled in Europe as tutor to the mischievous son of Sir Walter Raleigh who caused him to be drunken and dead drunk and wheeled provocatively through the streets of Paris During his later years he presided over a sociable club in the Apollo Room in Fleet Street mixed with the most learned scholars of his day and viewed with keen interest the political religious and scientific controversies of the day Ian Donaldson's new biography draws on freshly discovered writings by and about Ben Jonson and locates his work within the social and intellectual contexts of his time Jonson emerges from this study as a more complex and volatile character than his own self declarations and much modern scholarship would allow and as a writer whose work strikingly foresees and at times pre emptively satirizes the modern age

Generations Alexandra Walsham, 2023 Generations examines how the English Reformation was shaped by the generations that experienced witnessed and participated in it Drawing on a rich array of evidence it highlights the vital part played by families bound by blood and by faith in the religious revolution that stretched across the 16th and 17th centuries

Great Britain Richard S. Tompson, 2014-05-14 An A Z reference guide to significant people ideas places and events in British history

Calvinism, Reform and the Absolutist State in Elizabethan Ireland Mark A Hutchinson, 2015-10-06 Despite the best efforts of the English government Elizabethan Ireland remained resolutely Catholic Hutchinson examines this failure of the Protestant Reformation He argues that the emerging political concept of the absolutist state forms a crucial link between English policy in Ireland and the aims of the Calvinist reformers

Popular Politics and the English Reformation Ethan H. Shagan, 2003 This book is a study of popular responses to the English Reformation It takes as its subject not the conversion of English subjects to a new religion but rather their political responses to a Reformation perceived as an act of state and hence like all early modern acts of state negotiated between government and people These responses included not only resistance but also significant levels of accommodation co operation and collaboration as people attempted to co opt state power for their own purposes This study argues then that the English Reformation was not done to people it was done with them in a dynamic process of engagement between government and people As such it answers the twenty year old scholarly dilemma of how the English Reformation could have succeeded despite the inherent conservatism of the English people and it presents a genuinely post revisionist account of one of the central events of English history

Contested Conversions to Islam Tijana Krstić, 2011-05-13 This book explores how Ottoman Muslims and Christians understood the phenomenon of conversion to Islam from the 15th to the 17th centuries The Ottomans ruled over a large non Muslim population and conversion to Islam

was a contentious subject for all communities especially Muslims themselves Ottoman Muslim and Christian authors sought to define the boundaries and membership of their communities while promoting their own religious and political agendas Tijana Krsti argues that the production and circulation of narratives about conversion to Islam was central to the articulation of Ottoman imperial identity and Sunni Muslim orthodoxy in the long 16th century Placing the evolution of Ottoman attitudes toward conversion and converts in the broader context of Mediterranean wide religious trends and the Ottoman rivalry with the Habsburgs and Safavids Contested Conversions to Islam draws on a variety of sources including first person conversion narratives and Orthodox Christian neomartyrologies to reveal the interplay of individual inter communal local and imperial initiatives that influenced the process of conversion
