**The Intertwining of Aesthetics and Ethics** Jadranka Skorin-Kapov,2016-04-21 The Intertwining of Aesthetics and Ethics Exceeding of Expectations Ecstasy Sublimity analyzes the common experiential ground for both aesthetics and ethics by considering experiential environment both nature and art the precedents to desire the notion of experience incorporating a break and the reverberations of surprise leading to the intertwining of aesthetics and ethics Jadranka Skorin Kapov discusses different philosophical positions on the relationship between nature and art in conversation with Kant Hegel Goethe Gadamer and Adorno She argues that Kantian sublimity can carry over from nature to art As part of

the discussions of expectations and authenticity the author interprets Husserl's view on expectations Heidegger's view on death and authenticity Blanchot's view on death and Arendt's view on natality As for understanding the aesthetic experience as the paradigmatic experience Skorin Kapov is informed by Dewey's work on art as experience Gadamer's work on experience of art and Jauss's work on the aesthetics of reception and the horizon of expectations After our sensibility and representational capability are broken recuperation then leads to sublimity and the subsequent feelings of admiration and responsibility allowing for the intertwining of aesthetics and ethics Additionally elements of Kantian morality Foucault's ethics and Kierkegaard's work on interactions between aesthetics and ethics together help to characterize the relation between aesthetics and ethics Since we often encounter surprise due to unexpectedness in comedy Skorin Kapov also interprets philosophical views on the comedy and laughter including Aristotle Kierkegaard Meredith and Bergson using the theatrical work of Dario Fo as an example The novel analysis in *The Intertwining of Aesthetics and Ethics* will be of particular interest to students and scholars working or teaching in aesthetics phenomenology art history cultural studies and ethics

Learning and Collective Creativity Annalisa Sannino, Viv Ellis, 2013-09-11 This book brings together leading representatives of activity theoretically oriented and socioculturally oriented research around the world to discuss creativity as a collective endeavour strongly related to learning to face the societal challenges of our world As history shows major accomplishments in arts and technological innovations have allowed us to see the world differently and to identify new learning perspectives for the future which were seldom limited to individual action or isolated activities This book while primarily focused on educational institutions extends its examination of creativity and learning to include other settings such as government agencies beyond the limits of schooling *Ausgewählte Texte* Paul Tillich, 2009-01-08 Die vorliegende Studienausgabe bietet eine Auswahl der wichtigsten Texte Tillichs Um die gedankliche und werkgeschichtliche Entwicklung des theologischen und religionsphilosophischen Denkens Tillichs transparent und nachvollziehbar zu machen sind die Texte in der vorliegenden Studienausgabe chronologisch angeordnet Der Band bietet so einen Einblick in die werkgeschichtliche Entwicklung des Denkens von Tillich Dies unterscheidet den Band von bisherigen Ausgaben sowie den Gesammelten Werken Bei der Auswahl der Texte wurde darauf geachtet dass das weit verzweigte Gesamtwerk angemessen repräsentiert wird Es sind also nicht nur die theologischen und religionsphilosophischen Texte im engeren Sinne berücksichtigt sondern auch Texte welche Tillichs Auseinandersetzung mit der Kunst und der Architektur sowie seine Rezeption der Psychoanalyse dokumentieren Die Ausgabe stellt ein ideales Seitenstück zur Systematischen Theologie dar The Unfinished Search for Common Ground Fluker, Walter Earl, 2023-06-01 Howard Thurman scholars explore the life and work of the twentieth century Black theologian and spiritual writer *Reconciling Art and Technology* Subrata Dasgupta, 2024-05-14 This book examines two venerable cultures art and technology and uses the young interdisciplinary of cognitive history combined with case studies of both ancient and modern artifacts to explore and unveil some of the bridges by which this reconciliation of

two seemingly distant and oppositional cultures can be effected Art and technology are commonly regarded as oppositional While both are concerned with made things artifacts and both have their origins in pre literate antiquity the primary purposes they are intended for are quite distinct the artifacts of technology serve utilitarian purposes while those of art serve affective needs This opposition between art and technology notably argued by such scholars as Lewis Mumford and George Kubler is challenged in this book For when we consider art and technology as creative phenomena then many significant interesting and often subtle commonalities emerge whereby a reconciliation a unity of these two great cultures seems possible This book utilizes case studies of both ancient and modern artifacts ranging from the Nataraja sculpture of ancient India a great astronomical clock of ancient China and Japanese Samurai swordmaking through Gothic cathedrals and Renaissance paintings of Europe to English Elizabethan machinery to the French Impressionists to modernist concrete structures and paintings in both East and West This book will be of interest to students and professional scholars interested in the histories of art and technology cultural history and creativity studies
