Therefore, this volume includes chapters that focus on the importance of these three disciplines of social sciences which interact heavily with almost every other social science as well as the normative sciences. In this sense, this volume aims at providing a contemporary update to the literature from various different perspectives and tries to contribute to our knowledge in an effective manner. The chapters do not only present analysis of certain topics but also help to build the mindset for further studies that would be helpful in looking for answers to some of the remaining questions in these three crucial social sciences disciplines. Hence, we are glad to put together a volume that would be useful to a large audience rather than just the technical experts.
