Luximon, 2025-07-26 Proceedings of the 16th International Conference on Applied Human Factors and Ergonomics and the Affiliated Conferences Orlando Florida USA 26 30 July 2025 *Sales Management* Thomas N. Ingram, Raymond W.

LaForge, Ramon A. Avila, Charles H. Schwepker (Jr.), Michael R. Williams (Professor of marketing), 2021 *Micro-Electronics and Telecommunication Engineering* Devendra Kumar Sharma, Sheng-Lung Peng, Rohit Sharma, Gwanggil Jeon, 2024-03-21

The book presents high quality papers from the Seventh International Conference on Microelectronics and Telecommunication Engineering ICMETE 2023 It discusses the latest technological trends and advances in major research areas such as microelectronics wireless communications optical communication signal processing image processing Big Data cloud computing artificial intelligence and sensor network applications This book includes the contributions of national international scientists researchers and engineers from both academia and the industry The contents of this book will be useful to researchers professionals and students alike *The Bill Gates Problem* Tim Schwab, 2023-11-14 New York Times

Editors Choice A powerful investigation of Bill Gates and the Gates Foundation showing how he uses philanthropy to exercise enormous political power without accountability Through his vaunted philanthropy Bill Gates transformed himself from a tech villain into one of the most admired people on the planet Even as divorce proceedings and allegations of misconduct have recently tarnished his public image the beneficence of the Gates Foundation celebrated for spending billions to save lives around the globe is taken as a given But as Tim Schwab shows in this fearless investigation Gates is still exactly who he was at Microsoft a bully and monopolist convinced of his own righteousness and intent on imposing his ideas his solutions and his leadership on everyone else At the core he is not a selfless philanthropist but a power broker a clever engineer who has innovated a way to turn extreme wealth into immense political influence and who has made us believe we should applaud his acquisition of power not challenge it Piercing the blinding halo that has for too long shielded the world's most powerful and most secretive charitable organization from public scrutiny The Bill Gates Problem shows how Gates's billions have purchased a stunning level of control over public policy private markets scientific research and the news media Whether he is pushing new educational standards in America health reforms in India global vaccine policy during the pandemic or Western industrialized agriculture throughout Africa Gates's heady social experimentation has shown itself to be not only undemocratic but also ineffective In many places Bill Gates is hurting the very people he intends to help No less than dark money campaign contributions or big business political lobbying Bill Gates's philanthropic empire needs to be seen as a problem of money in politics It is a dangerous model of unconstrained power that threatens democracy and demands our attention

*Economics of Grids, Clouds, Systems, and Services* José Ángel Bañares, Konstantinos Tserpes, Jörn

Altmann, 2017-06-29 This book constitutes the refereed proceedings of the 13th International Conference on Economics of Grids Clouds Systems and Services GECON 2016 held in Athens Greece in September 2016 The 11 revised full papers and 11 short papers presented were carefully reviewed and selected from 38 submissions This volume has been structured following the seven sessions that comprised the conference program three of which are work in progress sessions Session 1 Business Models Session 2 Work in Progress on Quality of Services and Service Level Agreements Session 3 Work in Progress on Cloud Economics Session 4 Energy Consumption Session 5 Resource Allocation Session 6 Work in Progress on Resource Allocation Session 7 Cloud Applications
