Quinn, 2009 Investigating Identities Questions of Identity in Contemporary International Crime Fiction is one of the relatively few books to date which adopts a comparative approach to the study of the genre This collection of twenty essays by international scholars examining crime fiction production from over a dozen countries confirms that a comparative approach can both shed light on processes of adaptation and appropriation of the genre within specific national regional or local contexts and also uncover similarities between the works of authors from very different areas Contributors explore discourse concerning national and historical memory language race ethnicity culture and gender and examine how identity is affirmed and challenged in the crime genre today They reveal a growing tendency towards hybridization and postmodern experimentation and increasing engagement with philosophical enquiry into the epistemological dimensions of investigation Throughout the notion of stable identities is subject to scrutiny While each essay in itself is a valuable addition to existing criticism on the genre all the chapters mutually inform and complement each other in fascinating and often unexpected ways This volume makes an important contribution to the growing field of crime fiction studies and to ongoing debates on questions of identity It will therefore be of special interest to students and scholars of the crime genre identity studies and comparative literature It will also appeal to all who enjoy reading contemporary crime fiction Biografía de d. En una obra que ha tenido desde su concepción el propósito de ser provechosa en todo sentido para los que se inician en estas materias así como para los encargados de iniciarlos la mejor prueba de su cumplimiento está en lo que la experiencia ha permitido verificar. Y son los alumnos y profesores que desde hace varios años manejan este libro los que dan testimonio del cumplimiento de sus propósitos. Quise en un principio hacer un libro para alumnos secundarios con cierta profundidad y que superara los esquematismos pero de inmediato vi que este contenido no es obstaculizado sino al contrario mejorado con otros que corresponden estrictamente a la enseñanza superior y a los que se puede pasar gradual e insensiblemente. Esto tiene la ventaja además de permitir a nivel secundario una enseñanza más sencilla menos limitada a determinados tópicos más libre para el profesor que debe graduar sus enseñanzas de acuerdo a infinidad de circunstancias diversas. Después de todo un libro de estudios nunca puede ser la última palabra en la enseñanza todo depende de la categoría profesional del docente que lo maneja. Es el quien puede darle a este texto el carácter de un libro para enseñanza media o superior según el caso. Por otra parte sus resultados también verificados a posteriori en la obra que se ha dejado en muchos espíritus me confirman que el modo de desarrollo doctrinario de esta introducción es el más conveniente. Hoy en día se sigue declamando en favor de la libertad de pensamiento y contra todo dogma. Parece que los hechos los resultados de determinadas maneras de encarar educación no fueran lo suficientemente aleccionadores cuando se trata como ahora de suministrar el ABC de la Filosofía se pretende que no hay que coaccionar la indeterminada libertad o independencia del discípulo en lo intelectual y que sólo hay que presentar un muestrario de las conclusiones más diversas y opuestas que se han dado en la materia una historia de sistemas y de los problemas suscitados por los mayores filósofos puestos a su vez a suscitar la inquietud del alumno. Tal concepción es una falacia que transpone la libertad racional humana a un ámbito donde por el hecho de hacerlo da por supuesto que todo es dudoso. Si esta es la primera impresión que dejamos en el discípulo éste tiene derecho a preguntarse qué clase de ciencia es ésta que aún no ha llegado a ninguna conclusión cierta. Proponer problemas sin dar al menos un principio de solución es dejar a la inteligencia inmadura en estas cosas y que en el caso de los jóvenes carece de una respuesta a los supremos problemas del sentido de la existencia y la realidad toda como la que la vida da de algún modo al hombre adulto en un tembladeral y la realidad nos muestra quienes son los que se sirven de las inteligencias puramente problematizadas sin ninguna orientación firme para llevarlas en la dirección que ellos quieren. Presentar todos los sistemas como verdaderos es confundir la filosofía con el arte las distintas formas de expresión filosófica aunque se trate de las de mayor significación con una galería de cuadros famosos donde todos valen de modo diverso por su belleza. Y que nadie piense que es neutro en la presentación de temas o problemas detrás de cualquier forma de expresarse en filosofía se traslucen supuestos kantianos o empiristas o fenomenológicos o de la clase que fueren. Lo correcto en Filosofía es ser sincero consigo mismo reflexivo y consciente de aquello que en el fondo se defiende el filósofo pone su propia concepción frente a las otras y las discute si estas

demuestran poseer más valor de verdad debe inclinarse ante ellas de lo contrario nada le impide afirmarlas pues no hacerlo es no reconocer los derechos de la verdad alentar una idea de libertad posiblemente entendida es en fin no saber o hacer que no se sabe que frente a la evidencia la inteligencia no es libre de aceptar o no una verdad Lo que no se debe hacer es cerrar los ojos ante las grandes expresiones del pensamiento filosófico hay que conocerlas pero desde un criterio una actitud crítica y firme que pueda y sea capaz de distinguir el trigo de la ciza a Como si no podríamos pretender que asuma por sí mismo una posición quien no tiene ningún elemento de juicio para hacerlo La actitud más objetiva en Filosofía es recurrir a la lectura de la historia Esta unida a mi experiencia personal es la que me confirma que el camino de la verdad se halla en una orientación que por algo se la ha llamado Filosofía Perenne En ella encontrar el principiante el más rico tesoro de verdades fundamentales capaces de inmunizarlo contra todo extravío y las aberraciones ideológicas que hoy sobre todo son el cerner del espíritu y de toda auténtica vida en plenitud humana Aquí está el meollo de lo que rectamente se entiende por una verdadera formación humanista de una formación que por añadidura es la que responde a nuestro ser nacional y que entronca con el ideal greco-latino cristiano que nos alimenta y define
