absorbing and educative A C Grayling Highly original and beautifully written Dominic Lawson A compelling insight into how our imagination works based on the latest scientific research People often think of imagination as something used only in creative endeavours In fact we use imagination constantly as we reminisce anticipate plan daydream read create imagined worlds The truth is we live in the here and now much less than we tend to think Imagination isn't the exception in our daily lives it's our default setting Yet only now are we beginning to understand exactly how it works From hallucination to sleepwalking from REM sleep to delusions neurologist Adam Zeman brilliantly guides us through the latest scientific studies in the world of the imagination He draws on research in neuroscience the study of human origins and child development to show how the human brain is above all else a creative imaginative organ and that we have evolved to share what we imagine Our brains behave in strikingly similar ways when we observe remember imagine or act Imagine looking at a cube and your eye will trace the contours of the cube as if you were actually seeing it Yet it turns out that people differ hugely in their imaginative experience Some people lack sensory imagery altogether they would be unable to picture their family if asked to but still lead fulfilling even highly creative lives From how we visualise to how we understand the minds of others from the benefits of play to mental disorders *The Shape of Things Unseen* dazzles and delights It is an essential guide to the latest discoveries about the workings of the human mind **Global West, American Frontier** David M. Wrobel, 2013-10-15 This

thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville's *Democracy in*

America to William Least Heat Moon's *Blue Highways* David Wrobel offers a counter narrative to the nation's romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin's *Adventures of the Ojibbeway and Ioway Indians in England France and Belgium* 1852 Richard Francis Burton's *The City of the Saints* 1861 and Mark Twain's *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West

Translation Classics in Context Paul F. Bandia, James

Hadley, Siobhán McElduff, 2024-07-31 *Translation Classics in Context* carefully considers the relationship between translation and the classics. It presents readers with revelatory and insightful case studies that investigate translations produced as part of nexuses of colonial resistance and liberation across Africa and in Ireland; translations of novels and folklore collections that influence not just other fictions but stage productions and entire historical disciplines; struggles over Ukrainian and Russian literature and how it is shaped and transferred; and the role of the academy and the curriculum in creating notions of classic translations. Along the way it covers oral poetry, saints, scholars, Walter Scott and Jules Verne, not to mention Leo Tolstoy and the Corpse Bride making her way from folklore to Frankenstein and into the world of Disney animation. Contributors are all leading scholars and the book is accessible and engaging, assuming no specialist knowledge. After Human, Thomas Connolly, 2021-04-01. Shortlisted for the British Fantasy Awards Non-Fiction 2022. Shortlisted for the Locus Science Fiction Foundation Non-Fiction Award 2022. SF has long been understood as a literature of radical potential, capable of imagining entirely new worlds and ways of being. Yet SF has been slow to embrace posthumanist ideas about the human subject. The human of the SF tradition is instead a liminal being caught somewhere between the transcendent Man of classical humanism and the subversive cyborg of posthumanist thought. This study offers a critical history of the human in SF. By examining a range of SF works from 1818 to the 1970s, it seeks to answer some key questions: What role does technology play in defining what it means to be or not to be human? How do these writers understand the relationship between humanity and the rest of nature? And how can we use SF to re-examine our ethical position towards the non-human world and move to more egalitarian understandings of the human subject?

Modern Epic, Franco Moretti, 1996. Having coined a new term, modern epic, the author analyses the phenomenon, attempts to situate the works of e.g. Joyce, Proust, Musil within our literary tradition.

The Komedie Stamboel, Matthew I. Cohen, 2021-10-01. Come see and judge for yourself. Originating in 1891 in the port city of Surabaya, the Komedie Stamboel or Istanbul style theater toured colonial Indonesia, Singapore and Malaysia by rail and steamship, performing musical versions of the Arabian Nights, European fairy tales and operas such as *Sleeping Beauty* and *Aladdin*, and Indian and Persian romances. Southeast Asian chronicles, true crime stories and political allegories. It was the region's first cross-ethnic theater; actors were primarily Eurasians; the original backers were Chinese; and audiences were made up of all races and classes. Spectacle, stirring music and comedy appealed to the masses, but the theater also sparked public outrage with racial frictions between actors and financiers, sex scandals, fights among actors and patrons, bankruptcies, imprisonments and a murder. Matthew Isaac Cohen's evocative social history situates the Komedie Stamboel in the culture of empire and translocal flows of itinerant entertainment. He shows how the theater was used as a symbol of cross-ethnic integration in postcolonial Indonesia and as an emblem of Eurasian cultural accomplishment by Indische Nederlanders. A pioneering study.

of nineteenth century Southeast Asian popular culture The Komedi Stamboel Popular Theater in Colonial Indonesia 1891 1903 gives a new picture of the region s arts and entertainment through an exploration of the interplay of global culture theatrical innovation and the movement of people and ideas in colonial Southeast Asia **Kids' Books and Maker**

South Wales Sydney author of *The Lyrical Lu Xun A Study of His Classical Style Verse* **Around the Day in Eighty Worlds** Martin Savransky, 2021-04-19 In *Around the Day in Eighty Worlds* Martin Savransky calls for a radical politics of the pluriverse amid the ongoing devastation of the present. Responding to an epoch marked by the history of colonialism and ecological devastation, Savransky draws on the pragmatic pluralism of William James to develop what Savransky calls a pluralistic realism: an understanding of the world as simultaneously one and many, ongoing and unfinished, underway and yet to be made. Savransky explores the radical multifariousness of reality by weaving key aspects of James's thought together with divergent worlds and stories: of Magellan's circumnavigation, sorcery in Mozambique, God's felt presence among a group of evangelicals in California, visible spirits in Zambia, and ghosts in the wake of the 2011 tsunami in Japan. Throughout, he experiments with these storied worlds to dramatize new ways of approaching the politics of radical difference and the possibility of transforming reality. By exploring and constructing relations between James's pluralism and the ontological turn in anthropology, Savransky offers a new conceptualization of the pluriverse that fosters modes of thinking and living otherwise.
