Medium Law Daithí Mac Síthigh, 2017-09-13 Why should anyone care about the medium of communication today especially when talking about media law In today s digital society many emphasise convergence and seek new regulatory approaches In Medium Law however the medium theory insights of Harold Innis Marshall McLuhan and the Toronto School of Communication are drawn upon as part of an argument that differences between media and technological definitions continue to play a crucial role in the regulation of the media Indeed Mac S thigh argues that the idea of converged cross platform medium neutral media regulation is unattainable in practice and potentially undesirable in substance This is demonstrated through the exploration of the regulation of a variety of platforms such as films games video on demand and premium rate telephone services Regulatory areas discussed include content regulation copyright tax relief for producers and developers new online services conflicts between regulatory systems and freedom of expression This timely and topical volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Law Policy Regulation Media Studies Communications History and Cultural Studies

Immigration Avner de Shalit, 2018-11-30 All over the world immigration is one of the most urgent political issues creating tensions and unrest as well as questions of justice and fairness. Academics as well as politicians have been relating to the question of how states should cope with immigrants but 96% of immigrants end up in cities and in Europe and the USA two thirds of the immigrants settle in seven or eight cities. Indeed most of us encounter with immigrants as city zens in our everyday life rather than as citizens of states. So how should cities integrate immigrants. Should cities be allowed to design their autonomous integration policies. Could they issue visas and permits to immigrants. Should immigrants be granted voting rights in local elections before naturalization. And how do cities think about these issues. What can we learn from cities which are thought to be successful in integrating and assimilating immigrants. Is there a model of integration within the city which is best. The book discusses these questions both empirically and normatively. The book is based on hundreds of in depth discussions of these matters with city dwellers in San Francisco New York London Amsterdam Berlin Thessaloniki and Jerusalem. It shifts the discourse on immigration from thinking like a state to thinking like a city. In the Shadows of the American Century Alfred W. McCoy, 2017-09-12 The award winning historian delivers a brilliant and deeply informed analysis of American power from the Spanish American War to the Trump Administration. New York Journal of Books. From the disastrous invasion of Iraq to the failure of the Trans Pacific Partnership fracturing military alliances and the blundering nationalism of Donald Trump McCoy traces US decline in the face of rising powers such as China. He also offers a critique of America's attempt to maintain its position through cyberwar covert intervention client elites psychological torture and worldwide surveillance.
