because both of these women bring their own experiences as Muslim Americans to the character. This distinct collection brings together scholars from a range of disciplines including literature, cultural studies, religious studies, pedagogy, and communications to engage with a single character exploring Khan's significance for a broad readership. While acknowledged as the first Muslim superhero to headline her own series, her character appears well developed and multifaceted in many other ways. She is the first character to take over an established superhero persona, Ms. Marvel, without a reboot of the series or death of the original character. The teenager is also a second generation immigrant born to parents who arrived in New Jersey from Pakistan. With essays from and about diverse voices on an array of topics from fashion to immigration history to fandom, this volume includes an exclusive interview with Ms. Marvel author and cocreator G. Willow Wilson by gender studies scholar Shabana Mir.

Comics as History, Comics as Literature Annessa Ann Babic, 2013-12-11. This anthology hosts a collection of essays examining the role of comics as portals for historical and academic content while keeping the approach on an international market versus the American one. Few resources currently exist showing the cross disciplinary aspects of comics. Some of the chapters examine the use of Wonder Woman during World War II, the development and culture of French comics, and theories of Locke and Hobbs in regards to the state of nature and the bonds of community. More so, the continual use of comics for the retelling of classic tales and current events demonstrates that the genre has long passed the phase of for children's eyes only. Additionally, this anthology also weaves graphic novels into the dialogue with comics.
