Seasonality, Rural Livelihoods and Development Stephen Devereux, Rachel Sabates-Wheeler, Richard Longhurst, 2013-07-03 Seasonality is a severe constraint to sustainable rural livelihoods and a driver of poverty and hunger particularly in the tropics Many poor people in developing countries are ill equipped to cope with seasonal variations which can lead to drought or flood and consequences for agriculture employment food supply and the spread of disease The subject has assumed increasing importance as climate change and other forms of development disrupt established seasonal patterns and variations This book is the first systematic study of seasonality for over twenty years and it aims to revive academic interest and policy awareness of this crucial but neglected issue Thematic chapters explore recent shifts with profound implications for seasonality including climate change HIV AIDS and social protection Case study chapters explore seasonal dimensions of livelihoods in Africa Ethiopia Kenya Malawi Asia Bangladesh China India and Latin America Peru Others assess policy responses to adverse seasonality for example through irrigation migration and seasonally sensitive education The book also includes innovative tools for monitoring seasonality which should enable more appropriate responses *A Profile of Rural Poverty, Food Security and Livelihoods in Guatemala* Covarrubias, K.A.; De la O Campos, A.P., 2024-09-30 This study was developed in order to portray with high quality representative data the main characteristics of poverty food insecurity and vulnerability in rural areas of Guatemala Under the Food and Agriculture Organization of the United Nations FAO Hand in Hand HIH Initiative in Guatemala the study aims to identify the broad based challenges affecting the rural agriculture sector This sector faces challenges in the reduction of poverty and food insecurity as well as in rural economic development namely through the development of agricultural value chains The study capitalizes on the availability of the most recent sources of nationally representative data on rural households and individuals in Guatemala and leverages FAO's experience in the analysis of food security poverty vulnerability and livelihoods The study is aimed at policymakers and practitioners working in agrifood systems in rural Guatemala The findings may also be relevant for other readers interested in rural livelihoods diversification strategies and inclusivity analyses and the challenges faced by vulnerable groups such as Indigenous Peoples women and youth **AIDS and Rural Livelihoods** Anke Niehof, Gabriel Rugalema, 2019-01-15 AIDS epidemics continue to threaten the livelihoods of millions of people in sub Saharan Africa Three decades after the disease was first recognized the annual death toll from AIDS exceeds that from wars famine and floods combined Yet despite millions of dollars of aid and research there has previously been little detailed on the ground analysis of the multifaceted impacts on rural people Filling that gap this book brings together recent evidence of AIDS impacts on rural households livelihoods and agricultural practice in sub Saharan Africa There is particular emphasis on the role of women in affected households and on the situation of children The book is unique in presenting micro level information collected by original empirical research in a range of African countries and showing how well grounded conclusions on trends impacts and local responses can be applied

to the design of HIV responsive policies and programmes AIDS impacts are more diverse than we previously thought and local responses more varied sometimes innovative sometimes desperate The book represents a major contribution to our understanding of the impacts of AIDS in the epidemic s heartland and how these can be managed at different levels ICT Update 74 English ,2013-12-31 ICT Update is a bimonthly printed and on line magazine <http://ictupdate.cta.int> and an accompanying e mail newsletter published by CTA This issue focuses on CTA international conference ICT4Ag **FAO publications catalogue 2023** Food and Agriculture Organization of the United Nations,2023-10-10 This catalogue aims to improve the dissemination and outreach of FAO s knowledge products and overall publishing programme By providing information on its key publications in every area of FAO s work and catering to a range of audiences it thereby contributes to all organizational outcomes From statistical analysis to specialized manuals to children s books FAO publications cater to a diverse range of audiences This catalogue presents a selection of FAO s main publications produced in 2023 or earlier ranging from its global reports and general interest publications to numerous specialized titles In addition to the major themes of agriculture forestry and fisheries it also includes thematic sections on climate change economic and social development and food safety and nutrition **Rural Livelihoods and Poverty Reduction Policies** Frank Ellis,H. Ade Freeman,2004-08-02 This important new collection of contributions brings together current thinking on poverty reduction and rural livelihoods in developing countries As well as leading economists in the field such as Frank Ellis and Chris Barrett there are a number of contributors from developing countries themselves The book examines both macroeconomic and microeconomic phenomena and contains wide range of case studies Skilfully exposing the gap that exists between the rhetoric of poverty reduction strategies in capital cities and the practice of public sector delivery in rural areas this key text will be essential reading for advanced students and researchers in the fields of rural development rural livelihoods poverty reduction strategies and Sub Saharan Africa development as well as advisors and practitioners in international organizations Food Security: Sustainability and Accessibility Sumit Chakravarty,Arun Jyoti Nath,Gopal Shukla,2024-01-17 Food security satisfies people s dietary needs by ensuring physical social and economic access to sufficient safe and nutritious food Nowadays food security is of prime importance because not only does it overcomes hunger poverty and malnutrition but it also determines the national security and political and economic sovereignty of states However according to the FAO report 2021 2 37 billion people nearly one in three people in the world did not have adequate food availability in 2020 The green revolution created an era of extraordinary food production worldwide but agriculture oriented developing countries face adverse impacts such as loss of ecosystem quality and biodiversity and environmental degradation Besides several challenges such as population growth pollution natural resource depletion agricultural land conversions and climate change are further developing concerns in achieving food security **HIV/AIDS and Food and Nutrition Security** Stuart Gillespie,Suneetha Kadiyala,2005 The HIV AIDS pandemic is a global crisis with consequences that will be felt for decades to come Thirty nine

million people are currently infected with the virus including more than 25 million from Sub Saharan Africa Many millions more are affected in different ways The ability of households and communities to ensure their own food and nutrition security is increasingly being threatened With the most detailed evidence base yet assembled this review systematically maps our growing knowledge of the interactions between HIV AIDS and food and nutrition security pointing to where and how future policy needs to change to remain relevant and effective *Pathways to African Food Security* Michiel de Haas, Ken E. Giller, 2025-01-31 This book examines Africa s current food system and future challenges for food security over the next 25 years Africa is on the rise and by 2050 the continent will be home to a quarter of the world s population The analysis presented in this book clearly shows that the African food system needs to transform at a much faster pace to ensure that the people it serves are food secure This book begins with four contrasting case studies that focus on country specific challenges in Egypt Ethiopia Senegal and Zimbabwe This is followed by 15 thematic chapters organised in three sections on challenges threats and opportunities Individual chapters address a wide range of topics including climate change water security farm sizes crop yields conservation trade offs food prices trade conflict and structural change The book concludes by discussing key pathways to improve Africa s food system and food security for the decades ahead This book is essential reading for students scholars and practitioners who work on global food security sustainable food systems food health and nutrition and African development The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

Global update report: Agriculture, Forestry and Fisheries in the Nationally Determined Contributions Crumpler, K., Abi Khalil, R., Tanganelli, E., Rai, N., Roffredi, L., Meybeck, A., Umulisa, V., Wolf, J., Bernoux, M., 2021-11-11 The purpose of this update NDC global report is to provide a sector specific brief of how agriculture and land use are figured within the mitigation and adaptation contributions of countries second round NDCs It will also present an analysis of the extent to which the level of ambition has changed between first and second round NDCs with a focus on the agriculture and land use sectors The overall objective of the report is to communicate to the global climate change community the role agriculture and land use play in national mitigation and adaptation priorities *Biofuels, Land Grabbing and Food Security in Africa* Atakilte

Beyene, Prosper B. Matondi, Kjell Havnevik, 2011-06-09 The issue of biofuels has already been much debated but the focus to date has largely been on Latin America and deforestation this highly original work breaks fresh ground in looking at the African perspective Most African governments see biofuels as having the potential to increase agricultural productivity and export incomes and thus strengthen their national economies improving energy balances and rural employment At the same time climate change may be addressed through reduction of green house gas emissions There are however a number of uncertainties mounting that challenge this scenario Using cutting edge empirical case studies this knowledge gap is addressed in a variety of chapters examining the effects of large scale biofuel production on African agriculture In particular

land grabbing and food security issues are scrutinised both of which have become vital topics in regard to the environmental and developmental governance of African countries A revealing book for anyone wishing to understand the startling impact of biofuels and land grabbing on Africa **Rural poverty in the Caribbean - Assets, social exclusion and agricultural livelihoods** Bailey, C.; Lashley, J.; Lazarus, L.; Marshall, D.; De la O Campos, A.P.,2024-12-03

Environmental shocks and stresses directly affect livelihoods in rural communities reliant on agriculture and fisheries making the income poor and those facing inequality especially vulnerable The complex relationships between the environment climate change and agriculture can lead to food insecurity poverty and inequality underscoring the need for better informed policies and effective programmes In the Caribbean poverty is often hidden particularly in middle to high income countries where inequalities and deprivations hinder efforts to tackle climate change resource degradation and access to sustainable food However there is insufficient data for poverty analysis in the agricultural and environmental sectors especially for marginalized populations This report examines the links between rural inequality food security agriculture and the environment in Barbados and Grenada It highlights the importance of physical financial human and social assets for sustainable livelihoods Conducted during the COVID 19 pandemic the study uses in depth interviews to offer policy recommendations aimed at improving access to assets and enhancing the resilience of farmers and fisherfolk supporting social mobility and protection against future crises *COVID-19 in the African Continent* Evans Osabuohien,Gbadebo

Odularu,Daniel Ufua,Romanus Osabohien,2022-05-23 COVID 19 in the African Continent examines the development achievements and challenges that have resulted owing to COVID 19 pandemic and how these precarious socioeconomic situations are being managed in African countries **Monitoring food security in countries with conflict situations**

Food and Agriculture Organization of the United Nations,2018-11-02 This report provides an analysis of food insecurity for 15 countries focusing on crises emergency and famine situations It describes the impact of conflict and gives an overview of the main drivers Integrating Gender in Agricultural Development Lila Singh-Peterson,Michelle Carnegie,2019-12-02

This book is grounded in the ideology that an alignment between the conceptual and practical understandings of gender equality is a critical component of sustainable development It draws on six rural case studies to examine the various ways in which gender has been integrated in agricultural research for development projects The Political Ecology of Agrofuels Kristina

Dietz,Bettina Engels,Oliver Pye,Achim Brunnengräber,2014-11-20 This book explores the political ecology of agrofuels as an encompassing socio spatial transformation process consisting of a series of changing contexts political reconfigurations and the restructuring of social and labour relations It includes conceptual chapters as well as case studies from different world regions North America Europe Latin America sub Saharan Africa Asia and levels local national transnational The Political Ecology of Agrofuels advances a conceptualisation of agrofuels that helps to fill existing research gaps It covers global food regimes and agrarian politics as well as political arenas such as energy climate transport and trade It reflects on the

biophysical materiality of agrofuels new forms of nature appropriation struggles discursive framings the building of hegemony shifting geopolitical constellations socio spatial configurations of power the construction of territory the agency of social movements and the different ways in which agrofuels are politicized at different scales This book asks how patterns of mobility emissions regulation food and energy production and consumption and social relations e g labour class and gender relations are shaped and re shaped by the materiality and representations of agrofuels in both the Global South and North The book provides tools for thinking about the diversity of the conflicts struggles and spatial socio ecological and politico economic reconfigurations and perpetuations engendered by current production and consumption patterns in the agrofuel sector

Evaluation of the FAO response to the crisis in the Lake Chad Basin 2015–2018 Food and Agriculture Organization of the United Nations ,2021-01-28 Forty nine million people live in the Lake Chad region exploiting its rich natural resources and relatively constant supply of water fodder and fertile land all year round The area used to be a food production hub with local markets supplying produce to Cameroon Chad the Niger and Nigeria However poor natural resource management poor coordination across the different countries of the region and the widespread impact of climate change have contributed to the significant deterioration of the Lake s natural ecosystem capacity Agricultural soils and pastures have been widely degraded leading to a huge reduction in food productivity and thus job opportunities especially for the youth living in rural areas who account for a high percentage of the population Conflicts and tensions have created a conducive context for young people in search of income and opportunities to join the Boko Haram terrorist movement originated in Nigeria This evaluation was conducted to address FAO s response to the Lake Chad Basin crisis including interventions conducted in 2015 2018 as FAO published the Lake Chad Basin Crisis Response Strategy 2017 2019 to address the needs of the identified 6 9 million people affected by soaring food insecurity in the Lake Chad Basin in early 2017 The objectives of this evaluation were to analyse FAO s

responses to the crisis at operating level with a focus on efficiency effectiveness and sustainability while assessing the relevance and consistency of the regional approach from a strategic perspective The evaluation team visited many of the areas concerned and at the end of each visit they organized a debriefing session with the respective FAO country team to share information gathered and collect complementary data and analysis to inform its deliberations This helped to ensure transparency in the data collection process and to maximize the learning process For FAO to support the food security and nutrition of communities in the Lake Chad region effectively a regional strategy focused on supporting the resilience of communities is relevant and appropriate Complementary to FAO s country based programmes a regional strategy bears the potential to devise interventions that adapt to the cross border nature of issues that each country faces and would allow supporting a more cohesive and collaborative way of working Based on the Regional Response Strategy 2017 2019 FAO should revise its strategy and approach by incorporating governmental objectives and translate it into an operational action plan in line with other partners strategies in the region

Disentangling food security from subsistence agriculture in Malawi: Synopsis Benson, Todd, 2021-05-24 Malawi is a food insecure country and although most households have access to arable land many rural Malawians cannot reliably obtain enough food to meet their dietary needs Rainfed low input subsistence production particularly of the staple crop maize has historically been the primary means of assuring household food security Today most of Malawi s 4 million households continue to grow much of their own food However with increasing regularity several hundred thousand households each year are vulnerable to acute food insecurity Insufficient crop harvests resulting from poor seasonal growing conditions and limited use of inputs coupled with reliance on shrinking landholdings as the population continues to grow and in the context of weak markets in which to sell crops and buy food mean that subsistence farming cannot meet the dietary requirements of all Malawians
