The U.S. Naval Institute on Mentorship Parker James Neal, 2017 Naval service is an apprenticed profession Experienced sailors mentor their younger shipmates passing down their hard earned knowledge and skills and working side by side to develop the next generation of sailors This Wheel Book includes some of the best writing on mentoring in the sea services from the past 100 years offering guidance to sailors who are looking to find a mentor providing advice to junior officers who are trying to figure out how to mentor their sailors while simultaneously developing their own capabilities and providing advice and examples for senior leaders who are seeking to encourage mentoring in their command without pushing too hard

Newly Commissioned Naval Officer's Guide Fred W. Kacher, 2009 This desktop guide is a user friendly first stop for officer candidates and midshipmen seeking information as they transition to naval officers It offers practical advice in the basic tenets of leadership naval policy etiquette and personal and professional management In a conversational style Commander Kacher demystifies the new roles and responsibilities of young officers as they grapple with concepts very different from their experiences as enlisted sailors or college students Useful insights from officers who have recently made the transition and advice from successful commanding officers are included This manual also provides a concise overview of the U S Navy s history along with a recommend reading list and serves as a gateway to the many online and print assets available to new officers Naval Leadership with Some Hints to Junior Officers and Other , 1925 *UP PERISCOPE*

Deborah Cake Fortin - MS, John Gregory Vincent - MBA, 2020-06-02 There are many leadership books written from the viewpoint of Navy Admirals Marine and Army Generals and Commanding Officers of all varieties I have read many of them and love a few This book is not written from that viewpoint My leadership was forged through the eyes of a career enlisted Approached and encouraged starting my second year of Naval service on submarines to do better and become an officer I chose time and time again to remain an enlisted service member My view out the periscope is that of a leader who realized the unparalleled leadership impact of a strong senior enlisted what many in the private sector would refer to as a mid level to director level manager Every organization is a pyramid a few people at the top the majority at or near the entry to lower level positions The unique application of leadership through the laser lens of a Command Master Chief is this only a Command

Master Chief has complete relatability to the most junior person in the organization and can also get a short notice face to face with the Admiral When I was in the submarine force very early on I knew I was not motivated by power I also knew I was big thinking with big thinking strategies I needed to build skills in areas of talent and I needed to have the authority to carry those ideas out I have built my consulting company around this view and the belief in the influence and critical importance of these leaders I now consult and coach executives from Fortune 50s and lead discussions with entry level team leaders The tools and perspective from my periscope are completely unique based on this experience as well as my time with Gallup as a consultant I respected Gallup over the years as a Sailor from the outside never imagining I would be on the inside as a consultant becoming their top client rated consultant in the world The combination of this strength based view the System learned on submarines the methodology and process patent pending will become staples in the seabags of executives and first time supervisors alike Why Well I don t just remember what it is like to clean a toilet I still do on occasion *The Bluejacket's Manual, 25th Edition* Thomas J. Cutler,2017-11-15 From the days of oars and coal fired engines to the computerized era of the 21st century The Bluejacket s Manual has been an essential part of the American Sailor s sea bag for over one hundred years serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks Written by a Sailor whose decades of naval service included sea duty in patrol craft destroyers cruisers and aircraft carriers as both an officer and a white hat this newest edition has been overhauled to reflect the current state of the ever evolving United States Navy and includes chapters on ships and aircraft uniforms weapons damage control communications naval customs and ceremonies security leadership pay and benefits naval missions military fundamentals and seamanship Unique to this latest edition is the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material as well as an improved organization that better fulfills the dual roles of primer and reference In total this latest edition of a recognized Navy classic continues to serve today s Bluejackets and Old Salts in the traditional manner while providing a fresh approach that will be welcomed by potential recruits Navy buffs and a growing number of Bluejacket Manual collectors **Leadership in the Junior Naval Officer** Charles E McCombs,2021-09-09 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public To ensure a quality reading experience this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy to read typeface We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
