

SAP SD - PRICING PROCEDURE

An Overview of Determination & Configuration of Pricing Procedure is as follows:

In SD, the steps to configure Pricing procedure are as under:

1.) Condition table (T. Code **V/03** | **V/04** | **V/05**):

If existing condition table meets the requirement, we need not create a new condition table. Considering the requirement for new condition table, the configuration will be done in SPRO as follows:

IMG -> Sales & Distribution -> Basic Function -> Pricing Control -> Condition Table
(Select the required fields combination, which will store condition record).

In the above the picture the selected fields are displayed in left. And fields available in right side can be double clicked to select to your table.
