Harari, 1971 La divination malgache par le Sikidy Raymond Decary, Marcelle Urbain-Faubée, 1970-01-01T00:00:00+01:00 Cet ouvrage est une r dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine *In Search of Tunga* André Chappatte, 2022-11-01 This volume on Muslim life focuses on young male migrants of rural origin who move to build better lives in Bougouni a provincial town in southwest Mali Describing themselves as simply Muslims and adventurers these migrants aim to be both prosperous and good Muslims Drawing upon seventeen months of fieldwork author Andr Chappatte explores their sense of prosperity and piety as they embark on tunga adventure a customary search for money and more in a tradition that dates back to the colonial period In the context of the current global war on terrorism most studies of Muslim life have focused on the politics of piety of reformist movements their leaders and members By contrast In Search of Tunga takes a perspective from below It opens piety up to simply Muslims although the religious elites have always claimed authority and legitimacy over piety Is piety an exclusive field of experiences for those who claim to strive for it What does piety involve for the majority of Muslims the non elite and unaffiliated Muslims This volume democratizes piety by documenting its practice as going beyond sharply defined religious affiliations and Islamic scholarship and by showing it is

both alive and normative existential and prescriptive As opposed to studies that build on the classic historical connections between the Maghreb and the Sahel the southbound migration from the Sahel documented in this book stresses the overlooked historical connections between the southern shores of the Sahara and the lands south of those shores It demonstrates how the Malian savanna this former buffer zone between ancient Mande kingdoms and thereafter remote areas of French Sudan is increasingly becoming central in today s Sahel contexts of desiccation and insecurity

Globality Wim van Binsbergen,Rijk van Dijk,2004-03-01 Situating Globality challenges the dominant view that globalization is a primary threat to African societies and economies It explores how these societies are appropriating elements of the emerging global culture arguing the significance of this appropriation in local struggles the expression of critical thinking ideologies and ritual styles of behaviour Combining an interest for micro level processes of situating the multifaceted process of globality with the exploration of reflexivity creativity and the production of knowledge Situating Globality straddles the divide between anthropological and philosophical representations of Africa in the new world order The first section examines philosophical issues relating to the production of knowledge in and about Africa from a globalizing perspective while the other sections include case studies showing how these processes are accommodated in everyday life West African

La géomancie des Monts Mandingues Jan Jansen, Namagan Kanté, 2009 This book describes a trajectory of formalized apprenticeship in a Mande divination system This apprenticeship demonstrates in contrast to what theories predict that formalized arithmetic education can exist in a society that has not developed a system of mathematics that has a low level of literacy and in which writing is mostly a technology used for the reproduction of religious texts and not for the organization of the society At the same time this book describes the hitherto never noticed divination system of the Mande Mountains which is a system with twenty two houses The numerology of this system may offer new perspectives on classical Mande texts of creation myths

L'art de la friche Jean-Loup Amselle, 2022-07-20 Le terme de friche est récemment venu au monde de l'art lieu alternatif espace intermédiaire site abandonné où se produisent des formes artistiques nouvelles C'est sur ce modèle quelque peu paradoxal la friche tire sa vitalité des ruines qu'il faut comprendre nos rapports avec l'art africain De par son caractère autoréférentiel l'art contemporain occidental serait dans une impasse Face à ce dilemme le mîssage le recyclage le mixage des cultures apporteraient la solution miracle et l'Afrique serait ainsi une source majeure de régénération de l'art occidental Oui mais de quelle Afrique parlons nous Il s'agit moins ici de réfléchir aux qualités proprement esthétiques de l'art africain que de délimiter travers celui-ci la place qu'occupe l'Afrique dans notre imaginaire Art premier Art classique Art contemporain L'art africain apparaît comme ce lieu stratégique d'interlocution y compris dans ses malentendus entre l'Occident et l'Afrique
