Glimpses Into The Corridors Of Power By Gohar Ayub Khan:

Glimpses Into the Corridors of Power Gohar Ayub Khan, 2007 The author being the son of Pakistan's first military dictator Mohammad Ayub Khan offers an insider's view of people and events that directly and deeply affected the course of Pakistan's unsteady political history Gohar Ayub was himself politically active winning a National Assembly seat six times over the years He was nominated speaker 1990 and Foreign Minister in 1997 During his tenure Pakistan exploded the nuclear bomb in May 1998 He is presently Senior Vice President of the Pakistan Muslim League Judges and Generals of Pakistan: Volume I

Inam R Sehri, 2012-01-01 Judges explaining diverse scenarios This book evaluates certain conflicting news editorials opinions and criticisms on historical issues No misleading intelligence story no distracting investigative report no concocted interview and no feed from the concerned ones yet everything seems innovative no fiction in this book but simple narration of facts It is the collection of tragedies and misgivings which are deliberately buried in suspicions and darkness since decades I've simply dig them out collated and placed together for those who want to keep a track of their past Sehri holds **The**

China-Pakistan Axis Andrew Small, 2020 The first book length analysis of an often secretive but mutually beneficial military and strategic partnership US-Pakistan Relations Talat Farooq, 2016-07-01 US foreign policy making from the end of the

Cold War to after 2001 is crucial to understanding the years of strong US engagement with Pakistan that would follow 9 11 This book explains Pakistan's strategic choices in the 1990s by examining the role of the United States in the shaping of Islamabad's security goals Drawing upon a diverse range of oral history interviews as well as available written sources the book explains the American contribution to Pakistani security objectives during the presidency of Bill Clinton 1993 2001 The author investigates and explains the dynamics which drove Islamabad's pursuit of nuclear weapons its support for the Taliban and its approach towards the indigenous uprising in Indian Kashmir She argues that Clinton's foreign policy contributed to the hardening of Islamabad's security perspectives creating space for the Pakistani military establishment to pursue its regional security goals The book also discusses the argument that US Pakistan relations during this period were driven by a Cold War mindset causing a fissure between US global and Pakistan's regional security goals The Pakistani military and civilian leadership utilized these divergent and convergent trends to protect Islamabad's India centric strategic interests The book addresses a gap in the relevant literature and moves beyond the available mono causal explanations often distorted by a mixture of intellectual obfuscation and political rhetoric It adds a Pakistani perspective and is a valuable contribution to the study of US Pakistan relations **War and Peace in Contemporary India** Rudra Chaudhuri, 2021-11-29

War and Peace in Contemporary India examines the importance of institutions and the role played by international actors in crucial episodes of India's strategic history The contributions trace India's tryst with war and peace from immediately before the foundation of the contemporary Indian state to the last military conflict between India and Pakistan in 1999 The focus of the chapters included in this edited volume is as much on India as it is on Pakistan and China its opponents in war The

chapters offer a fresh take on the creation of India as a regional military power and her approach to War and Peace in the post independence period. Importantly it advances the broader work on Indian strategic history during the Cold War and after an otherwise under studied intellectual landscape. The book offers fresh insights based on archival work as well as a closer conceptual reading of Indian British and American decision making at times of war and peace in contemporary India. This book will be of great interest to scholars, researchers and students interested in strategic studies, diplomatic and military history, international diplomacy as well as Indian history and politics. The chapters in this book were originally published as a special issue of the Journal of Strategic Studies. **1971** Srinath Raghavan, 2013-11-12. The war of 1971 that created

Bangladesh was the most significant geopolitical event in the Indian subcontinent since partition in 1947. It tilted the balance of power between India and Pakistan steeply in favor of India. Srinath Raghavan contends that the crisis and its cast of characters can be understood only in a wider international context.

Poles Apart Aditya Sondhi, 2024-07-24. Is there a predominant reason why India is not Pakistan? Many would likely point to the omnipresence of the military in the polity of the latter. While the interventionist attitude of the army in Pakistan easily explains the democratic shortfall in its history, the mirror opposite in India is rarely studied or credited. Poles Apart is a unique and original investigation of the comparative roles of the military to study their influences on the growth of democracy in the two nations. The book highlights the divisive outcomes of military coups on Pakistan's democratic trajectory while also closely analysing potential scenarios in India when the army could have gone astray but chose to stay apolitical. Disgrace at the hands of China in 1962, the Emergency and Operation Blue Star among others make for fascinating case studies of how the army was treated shabbily but still remained politically disinclined. On the other hand, the overarching presence of Field Marshal Ayub Khan, General Yahya Khan, General Zia ul Haq and General Pervez Musharraf in the Pakistani political space represent a very different set of choices and interventions. A crisp chapter on Bangladesh and its experiments with democracy and martial rule rounds off the deeply researched study.

Complex Rivalry Surinder Mohan, 2022-10-06. While a substantial body of research explains how the conflict between India and Pakistan originated and developed over time, a systematic and multivariate inquiry cutting across different IR paradigms to understand this rivalry is rare or limited. Surinder Mohan contributes to the understanding of India and Pakistan's rivalry by presenting a new type of framework also known as the complex rivalry model. This comprehensive model, by not limiting its theoretical tool kit to any single paradigm, is unique in its approach and better positioned to debate and answer baffling questions that the single paradigm based studies address rather inadequately and in isolation. This book, through an examination of fifty-seven militarized disputes between 1947 and 2021, explains the life cycle of India-Pakistan rivalry in four phases: initiation, development, maintenance, and a possible transformation/termination. Mohan delineates five specific conditions that evolved the subcontinental conflict into a complex rivalry: first, its survival in spite of the Bangladesh War and the end of the Cold War; second, its linkage with other rivalries; third, the inclusion of nuclear factor; fourth, the dyadic

stability in the militarized disputes and hostility level despite changes in the regime type and fifth the dyad's involvement in a multilayered conflict pattern To break this deadlock and mitigate their longstanding differences Mohan proposes that India and Pakistan must reframe their national priorities and political goals so that the new situation or combinations of conditions would assist their peace strategists to downgrade the dyadic hostility and implement risky policies to make headway to a promising transformation

Imagining Pakistan Rasul Bakhsh Rais, 2017-08-30 Imagining Pakistan argues that the creation of Pakistan is a result of Muslim modernism in the Subcontinent as it defined the struggle for identity nationalism and empowerment of Muslim communities This modernist movement represented the ideals of inclusivity equal rights a liberal constitutional framework and a shared sense of political community among diverse ethnic and regional groups However while this modernity was the ideal of Pakistan's founders it faced resistance from Islamists obsessed with recovering a past legacy of lost Muslim glory A major threat to political modernism also came from the military that wanted to create a strong and secure Pakistan through controlled democracy Multiple interventions by the military and deviations from the foundational republican ideas left Pakistan in the rough sea of power struggles causing institutional decay and creating space for the rise of radical Islam Imagining Pakistan analyzes the institutional imbalance between the military and the civilian groups the idea of the security state and the Islamist social forces and movements that have been engaged in the politics of Islamic revival It argues that Pakistan's stability security and progress will depend on pursuing the path of political modernity Although the restoration of parliamentary democracy and the resilience of the Pakistani society are hopeful signs resolving the critical issues that Pakistan faces today will require consolidation of democracy better leadership and a moderate and modernist vision of both the state and the society
