Date/Time	Progress Note
10/04/2022 9:00 - 9:45am	John reported his feelings of anxiety have reduced in intensity, although he still feels "somewhat anxious pretty much all the time". Spent the session discussing anxiety coping mechanisms including how John can practice replacing anxiety triggers with calming thoughts. John presented neatly and was well groomed. He showed normal awareness of his presenting symptoms. No suicidal ideation present. Compliance with medication is good. Will continue with current treatment plan and weekly sessions.
10/11/2022 9:05 - 9:50am	Session focused on an event at work: John is struggling with feelings of low self-worth, saying he feels like he "isn't good at anything he does". Practiced replacing negative self-talk with positive self-talk. John's feelings of anxiety are associated with low self-esteem. Compliance with medication is good. Insight into anxiety is normal. John will focus on strengthening professional relationships with colleagues. Weekly sessions to continue.
10/18/2022 9:00 - 9:45am	John says he is "enjoying work a bit more". John attended a work event and said it made him feel "better about his relationships". John has demonstrated an improvement with his feelings of low self-esteem. Continue working on this area. John arrived to session promptly and was neatly dressed and well groomed. John's anxiety continues to decrease in intensity. Continue with current treatment plan.
10/25/2022 9:00 - 9:45am	John says he feels "better" but still can't "shake the anxiety feeling". Session focused on identifying causes of anxiety (apart from work). Anxiety may be associated with social relationships. John is struggling to find time to maintain his friendships. John will reach out to friends and organize a social event. Work anxiety has reduced significantly. John is showing improvement. Current treatment plan to continue.
11/01/2022 9:05 - 9:50am	John caught up with a friend and said he opened up about his work-related struggles, saying the conversation made him feel "so much better". John's anxiety at work continues to reduce. He practices replacing negative self-talk with positive self-talk and this appears to be improving his anxiety. Treatment plan will continue, but will reduce therapy sessions to once every fortnight. John will continue focusing on strengthening his relationships with friends, family members, and colleagues.

## **Guide Mental Health Progress Notes Template:**

Clinician's Guide to Psychological Assessment and Testing John Spores, 2012-09-18 Overall this is an excellent guide to the use and administration of psychological tests. It provides straightforward directions and instructions on how to utilize testing in such a way as to better inform clinical practice. I could see this book as a mainstay on any counselor's bookshelf especially those who are seeking a way to utilize standardized testing in their practice. The Professional Counselor Journal Finally a detailed and crystal clear guide to psychological assessment that effectively integrates best practices with the realities of negotiating the mental health care system and insurance providers. I plan to draw on this practical guide in my private practice and to incorporate it as a required text in my advanced counseling assessment classes at both the master's and doctoral level. This book is a treasure for any mental health professional involved in psychological assessment. Joseph G. Ponterotto PhD Professor of Counseling Psychology Fordham University Standardized psychological testing is often essential for reliably determining the presence of a wide range of psychiatric and personality disorders along with effectively addressing related issues that may require a psychological referral. This nuts and bolts guide to conducting efficient and accurate psychological testing in clinical settings provides mental health professionals with experienced guidance in the entire process and includes a complete set of forms and templates for all aspects of assessment and testing from the initial referral and diagnostic interview to the final report. Based on the author's experience with over two thousand psychological and neuropsychological testing cases, this highly practical book presents a standardized process of assessment, testing, interpretation, report writing, and presenting feedback to patients, family members, and other professionals. Actual case examples of patients from a wide age range illustrate the assessment and testing process in action. The text provides printed and electronic versions of referral and related forms, initial psychological assessment report templates that include critical areas of coverage for obtaining insurance approval, and interpretation tables for an exceptional inventory of key standardized psychological tests. Integral to the book is a review of psychological tests in seven key categories that most effectively address differential diagnostic dilemmas and related referral questions that clinicians are likely to encounter in practice. It also provides effective strategies for selecting the appropriate tests based on the particular diagnostic questions, guidance for successfully obtaining insurance approval for a targeted yet feasible number of testing hours, and an efficient system for simultaneous test interpretation and report writing. Key Features Includes an overview of the assessment process from the initial referral to completion of the final report. Features effective reviews of commonly used tests including neuropsychological intelligence, personality, and behavioral inventories. Includes print and digital templates and forms for all phases of assessment and testing. Aids clinicians in both private practice and other health care settings to work within managed care and be effectively reimbursed for services. Includes information on conducting forensic competency to stand trial assessments, including the author's new measure of assessing a defendant's understanding of the legal system. **The**
