Cheshmehzangi,2025-07-01 This book is a collection of context specific ICT based interventions to achieve sustainability from various perspectives or dimensions The book is based on case study examples in the strategic context of Hainan South China Five ICT based pilot studies were conducted surveyed and analysed in 2021 and 2022 The studies explore impacts on four main sustainability dimensions of environmental social economic and institutional Several ICT based interventions are suggested to enhance environmental protection promote health and support in elderly communities augment social media for place promotion create online opportunities for local markets and help boost local tourism industries Urban Innovation and Sustainability is an attempt to highlight the positive side of ICT based interventions in cities and communities We also need to note the negative side of ICTs which are partly covered in the case study examples However this book focuses on case study pilot examples to promote the nexus between innovation and sustainability It is essential to explore opportunities that

could later be scaled up transform practices and help develop context specific policies In essence paradigm shifts infrastructural development and human centric development are necessary This book s findings interest scholars researchers practitioners and authorities in various disciplines of urbanism urban human geography urban studies planning innovation and sustainability *Australian Urban Policy* Robert Freestone,Bill Randolph,Wendy Steele,2024-03-19 Urban Australia confronts numerous challenges in the 21st century climate change housing transport greenspace social inequality and governance among them While state and local governments wrestle with these issues they are continent wide and require national leadership direction and participation As a highly urbanised country without a national approach to urban policy Australia is an outlier Contributors to this book argue that this policy gap needs to be addressed They ask How have productive sustainable and liveable cities so far been enhanced Where have aspirations fallen short or produced negative outcomes And what approaches are emerging to challenge existing and devise new urban policy settings In the face of ongoing crises and escalating change the need for policy to quickly transform urban Australia is daunting Problems wicked in their complexity require innovative ethical solutions This book offers new ideas that challenge policy orthodoxy

Resilience and Sustainability in Urban Africa Innocent Chirisa,Andrew Chigudu,2021-08-02 Resilience has become a very topical issue transcending many spheres and sectors of sustainable urban development This book presents a resilience framework for sustainable cities and towns in Africa The rise in informal settlements is due to the urban planning practices in most African cities that rarely reflect the realities of urban life and environment for urban development Aspects of places people and process are central to the concept of urban resilience and sustainable urban growth It stems from the observation that urban vulnerability is on the increase in Zimbabwe and beyond In history disasters have adversely affected nations across the world inflicting wide ranging losses on one hand while on the other hand creating development opportunities for urban communities Cooperation in disaster management is a strategy for minimising losses and uplifting the affected urban settlements The significance of urban planning and design in the growth and development of sustainable urban centres is well documented Urbanisation has brought with it challenges that most developing countries such as Zimbabwe are not equipped to handle This has been accompanied by problems such as overpopulation overcrowding shortages of resources and the growth of slum settlements There need is to seriously consider urban planning and design in order to come up with contemporary designs that are resilient to current urban challenges There are major gaps in urban resilience building for instance in Harare and the local authority needs to prioritise investment in resilient urban infrastructure
