professional sports but competition injuries unlightened mismanagement of funds and early retirement left them with no skills Young girls frequently became parents with no homemaking skills These individuals sometimes harbor resentment for former schoolmates who are busily working toward the achievement of their goals and this resentment is frequently manifested by some action The aim of this book is to develop schools where students are programmed for future success beginning in kindergarten To do this schools districts must interact with businesses colleges corporations and any other entities where students seek careers in order to establish objectives that guide students toward those careers Schools should provide experiences where meaningful character traits are developed The final expected result will be a new respect for education and a society where the majority of the citizens are goal driven and wish to make a meaningful contribution and a very few people who just exist Citizens of a society who are busy working toward some desirable objectives are less likely to have time for unlikely and illegal pursuits
