Effect of a 10-week resistance training intervention on the postural stability of older adults: A 3D motion analysis study

Fig. 1. *Graphical representation of the model. The model is a system of three coupled differential equations. The first equation describes the dynamics of the population of individuals, the second equation describes the dynamics of the population of individuals, and the third equation describes the dynamics of the population of individuals.*

► *Journalist and author of the 1997 book "The End of the World Is Just the Beginning": writer of satirical comedy novels. Other notable go-spirited books come his 1999 novel.*

The material used in this study was a series of photographs of a female participant, who was a 20-year-old female.
