Lu,2022-05-20 This is the first comprehensive book that presents the manifold aspects of divination and prognostication in traditional and modern China from the early period of oracle bones to present day fortune tellers It introduces what is out there in the field of Chinese divination and prognostication and how we can further explore it especially through different disciplines Eminent specialists outline the classifications of divination recently excavated texts the relationship between practitioners and clients the place of the occult arts in cosmology literature and religion and the bureaucratic system Contributors are Constance Cook Richard J Smith Marc Kalinowski Stephen R Bokenkamp L Lingfeng Liao Hsien huei Philip Clart Fabrizio Pregadio Esther Maria Guggenmos Andrew Schonebaum and St phanie Homola      **Scientific Feng Shui for the Built Environment** Michael Y. MAK,Albert T. SO,2015-03-11 Feng Shui is not all about tradition The integration and harmony between the natural and built environments concerning modern architecture has long been discussed in Feng Shui or more academically Kan Yu Based on Scientific Feng Shui for the Built Environment Fundamentals and Case Studies published in 2011 this enhanced new edition has further taken into account the enhancements and new inputs in theories and applications Emphasis is placed on two themes sustainability and science New case studies regarding sustainable design as viewed from a Feng Shui perspective and integrated applications of different architectural models and their associations with Feng Shui concepts are added and elaborated On science other than exploring the new development of particle physics in relation to Feng Shui studies a totally new approach to numerology and Luo Shu study based on modern linear algebra may bring readers new insight into the possibility of researching Feng Shui mathematically in addition to the use of spherical trigonometry This book offers a remarkable in depth view of Feng Shui by integrating the historical theories with scientific explorations and examples of applications It once again demonstrates that Feng Shui can be studied scientifically and eventually scientific Feng Shui may become a new field of science in the academic world as well as a professional and orthodox discipline of architectural design for the built environment Published by City University of Hong Kong Press

**Research in Scientific Feng Shui and the Built Environment** Michael Y. MAK,Albert Ting-pat SO,2009-02-01 Feng

Shui is a body of ancient Chinese knowledge that aims at creating a harmony between environment buildings and people It represented the most significant set of architectural theory and practice in Chinese history Feng Shui knowledge reflected the traditional Chinese attitudes towards the natural and built environment With a desire to improve the relationship between human and the environment there is an increasing interest for architects building professionals and other property practitioners to apply the concepts of Feng Shui in building design As Feng Shui knowledge represents a holistic view in creating harmonized built environment research into the application of Feng Shui to the built environment needs to be addressed *Chinese Geomancy* Suzi Oh,1983

**Transcultural Architecture** Thorsten Botz-Bornstein, 2016-03-09 Critical Regionalism is a notion which gained popularity in architectural debate as a synthesis of universal modern elements and individualistic elements derived from local cultures This book shifts the focus from Critical Regionalism towards a broader concept of Transcultural Architecture and defines Critical Regionalism as a subgroup of the latter One of the benefits that this change of perspective brings about is that a large part of the political agenda of Critical Regionalism which consists of resisting attitudes forged by typically Western experiences is softened and negotiated according to premises provided by local circumstances A further benefit is that several responses dependent on factors that initial definitions of Critical Regionalism never took into account can now be considered At the book's centre is an analysis of Reima and Raili Pietilä's Sief Palace Area project in Kuwait Further cases of modern architecture in China Korea and Saudi Arabia show that the critique which holds that Critical Regionalism is a typical western exercise is not sound in all circumstances The book argues that there are different Critical Regionalisms and not all of them impose Western paradigms on non Western cultures Non Western regionalists can also successfully participate in the Western enlightened discourse even when they do not directly and consciously act against Western models Furthermore the book proposes that a certain architectural rationality can be contained in architecture itself not imposed by outside parameters like aesthetics comfort or even tradition but flowing out of a social game of which architecture is a part The key concept is that of the form of life as developed by Ludwig Wittgenstein whose thoughts are here linked to Critical Regionalism Kenneth Frampton argues that Critical Regionalism offers something well beyond comfort and accommodation What he has in mind are ethical precepts closely linked to a

**Chinese Lineage and Society** Maurice Freedman, 2021-01-07 This book takes the argument first set out in Lineage Organization in South Eastern China a step further It incorporates some of Professor Freedman's field data gathered in the Hong Kong New Territories in 1963 and draws on a wide variety of written sources As in his first book on the subject the author seeks to analyse certain crucial institutions of Chinese society within the framework of contemporary anthropological theory
