wunderkammern als künstlerische Praxis Nina-Marie Schüchter, 2025-02-27 Welche Bedeutung haben Wunderkammern heute? Und wie können sie zum Verständnis der Gegenwart beitragen? In zeitgenössischer künstlerischer Praxis wird für die Beschreibung des Anthropozäns heute ein kulturelles Wissen aktualisiert, das sich bereits in Wunderkammern des 16. und 17. Jahrhunderts materialisiert. Nina Marie Schüchter analysiert die auf historische Wunderkammern rekurrierenden Praktiken des Sammelns, Ordnen und Zeigens in der Gegenwartskunst und etabliert für die sich daraus ableitende künstlerische Praxis den Neologismus wunderkammern. Damit macht sie künstlerisches Wissen zur kritischen Reflexion der Gegenwart modellhaft sowie konzeptuell nachvollziehbar und leistet einen Beitrag zur visuellen Aufklärung unserer Zeit.

Indigenous Cultural Centers and Museums Anoma Pieris, 2016-07-14 Here is a lavishly illustrated descriptive survey of 48 leading indigenous cultural centers around the world. 35 are from Australia and 13 from North America, Japan, Europe and Asia. The book shows how each is a potentially transformative, politically compelling addition to the field of cultural production, illustrating how the facilities all built in the last three decades have challenged assumptions about nature, culture and built form. Using the spatial-temporal practice of place-making as the starting point, the facilities highlighted here are described in terms of collaborations between a number of stakeholders and professional consultants. The book adopts the format of a descriptive survey with separate chapters devoted to individual case studies. A broad introductory chapter which presents the arguments and overview precedes richly illustrated short individual essays on

selected projects Each chapter commences with the details of the project including location area cost and consultants followed by a project description and discussion of background design development and reception of the projects Each project is approached as an architectural commission detailing the critical criteria consultants and processes The format is adopted from architectural review essays typically used in awards or journal publications within the profession which are accessible and relevant for both academics and practitioners Considerable attention is given to the process and to the evaluation of the project as a cultural response Each case study has been written with consultation of architects or administrators of the facilities for accuracy Indigenous Cultural Centers and Museums An Illustrated International Survey documents a rich legacy of collaboration across the spatial disciplines combining creative art practice architecture construction landscape design and urban design in the production of unique and culturally significant social institutions This book provides material on hitherto unknown bodies of work of talented architectural practices working collaboratively with culturally different client groups and developing consultative processes that test models for inter cultural engagement
