Advanced Selling For Dummies Ralph R. Roberts, 2011-04-20

Advanced Selling For Dummies is a terrific resource that can energize your business performance and boost your bottom line. An excellent guide for both seasoned salespeople who want to take their productivity to the next level and small and large business entrepreneurs who are missing the advanced selling strategies that they really need to generate business and revenue. This book is packed with practical advice on how to boost sales productivity and profits through the full court press approach to marketing and sales. Unlike other books that claim to reveal the secret to selling, Advanced Selling For Dummies is based on the premise that no single secret exists. You need a positive attitude, a strong work ethic, a creative mind, and the stick-to-itism to survive and thrive in today's competitive marketplace. In the book, Ralph R. Roberts and a select group of the top sales people and trainers across the country give readers the necessary tools to become top producers. Stressing the importance of focusing on your innate skill sets and creating a distinctive brand for yourself, Advanced Selling For Dummies teaches the tricks and habits that can benefit you both in your professional and personal life. Things like: Believing in and motivating yourself, Planning the work and then working the plan, Techniques for honing your sales skills, Hour of Power 100 phone calls one hour a day, Personal branding through shameless self promotion, Credibility building through websites, blogging and social media, Personal partnering for inspiration and accountability, Tapping the unserved and underserved multicultural marketplace, Embracing change and taking risks, Implementing the latest productivity boosting technologies, Hiring an assistant so you can pursue your passions, Tapping the power of Relationship Commerce. Roberts also tackles the process of running a sales operation which requires deft maneuvering. Here you'll learn to create solid partnerships with like minded talented people, set the right goals and reward yourself properly when you reach them, embrace change in your industry and the world at large to grow your business, create your own USP, a kind of personal resume and mission statement, seed your business cards, take a weekly Hour of Power to keep in touch with your contacts and use the latest technology such as the Internet and blogs to grow sales.

Artificial Intelligence for Fashion Leanne

Luce, 2018-12-08. Learn how Artificial Intelligence (AI) is being applied in the fashion industry. With an application focused approach, this book provides real world examples, breaks down technical jargon for non technical readers, and provides an educational resource for fashion professionals. The book investigates the ways in which AI is impacting every part of the fashion value chain, starting with product discovery and working backwards to manufacturing. Artificial Intelligence for Fashion walks you through concepts such as connected retail, data mining, and artificially intelligent robotics. Each chapter contains an example of how AI is being applied in the fashion industry, illustrated by one major technological theme. There are no equations, algorithms, or code. The technological explanations are cumulative, so you'll discover more information about the inner workings of artificial intelligence in practical stages as the book progresses.
