**Science Education Research and Practice from Japan** Tetsuo Isozaki, Manabu Sumida, 2021-07-19. This book project poses a major challenge to Japanese science education researchers in order to disseminate research findings on and to work towards maintaining the strength and nature of Japanese science education. It also presents a unique opportunity to initiate change and/or develop science education research in Japan. It provides some historical reasons essential to Japanese students' success in international science tests such as TIMSS and PISA. Also, it helps to tap the potential of the younger generation of science education researchers by introducing them to methods and designs in the research practice. *Nutrition and the Elderly* Shirley King Evans, 1990. **Vocational and Occupational Education** United States. Congress. House. Committee on Education and Labor. Subcommittee on Elementary, Secondary, and Vocational Education, 1975. Transformation of Higher Education Institutions in Post-Apartheid South Africa Chaunda L. Scott, Eunice N. Ivala, 2019-02-21. This book outlines successful transformation strategies and efforts that have been developed to assist the South African higher education system in moving beyond its post-apartheid state of being. Through case studies authored by South African higher education scholars and scholars affiliated with South African institutions, this book aims to highlight the status of transformation in the South African higher education system, demonstrate the variety of transformation initiatives used in academic institutions across South Africa, and offer recommendations to further advance this transformation. Written for scholars and advanced students of higher education in international settings, this volume aims to support quality research that benefits the demographic composition of South African academics and students and offers lessons that can inform higher education transformation in similarly multicultural societies. *Agriculture and the Undergraduate* National Research Council, Board on Agriculture, 1992-02-01. This book presents efforts to chart the comprehensive changes needed to meet the challenges of undergraduate professional education in agriculture. The United States needs to invest in the future in human capital and the scientific knowledge base to revitalize one of its leading industries: the agricultural food and environmental system. That objective can be met by educating all students about agriculture as well as by educating others specifically for careers in agriculture. *Agriculture and the Undergraduate* includes perspectives on rewarding excellence in teaching and formulating curricula to reflect cultural diversity, the environment, ecology, agribusiness, and business, humanities, and the social sciences, and the economic and global contexts of agriculture.
