

# Writing a Good PhD Research Proposal

## - What is a PhD proposal ?

A PhD proposal is a an outline of your proposed project that is designed to:

- Define a clear question and approach to answering it
- Highlight its originality and/or significance
- Explain how it adds to, develops (or challenges) existing literature in the field
- Persuade potential supervisors and/or funders of the importance of the work, and why *you* are the right person to undertake it

Research proposals may vary in length, so it is important to check with the department(s) to which you are applying to check word limits and guidelines. Generally speaking, a proposal should be around 3,000 words which you write as part of the application process.

## - What is the research proposal for ?

Potential supervisors, admissions tutors and/or funders use research proposals to assess the quality and originality of your ideas, your skills in critical thinking and the feasibility of the research project. Think very carefully about the scope of your research and be prepared to explain how you will complete it within this timeframe.

Research proposals are also used to assess your expertise in the area in which you want to conduct research, your knowledge of the existing literature (and how your project will enhance it). Moreover, they are used to assess and assign appropriate supervision teams. If you are interested in the work of a particular potential supervisor – and especially if you have discussed your work with this person – be sure to mention this in your proposal. We encourage you strongly to identify a prospective supervisor and get in touch with them to discuss your proposal informally **BEFORE** making a formal application, to ensure it is of mutual interest and to gain input on the design, scope and feasibility of your project. Remember, however, that it may not be possible to guarantee that you are supervised by a specific academic.

Crucially, it is also an opportunity for you to communicate your passion in the subject area and to make a persuasive argument about what your project can accomplish. Although the proposal should include an outline, it should also be approached as a persuasive essay – that is, as an opportunity to establish the attention of readers and convince them of the importance of your project.

*Censorship across Borders* Alberto

Lázaro, Catherine O'Leary, 2011-07-12 This volume brings together twelve essays which explore European censorship of English literature in the last century Taking into consideration the various social political and historical contexts in which literary controls were imposed and the extent to which they were determined by national and international concerns these

essays comment on political and moral censorship self censorship and the role of the translator as censor Besides systematic state control other hidden and insidious forms of censorship are also surveyed in the essays This study considers why certain works and authors many of them now regarded as canonical were targeted in various states and often under opposing ideologies such as those dominated by conservative Catholic morality and those governed by communism or socialism The essays contain previously unpublished material cover a wide range of authors including Beckett Eliot Joyce and Orwell and analyse diverse censorship systems operating across Europe thus serving as a useful comparative resource Despite the variety of structures of suppression the study shows that certain common practices can be discerned across national borders and that general conclusions can be drawn about the complex and ambiguous nature of the state's relationship with culture and about the immediate and long term impact of censorship not only on the author and publisher but on society as a whole Finally the essays are also significant for what they tell us about the survival of literature despite the best efforts of the censors

**An Introduction to Poetic Forms** Patrick Gill, 2022-12-29 An Introduction to Poetic Forms offers specimen discussions of poems through the lens of form While each of its chapters does provide a standard definition of the form in question in its opening paragraphs their main objective is to provide readings of specific examples to illustrate how individual poets have deviated from or subverted those expectations usually associated with the form under discussion While providing the most vital information on the most widely taught forms of

poetry then this collection will very quickly demonstrate that counting syllables and naming rhyme schemes is not the be all and end all of poetic form. Instead each chapter will contain cross references to other literary forms and periods as well as make clear the importance of the respective form to the culture at large be it the democratising communicative power of the ballad or the objectifying male gaze of the blazon and resistance to same in the contreblazon the efficacy of form is explored in the fullness of its cultural dimensions. In using standard definitions only as a starting point and instead focusing on lively debates around the cultural impact of poetic form the textbook helps students and instructors to see poetic forms not as a static and lifeless affair but as living breathing testament to the ongoing evolution of cultural debates. In the final analysis the book is interested in showing the complexities and contradictions inherent in the very nature of literary form itself how each concrete example deviates from the standard template while at the same time employing it as a foil to generate meaning.

**The Graveyard in Literature** Aoileann Ní Éigeartaigh, 2021-11-12 This volume focuses on literary and other cultural texts that use the graveyard as a liminal space within which received narratives and social values can be challenged and new and empowering perspectives on the present articulated. It argues that such texts do so primarily by immersing the reader in a liminal space between life and death where traditional certainties such as time and space are suspended and new models of human interaction can thus be formulated. Essays in this volume examine the use of liminality as a vehicle for social critique paying particular attention to the ways in which liminal spaces facilitate the construction of alternative perspectives.

**British Literature and Spirituality** Franz Karl Wöhrer, John S. Bak, 2013 This book reflects the current state of research in the field of the spiritual in British literature where spirituality is understood as a culturally determined universal phenomenon or a factuality of humanity consisting of the living apprehension of the Sacred during rare gratuitous moments of illumination. With critical essays by scholars working in various disciplines English studies music the arts psychology theology etc the book explores a corpus of encoded narratives of as well as reflections on the Sacred in British literature from the Late Middle Ages to the present. Multi disciplinary in nature and interdisciplinary in method British Literature and Spirituality illustrates the hermeneutic potential of readings that transcend the disciplinary boundaries of spiritual writings.
