Sabbatai Sevi The Mystical Messiah Bollingen Series No 93:

Tradition and Crisis Jacob Katz,2000-02-01 A new edition of Katz s study of European Jewish society at end of the Middle Ages It taps into a rich source the responsa literature of the Rabbinic establishment of the time a time when self governing communities of Jews dealt with their own civil and religious issues Honored by the Glory of Islam Marc David Baer,2011-09 Marc David Baer proposes a novel approach to the historical record of Islamic conversions during the Ottoman age and gathers fresh insights concerning the nature of religious conversion itself Rather than explaining Ottoman Islamization in terms of the converts motives Baer concentrates on the proselytizing sultan Mehmet IV 1648 87

Converting Cultures Dennis Dennis Charles Washburn, A. Kevin Reinhart, 2007 This volume considers the concept of conversion as a tool for understanding transformations to modernity It examines conversions to modernity within the Ottoman domain India China and Japan as a reaction to the pressures of colonialism and imperialism Mysticism Rivka Schatz Uffenheimer, 2015-03-08 Offered here for the first time in English translation Hasidism as Mysticism is a classic in its field Using the tools of phenomenology Rivka Schatz Uffenheimer places Hasidism squarely in the context of religious studies Hasidism s theoretical texts have been largely ignored by historians of the movement but Schatz Uffenheimer analyzes these materials fully disclosing the mystical quietistic tendencies that existed alongside Hasidism's more activist popular elements The author carefully reviewed this translation of her work it includes a revised introduction with much new material two new chapters and an appendix containing a translation history and literary analysis of one of the few extant texts attributed to the Baal Shem Tov Schatz Uffenheimer's inquiry covers the full gamut of Hasidic life and thought embracing such topics as the emphasis on joy and the concomitant ban on sadness and regret in Hasidism the focus on contemplative rather than petitionary prayer the subordination of the mizvot commandments to the spiritualistic goal of devegut attachment to God and the anarchic elements of Hasidism's approach to life within society Also discussed are the problematic role of Torah study resulting from this spiritualistic emphasis the movement's neutralization or internalization of the traditional concept of a historical messiah and the transformation within Hasidism of traditional concepts borrowed from Kabbalah The author's illuminating hints as to the affinity between Hasidism and Christian Quietism should be of particular interest to scholars in the field Rivka Schatz Uffenheimer 1927 1992 was the Edmonton Community Professor of Jewish Mysticism at the Hebrew University of Jerusalem One of the outstanding students of Gershom Scholem she forged her own path in the world of scholarship Her research encompassed a wide range of areas Zohar and Lurianic Kabbalah Sabbatianism Hasidism and the typology of Jewish messianism In addition she was deeply involved in the ongoing discussion concerning the major spiritual and existential issues confronting contemporary Judaism and the State of Israel Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these

important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 Gilgul Guy Stroumsa, Shaul Shaked, Shulman, 2018-11-13 **Incomprehensible** Sheila A. Spector, 2001 Traces the evolution of hebraic etymologies and mystical grammars as indicators of a profound shift in Blake's subjective consciousness from the earliest prose tracts worked on before 1790 to the last years of his life when he was still completing Jerusalem Religion, the Body, and Sexuality Nina Hoel, Melissa Wilcox, Liz Wilson, 2020-09-10 How does religion relate to bodies and sexualities Many people would answer simply through repression but the relationship is much more complicated than that While many religions draw boundaries between what they consider to be appropriate and inappropriate use of the human body especially in the realm of sexuality the same religions often celebrate human sexuality and even expect sexual partners to provide each other with sexual pleasure Celibacy too is more than just repression and sometimes it is even seen as providing the practitioner with great spiritual power in other settings the sex act itself is understood to provide this power Religion the Body and Sexuality offers students and general readers a sophisticated and accessible exploration of the connections between religion sexuality and the body through case studies and overviews in the following thematic chapters Celibacy Regulation Controversy Violence Innovation Instrumentalization Ecstasy Each chapter includes suggestions for further reading guestions for further thought and a list of relevant media resources This engaging book is an excellent addition to introductory courses on religion or sexuality and is a much needed The Martyrdom of a Moroccan new volume for advanced courses on the intersections of these areas of human experience Jewish Saint Sharon Vance, 2011-05-10 The martyrdom of a young Jewish girl from Tangier in 1834 sparked a literary response that continues today This book translates and analyzes printed and manuscript versions of her story in Hebrew Judeo Arabic Judeo Spanish Spanish and French written in the first century after her death Stairway to Heaven Peter Levenda, 2008-06-01 The idea of heavenly ascent while popularized in Jewish mysticism is neither a unique nor recent one Expertly tracing its origins back to the ancient Middle East Levenda unearths ascent literature in Africa India and China discerns a common connection in the heavens themselves and determines that this connection has been sorely neglected in contemporary scholarship Because scholars treat the heavens as metaphorical it is necessary to recreate the physical context of the culture under discussion in order to better understand it For the benefit of the reader Levenda offers two useful concepts for his investigative journey a map whereby he means the cosmological system to better understand the mystical technologies of each culture investigated and a vehicle the method by which the individual equipped with special knowledge is able to navigate the culture s particular cosmology With these two tools Levenda travels from the worlds of ancient Egypt and Babylon to the Hebrew Bible to Jewish and Christian kabbalists to Daoists in ancient China to Hindu Tantra and Haitian Vodoun and finally to nineteenth and twentieth century European occult societies **Terrorist Groups and the New**

Tribalism Jeffrey Kaplan, 2010-02-25 The central focus of this book is a small but vitally important group of movements that constitute a distinct fifth wave of modern terrorism here called the New Tribalism Terrorist Groups and the New Tribalism examines a collection of terrorist or insurgent movements whose similarity in tactics strategic vision and desire to radically reshape their worlds to conform with a Golden Age dream of perfection which is to be achieved through a genocidal or ethnic cleansing process to make way for the emergence of a new radically perfected tribal utopia in a single generation These shared strategic and tactical factors allow them to be examined through a comparative lens as a distinct fifth wave of modern terrorism Structured around the theoretical framework of David Rapoport's Four Waves thesis the book examines anomalous movements that began within a distinct wave of international terrorism but following a crisis model has turned inwards toward radical localism tribalism and xenophobia The text is divided between theory and in depth case studies of the Ugandan Lord's Resistance Army and the Sudanese Janjaweed It concludes with a design for further field work based research This book will be of interest to students of Terrorism and Political Violence Genocide Conflict Studies African politics and Political Science in general Jeffrey Kaplan is an Associate Professor of Religion and the Director of the Institute for the Study of Religion Violence and Memory at the University of Wisconsin Oshkosh He is the author of 11 books on terrorism and political violence Essential Papers on Messianic Movements and Personalities in Jewish History Marc Saperstein, 1992-04 The messianic idea that a redeemer sent by God will come to end the suffering of a persecuted people and inaugurate a new age of justice and peace has been one of the most powerful and influential concepts given by the Jewish people to western civilization This book represents a sample of the most penetrating and provocative scholarly interpretations of Jewish messianic movement from various perspectives historical sociological psychological and religious

The Heresy of Jacob Frank Jay Michaelson, 2022 The Heresy of Jacob Frank is the first monograph length study on the religious philosophy of Jacob Frank 1726 1791 who in the wake of false messiah Sabbetai Zevi led the largest mass apostasy in Jewish history Based on close readings of Frank s late teachings recorded in 1784 and 1790 this book challenges scholarly presentations of Frank that depict him as a sex crazed degenerate and presents Frank as an original and prescient figure at the crossroads of tradition and modernity reason and magic Kabbalah and Western Esotericism Frank s worldview combines a skeptical rejection of religious law as ineffectual and repressive with a supernatural esoteric myth of immortal beings material magic and worldly power With close readings of the theological and narrative passages of Frank s teachings Michaelson shows how the Frankist sect evolved from its Sabbatean roots and the infamous 1757 59 disputations before the Catholic Church into a Western Esoteric society based on alchemy secrecy and sexual liberation Sexual ritual apparently tightly limited and controlled by the sect was not a libertine bacchanal but an enactment of the messianic reality a corporealization of what would later become known as spirituality While Frank was undoubtedly a manipulative even abusive leader whose sect mostly disappeared from history Michaelson suggests that his ideology anticipated themes that would

become predominant in the Haskalah Early Hasidism and even contemporary New Age Judaism In an inversion of traditional religious values Frank s antinomian theology held personal flourishing to be a religious virtue affirmed only the material and transferred messianic eros into social sexual and political reality **An Ottoman Mentality** Robert Dankoff, 2006-05-01 In his huge travel account Evliva elebi provides materials for getting at Ottoman perceptions of the world not only in areas like geography topography administration urban institutions and social and economic systems but also in such domains as religion folklore sexual relations dream interpretation and conceptions of the self In six chapters the author examines Evliya s treatment of Istanbul and Cairo as the two capital cities of the Ottoman world his geographical horizons and notions of tolerance his attitudes toward government justice and specific Ottoman institutions his social status as gentleman character type as dervish office as caller to prayer and avocation as traveller his use of various narrative styles and his relation with his audience in the two registers of persuasion and amusement An Afterword situates Evliya in relation to other intellectual trends in the Ottoman world of the seventeenth century **Essential Papers on Jewish Culture in Renaissance and Baroque Italy** David Ruderman, 1992 This book represents a sample of the most penetrating Jewish movements **Eremya** Chelebi Kömürjian's Armeno-Turkish Poem "the Jewish Bride" Eremia K'ēōmiwrchean,1981 **Persecuting Society** John Laursen, Cary J. Nederman, 1998 Beyond the Persecuting Society constructs a history of toleration from the Middle Ages through the seventeenth century The Resurrection of Jesus Dale C. Allison, Jr., 2021-03-11 The earliest traditions around the narrative of Jesus resurrection are considered in this landmark work by Dale C Allison Jr drawing together the fruits of his decades of research into this issue at the very core of Christian identity Allison returns to the ancient sources and earliest traditions charting them alongside the development of faith in the resurrection in the early church and throughout Christian history Beginning with historical critical methodology that examines the empty tomb narratives and early confessions Allison moves on to consider the resurrection in parallel with other traditions and stories including Tibetan accounts of saintly figures being assumed into the light in the chapter Rainbow Body Finally Allison considers what might be said by way of results or conclusions on the topic of resurrection offering perspectives from both apologetic and sceptical viewpoints In his final section of modest results he considers scholarly approaches to the resurrection in light of human experience adding fresh nuance to a debate that has often been characterised in overly simplistic terms of it happened or it didn t Acts of Faith Dan Ross, 1984 Sainthood Richard Kieckhefer, George D. Bond, 1990-08-09 Every major religion exalts certain individuals who occupy a dual role On the one hand they serve as exemplars of virtue to be imitated and on the other hand they stand removed from other mortals privileged and unique Christianity knows them as saints and in the study of religion the term has been taken over and applied to similar figures in other traditions The essays in this volume analyze the role of the saint in Judaism Christianity Islam Hinduism Buddhism and Confucianism providing both a comparative and an interpretive view of sainthood The notion of sainthood is problematic in

two ways First can the category be usefully applied to individuals in religious traditions other than Christianity How has it manifested itself and what differences are there in the various manifestations of sainthood Second where individuals are considered to have risen above the norms in these different traditions how is it possible to resolve the tension between the saint s imitability and his or her otherness between imitating and venerating the saint The authors consider these questions in relation to a wide range of individuals in all the major traditions *Judaism and the Gentile Faiths* Joseph P. Schultz,1981 Examines the historic development of Jewish religions thought in the cross cultural context of the world s major faiths The law ethics and mysticism of Judaism are compared with their counterparts in Confucianism Hinduism Buddhism Islam Christianity and the secular formulations of religion in modern times
