SAP BW 7.x

SAP Realtime Database Platform

SAP First Guidance - SAP BW on HANA Migrate with the database migration option (DMO)

Applicable Releases:

SAP BW 7.0x SP27/SP10

SAP BW 7.3x SP07/SP03

SAP BW 7.40 SP02

and higher

DMO is an option of SUM for combined update and migration including unicode conversion: update an existing SAP system to a higher software release and migrate to SAP HANA database including UC migration.

As the technical SUM steps are the same, this "SAP First Guidance" document should make all customer-specific documentation obsolete. It is the complementary documentation to the existing Notes and SUM/DMO Upgrade Guides.

The document is "work in progress" and it not intended to be exhaustive, although it does contain everything you need to successfully migrate your existing BW System Release 7.0x running on any DB to BW on HANA 7.31 or higher, using the database migration option (DMO) as part of the software update manager (SUM) provided by the SL toolset.
