Markets against Modernity Ryan H. Murphy, 2019-11-08 In *Markets Against Modernity* economist Ryan Murphy documents a clear continuity between the systematic errors people make in their personal lives and the gaps between public opinion and informed opinion These errors cluster around specific divergences between how the modern world's institutions function including global markets pluralistic democracy and even science itself and how evolution trained our brains to understand the nature of economic relationships social relationships and humanity's relationship to the physical world Murphy calls these systematic divergences Ecological Irrationality Exploring them leads him to even more prickly questions and to conclusions that may challenge the beliefs of those who understand that for instance modern vaccines are safe and effective Do we actually want a less cohesive society Is doing a task yourself financially prudent And if we recognize an expert consensus is there even a way to implement it and achieve the desired effects

In Line Behind a Billion People Damien Ma, William Adams, 2013-08-26 Nearly everything you know about China is wrong Yes within a decade China will have the world's largest economy But that is the least important thing to know about China In this enlightening book two of the world's leading China experts turn the conventional wisdom on its head showing why China's economic growth will constrain rather than empower it Pioneering political analyst Damien Ma and global economist Bill Adams reveal why having 35 years of ferocious economic growth China's future will be shaped by the same fundamental reality that has shaped it for millennia scarcity Ma and Adams drill deep into Chinese society illuminating all the scarcities that will limit its power and progress Beyond scarcities of natural resources and public goods they illuminate China's persistent poverties of individual freedoms cultural appeal and ideological legitimacy and the corrosive loss of values and beliefs amongst a growing middle class shackled by a parochial and inflexible political system Everyone knows the 21st century is China's to lose but as with so many things that everyone knows that's just wrong Ma and Adams get beyond cheerleading and fearmongering to tell the complex truth about China today This is a truth you need to hear whether you're an investor business decision maker policymaker or citizen
