Anais Nin Reader:

Anais Nin Reader Anaïs Nin, 1974 **Anais Nin** Suzanne Nalbantian, 1997-07-13 This book of essays is the first to probe Anais Nin's achievements as a literary artist. With an introduction by the editor Suzanne Nalbantian, the collection examines the literary strategies of Nin in their psychoanalytical and stylistic dimensions. Various contributors scrutinize Nin's artistry, identifying her unique modernist techniques and her poetic vision. Others observe the transfer of her psychoanalytical positions to narrative. The volume also contains fresh views of Nin by her brother Joaquin Nin Culmell as well as innovative analyses of the reception of her works.

Reader Anais Nin, 1977 *Anais Nin Reader. Edited by Philip K. Jason. Introd. by Anna Balakian* Anaïs Nin, 1973 *Anaïs Nin, Fictionality and Femininity* Helen Tookey, 2003 Helen Tookey examines the work of Anaïs Nin 1903-77 and the different versions of Nin herself as woman writer and iconic figure through the lens of cultural and historical contexts. She focuses particularly on questions of identity and femininity, exploring how the self for Nin is constructed through narratives and performances of various kinds and shedding light on key issues and conflicts within feminist thinking since the 1970s, particularly questions of identity, femininity, and psychoanalysis.

The Reader's Adviser, 1986 **The Love Lives of the Artists** Daniel Bullen, 2013-02-12 As the oldest of institutions, marriage seems outdated in modern times when each individual is encouraged to break with tradition in order to fulfill him or herself. And so artists like Diego Rivera and Frida Kahlo seem to be paving the way toward a brave new kind of marriage where spouses would be allowed even encouraged to fulfill different aspects of themselves in outside relationships. Shared creativity, they believed, would transcend their jealousies and compensate their sufferings through art; they would rise above conventional marital fidelity and prove a higher fidelity to art and to themselves. *The Love Lives of the Artists* tells the stories of Rainer Maria Rilke and Lou Andreas Salom, Alfred Stieglitz and Georgia O'Keeffe, Jean Paul Sartre and Simone de Beauvoir, Diego and Frida, and Henry Miller and Anaïs Nin, five couples who approached their relationships with the same rebellious creativity as they practiced in their art. From their early artistic development and their first experiences in love to their artistic marriages and their affairs and then to their fights and reconciliations, addictions, nervous breakdowns, and continued creativity, *The Love Lives of the Artists* describes the promise and the price of freedom and creativity in love.

Literary Seductions Frances Wilson, 2024-11-21 The reader's love of the writing tends to become indistinguishable from his love of the writer. Beautiful writing has exercised its intoxicating power over readers since time immemorial. And yet on occasion this seduction extends beyond the page and sparks an irreversible connection between author and reader. This is a true literary seduction. In *Literary Seductions*, Frances Wilson demonstrates how some of history's most renowned writers were themselves ensnared by the writing they consumed and which in turn consumed them. Through a series of famous literary couples, Elizabeth Barrett and Robert Browning, Anaïs Nin and Henry Miller, Osip Mandelstam and his wife Nadezhda, Wilson evokes the evolution from literary seduction to sexual desire. With stories of self-sacrifice, self-effacement, and even self-immolation.

Literary Seductions recounts the powerful inflammatory and sometimes destructive nature of literature **Romantic Science and the Experience of Self** Martin Halliwell, 2019-07-23 First published in 1999 this volume follows the work of five influential figures in twentieth century transatlantic intellectual history The work forms the basis for this engaging interdisciplinary study of romantic science In this book Martin Halliwell constructs a tradition of romantic science by indicating points of theoretical intersection in the thought of William James American philosopher Otto Rank Austrian psychoanalyst Erik Erikson Danish German psychologist and Oliver Sacks British neurologist Beginning with the ferment of intellectual activity in late eighteenth century German Romanticism Halliwell argues that only with William James theory of pragmatism early in the twentieth century did romantic science become a viable counter tradition to strictly empirical science Stimulated by recent debates over rival models of consciousness and renewed interest in theories of the self Halliwell reveals that in their challenge to Freud s adoption of ideas from nineteenth century natural science these thinkers have enlarged the possibilities of romantic science for bridging the perceived gulf between the arts and sciences *D.H. Lawrence and Nine Women Writers* Leo Hamalian, 1996 D H Lawrence and *Nine Women Writers* sheds fresh light on how a number of women writers of his time and our own reacted in their thinking and writing to D H Lawrence s unbridled individualism sensitive genius creative energy and his sometimes infuriating misogynistic resentments Critic and scholar Leo Hamalian explores the ways that the sensibilities of nine important women writers were both extensively and profoundly influenced by the English author s fiction poetry criticism and self styled polyanalytics Hamalian s series of comparative readings is illuminating They demonstrate clearly that the hard questions of ideology subject matter and style which engaged Lawrence throughout his turbulent career continued to challenge a number of women writers who were grappling with these issues from another vantage point Through skeptical of some of Lawrence s theories these writers valued the dynamic aspects of Lawrence s creativity especially his emphasis on consciousness of wider meanings rather than character on symbol rather than narrative although he was a masterful storyteller They realized that his intensely conceived and evocatively concentrated scenes could be turned into a highly rewarding technique for suggesting the emotional conflicts and moral dilemmas of their own characters His primitivist philosophy struck them as healthy and his sensitivity as a kind of appealing vulnerability **BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved**

Multicultural Writers from Antiquity to 1945 Alba Amoia, Bettina L. Knapp, 2001-10-30 The final decades of the 20th century have seen an explosion of interest in multiculturalism But multiculturalism is more than an awareness of the different cultures comprising contemporary societies For centuries people from around the world have come in contact with cultures other than their own and their exposure to multiple cultures has fostered their creativity and ability to make lasting contributions to civilization The effects of multiculturalism are especially apparent in literature since writers tend to be particularly aware of their environments and record their experiences This reference includes alphabetically arranged

entries for more than 100 world writers from antiquity to 1945 who were significantly influenced by cultures other than their own Included are entries for major canonical Ancient and Modern writers of the Western and Eastern worlds Each entry is written by an expert contributor and includes a brief biography a discussion of multicultural themes and contexts a summary of the writer s critical reception and primary and secondary bibliographies By illuminating the shaping influence of multiculturalism on these writers the volume points to the lasting value of multiculturalism in the contemporary world

Modernism and Morality M. Halliwell,2001-09-12 Modernism and Morality discusses the relationship between artistic and moral ideas in European and American literary modernism Rather than reading modernism as a complete rejection of social morality this study shows how early twentieth century writers like Conrad Faulkner Gide Kafka Mann and Stein actually devised new aesthetic techniques to address ethical problems By focusing on a range of decadent naturalist avant garde and expatriate writers between 1890 and the late 1930s this book reassesses the moral trajectory of transatlantic fiction

The Art of Paper Caroline Fowler, 2019-11-05 The untold story of how paper revolutionized art making during the Renaissance exploring how it shaped broader concepts of authorship memory and the transmission of ideas over the course of three centuries In the late medieval and Renaissance period paper transformed society not only through its role in the invention of print but also in the way it influenced artistic production The Art of Paper tells the history of this medium in the context of the artist's workshop from the thirteenth century when it was imported to Europe from Africa to the sixteenth century when European paper was exported to the colonies of New Spain In this pathbreaking work Caroline Fowler approaches the topic culturally rather than technically deftly exploring the way paper shaped concepts of authorship preservation and the transmission of ideas during this period This book both tells a transcultural history of paper from the Cairo Genizah to the Mesoamerican manuscript and examines how paper became Europeanized through the various mechanisms of the watermark colonization and the philosophy of John Locke Ultimately Fowler demonstrates how paper as refuse and rags transformed into white surface informed the works for which it was used as well as artists thinking more broadly across the early modern world
