SMEs and Economic Development in Africa Gift Mugano, Nirmala Dorasamy, 2023-09-15 Small and medium-sized enterprises (SMEs) are a driving force of the global economy, contributing up to 50% of gross domestic product in some instances. They also contribute to economic development through various channels such as employment creation, economic growth, and poverty reduction, key elements of the Sustainable Development Goals. Furthermore, in many economies, the majority of jobs are provided by SMEs. However, despite their support of the economy, SMEs are prone to several binding constraints such as access to finance and market entry, as well as exogenous shocks and crises, most recently the COVID-19 pandemic. Building on evidence from international experience, *SMEs and Economic Development in Africa* provides grounded solutions to challenges affecting SMEs, particularly in Africa, and offers guidance on how to build resilience to counteract future shocks. It also offers a number of policy measures which governments in developing countries may need to consider in order to encourage economic growth and development, such as increasing productive capacities, training, enhancing business ethics and professionalism, and improving competitiveness. What makes this book distinctive is that fact that it brings together the literature concerning SMEs in one place and, using case studies, it showcases how policymakers can overcome the challenges affecting SMEs. The book also provides tested and practical remedies for African economies with a view to making SMEs a springboard for economic prosperity. The book will appeal to advanced students, scholars, and researchers, as well as policymakers, development agencies, and non-governmental organisations.

Management and Resilience of African Organizations in Times of Crisis Shani D. Carter, Sara Bensal, 2024-05-16

Businesses in African countries continued to face crises due to COVID-19 supply chain and climate change. Governments can take steps to increase businesses' resilience by supporting and promoting sustainable development. In turn, businesses can increase their resilience by promoting the resilience of their employees. This book explores the current state of management and resilience in African nations and discusses issues that revolve around its reciprocal impact on global business, government, and society. Featuring select papers from the 4th Annual Current Business Issue in African Countries (CBIAC) Conference held in Agadir, Morocco, in 2023, this book focuses on the synergies between climate change, supply chain, and sustainable development, particularly post-pandemic, featuring content from business and NGO leaders, faculty, and students. The impetus of the CBIAC conference was the discussions held at the United Nations Conference on Trade and Development (UNCTAD) held in Nairobi, Kenya, in July 2016 and in Bridgetown, Barbados, and Geneva, in October. The goal of the conference

is to create long term collaborative relationships between business leaders faculty researchers students and community members from different African nations
