practitioners and new types of institutions such as RMIT in Melbourne and the London School of Architecture LSA have been recasting architectural education and theoretical speculation within practice turning the traditional architectural studio into a learning environment that adopts and adapts academic models and starts to use architectural research as a potential source of business intelligence as a means for self generating future commissions and speculative opportunities that sometimes even shift the terrain of practice This new focus on research in practice is indicative of a profession redefining its relevance and scope This is destabilising the traditional roles of academia and practice by questioning their deep rooted separation and demanding a new definition of the term research with one that is relevant to both parties This issue features contributions from architectural thinkers researchers and a number of practitioners who are recasting academic speculation within their own studios This not only redefines what is meant by research and what forms it takes but also how it creates value for them their clients for the discipline as a whole and for the ultimate users of their designs This helps us to understand how research might be deemed valuable beyond a purely academic context Moreover it raises significant questions in terms of opportunities and risks that arise when research is recast into the less regimented realm of practice Contributors Daniel Davis Lionel Devlieger David Green Harriet Harris Rory Hyde Lara Kinneir James Soane Ziona Strelitz Leon van Schaik John Zhang Featured architects Assemble DSDHA Foster Partners Iredale Pedersen Hook OMA Public Practice and Superflux   *2015 - DEBBIES BOOK(R) 27th Edition* Debbie Hemela,2015-03-01 2015 of Debbies Book 27th Edition Full Database EBOOK 5 ways to experience Debbies Book Physical book for users who want to hold it in their hands Printable book for users who want to print certain pages Tablet friendly eBook for users who love their iPads and eReaders Mobile App for iOS Android Devices Daily blog featuring vendors and news The book is organized by categories in alphabetical order Listings for Prop Houses and Costume Rental Houses are shortened to one or two lines to save space Their full contact information is located within the Prop House and Costume Rental Houses categories only   **MuleSoft for Salesforce Developers** Arul Christhuraj Alphonse,Alexandra Martinez,Akshata Sawant,2022-09-30 Design secure test and deploy APIs with MuleSoft and integrate it with Salesforce to maximize productivity Key Features Build implement transform secure test and deploy APIs using Anypoint Studio and Anypoint Platform Integrate MuleSoft with Salesforce and other end systems to build an application network Enhance your Salesforce and MuleSoft skills and employability with interview and certification tips and tricks Book DescriptionMuleSoft for Salesforce Developers will help you build state of the art enterprise solutions with flexible and scalable integration capabilities using MuleSoft s Anypoint Platform and Anypoint Studio If you re a Salesforce developer looking to get started with this useful tool look no further This book will get you up to speed in no time leveling up your integration developer skills This essential guide will first introduce you to the fundamentals of MuleSoft and API led connectivity before walking you through the API life cycle and the Anypoint Studio IDE Once you have the IDE set up you ll be ready to create Mule applications You ll look at the core components of MuleSoft and Anypoint Platform and
