DEVELOPMENT AS FREEDOM

Development can be seen, it is argued here, as a process of expanding the real freedoms that people enjoy. Focusing on human freedoms contrasts with narrower views of development, such as identifying development with the growth of gross national product, or with the rise in personal incomes, or with industrialization, or with technological advance, or with social modernization. Growth of GNP or of individual incomes can, of course, be very important as *means* to expanding the freedoms enjoyed by the members of the society. But freedoms depend also on other determinants, such as social and economic arrangements (for example, facilities for education and health care) as well as political and civil rights (for example, the liberty to participate in public discussion and scrutiny). Similarly, industrialization or technological progress or social modernization can substantially contribute to expanding human freedom, but freedom depends on other influences as well. If freedom is what development advances, then there is a major argument for concentrating on that overarching objective, rather than on some particular means, or some specially chosen list of instruments. Viewing development in terms of expanding substantive freedoms directs attention to the ends that make development important, rather than merely to some of the means that, *inter alia*, play a prominent part in the process.

Development as Freedom Amartya Sen, 2001-01-18 In Development as Freedom Amartya Sen explains how in a world of unprecedented increase in overall opulence millions of people living in the Third World are still unfree Even if they are not technically slaves they are denied elementary freedoms and remain imprisoned in one way or another by economic poverty social deprivation political tyranny or cultural authoritarianism The main purpose of development is to spread freedom and its thousand charms to the unfree citizens Freedom Sen persuasively argues is at once the ultimate goal of social and economic arrangements and the most efficient means of realizing general welfare Social institutions like markets political parties legislatures the judiciary and the media contribute to development by enhancing individual freedom and are in turn sustained by social values Values institutions development and freedom are all closely interrelated and Sen links them together in an elegant analytical framework By asking What is the relation between our collective economic wealth and our individual ability to live as we would like and by incorporating individual freedom as a social commitment into his analysis Sen allows economics once again as it did in the time of Adam Smith to address the social basis of individual well being and freedom

einer der wertvollsten Ressourcen Europas der europäischen Sprachen vorangetrieben werden kann in einer konkreten Publikation darzulegen. Sie soll sowohl Leser*innen dienen, die ihre Kenntnisse über Migrationsbewegungen erweitern wollen, als auch denen, die den genannten Gruppen den Integrationsprozess erleichtern wollen. Das vorliegende Projekt basiert auf den direkten Erfahrungen in den genannten Bereichen der Universitäten, die Teil von INCLUDEED sind: die Universität von Salamanca, die Universität von Bologna, die Universität von Coimbra, die Universität von Heidelberg, die Universität von Poitiers und das Trinity College in Dublin, und ist in enger Kooperation mit dem Wunsch entstanden in Bezug auf Integration eine gleichberechtigtere Gesellschaft zu schaffen. Dies wäre jedoch nicht ohne die Unterstützung mehrerer Nichtregierungsorganisationen, dem Roten Kreuz, ACCEM, der CEPAIM und der Sierra Pamble Stiftung möglich gewesen, die sich der Aufnahme und Integration von Migrant*innen und Geflüchteten in Europa verschrieben haben und dabei Schwierigkeiten ansprechen. Brüder*innen zwischen verschiedenen Perspektiven schlagen und so Annahmen herum, brennende Fragen zwischen verschiedenen Seiten vereinen, sodass gemeinsam in dieselbe Richtung weitergearbeitet werden kann. Dieser Leitfaden befasst sich mit den verschiedenen Herausforderungen, die bei der Integration von Migrant*innen und Geflüchteten entstehen und bietet Lösungsvorschläge, die bei der Bewältigung dieses komplexen Prozesses helfen können. Er ist als nützliches Kompendium für unterschiedliche Gruppen gedacht: Lehrer*innen und Freiwillige, die Sprachunterricht geben wollen. Nichtregierungsorganisationen, nationale und supranationale öffentliche Einrichtungen, und will ein unterstützendes Tool für alle, diejenigen sein, die am sprachlichen Integrationsprozess tatsächlich Angekommenen beteiligt sind. Daher wird in den folgenden Kapiteln auch eine Vorstellung von der Situation vermittelt, in der sich die betreffenden Gruppen befinden und derzeit zur Verfügung stehende Hilfsmittel präsentiert, um diese zu unterstützen. Dieser Leitfaden soll mithilfe eines leicht zugänglichen Stils, aber dennoch informativ und präzise theoretische Grundlagen zu Migration und Fremd- und Zweitsprachenlehre vermitteln und verschiedene praktische Tipps geben, die direkt in die Realität umgesetzt werden können. Zu guter Letzt soll außerdem hervorgehoben werden, dass dieses Projekt die verschiedenen Themenbereiche berücksichtigt, für die jeweils eine Universität verantwortlich war, nur durch die enge Zusammenarbeit aller derjenigen möglich wurde, die an der Ausarbeitung mitgewirkt haben. Es soll allen jenen, die derzeit aktiv in das Integrationsgeschehen involviert sind, Antworten auf die Fragen geben, die in der Fremd- und Zweitsprachenlehre von Migrant*innen und Geflüchteten auftreten können. In diesem Leitfaden werden Informationen aus allen Ländern, in denen sich die beteiligten Universitäten befinden, zusammengetragen, wodurch der Blickwinkel der meisten der bisher zu diesem Thema erstellten Materialien erweitert werden kann und ihm den von dieser Projektgruppe angestrebten Charakter eines internationalen Nachschlagewerks verleiht.

The Routledge Companion to Humanitarian Action

Roger Mac Ginty, Jenny H. Peterson, 2015-03-24

The Companion on Humanitarian Action addresses the political, ethical, legal and practical issues which influence reactions to humanitarian crisis. It does so by exploring the daily dilemmas faced by a range of actors, including policy makers, aid workers, the private sector and the beneficiaries of aid.

and by challenging common perceptions regarding humanitarian crisis and the policies put in place to address these Through such explorations it provides practitioners and scholars with the knowledge needed to both understand and improve upon current forms of humanitarian action The Companion will be of use to those interested a range of humanitarian programmes ranging from emergency medical assistance military interventions managing refugee flows and the implementation of international humanitarian law As opposed to addressing specific programmes it will explore five themes seen as relevant to understanding and engaging in all modes of humanitarian action The first section explores varying interpretations of humanitarianism including critical historical and political economic explanations as well as more practice based explorations focused on notions needs assessments and evaluation Following this readers will be exposed to the latest debates on a range of humanitarian principles including neutrality and sovereignty before exploring the key issues faced by the main actors involved in humanitarian crisis from international NGOs to local community based organizations The final two sections address what are seen as key dilemmas in regards to humanitarian action and emerging trends in the humanitarian system including the increasing role of social media in responding to crises Whilst not a how to guide the Companion contains many practical insights for policy makers and aid workers whilst also offering analytical insights for students of humanitarian action Indeed throughout the book readers will come to the realization that understanding and improving humanitarian action simultaneously requires both active critical reflection and an acceptance of the urgency and timeliness of action that is required for humanitarian assistance to have an impact on vital human needs Exploring a sector that is far from homogenous both practitioners and scholars alike will find the contributions of this book offers them a deeper understanding of the motivations and mechanics of current interventions but also insight into current changes and progress occurring in the field of humanitarian practice
