Dickens and Italy Marialuisa Bignami, Michael Hollington, 2020-06-01. Dickens and America has been amply studied; his no less important relationship to Italy much less so. Despite his friend Forster's assertion that his long stay in Genoa represented the turning point of his career, this book arising from a major conference held in Genoa in 2007 attempts to redress the balance, focusing primarily on Dickens's two major writings about Italy: the travel book *Pictures from Italy* of 1845 and Part Two of his great novel *Little Dorrit* of 1855-7. It falls into six sections: the first concerns Dickens's enjoyment of leisure for the first time in his life in Italy; the second his response to the visual attractions of Italy, both natural and artistic; the third his political stance about Italy in the period of the Risorgimento; the fourth his preoccupation with death and decay in what he saw and experienced in Italy; the fifth his representation of Italianness in *Little Dorrit* and elsewhere; and the sixth his relation to modern and contemporary writers about Italy. It thus aims to fill a vital gap in Dickens studies. **The Nineteenth-Century Novel and the Pre-Cinematic Imagination** Alberto Gabriele, 2024-11-14. This book fills a gap in existing scholarship on the history of the novel in relation to visual culture by discussing the visual fascination that novelists such as Nathaniel Hawthorne, Herman Melville, Honoré de Balzac and George Eliot show for several types of pre-cinematic spectacle. It also identifies a so far neglected aspect of novel theory that nineteenth-century authors elaborated by incorporating suggestions from pre-cinematic visual spectacles. By shedding light on forms of visuality that were not entertained by the dominant aesthetic modes of painting and photography, *The Nineteenth-Century Novel and the Pre-Cinematic Imagination* argues that the presence of nineteenth-century pre-cinematic optical illusions in works of fiction redefines the notion of mimesis as animated movement and points to a continuity between pre-cinema, the literary imagination and the structures of knowledge production of the modern episteme. **Nineteenth-Century Prose**, 2019.

Serial Revolutions 1848 Clare Pettitt, 2022-02-10. 1848 was a pivotal moment not only in Europe but in much of the rest of the world too. Marx's scornful dismissal of the revolutions created a historiography for 1848 that has persisted for more than 150 years. *Serial Revolutions 1848* shows how far from being the failure that Karl Marx claimed them to be, the revolutions of 1848 were a powerful response to the political failure of governments across Europe to care for their people. Crucially, this revolutionary response was the result of new forms of representation and mediation until the ragged and the angry could see themselves represented and represented as a serial phenomenon such that a political consciousness was impossible. By the 1840s

the developments in printing transport and distribution discussed in Clare Pettitt's *Serial Forms The Unfinished Project of Modernity 1815-1848* Oxford University Press 2020 had made the social visible in an unprecedented way This print revolution led to a series of real and bloody revolutions in the streets of European cities The revolutionaries of 1848 had the temerity to imagine universal human rights and a world in which everyone could live without fear hunger or humiliation If looked at like this the events of 1848 do not seem such poor incidents as Marx described them nor such an embarrassing failure after all Returning to 1848 we can choose to look back on that springtime of the peoples as a moment of tragicomic failure obliterated by the brutalities that followed or we can look again and see it as a prophetic moment of stored potential an extraordinary series of events that generated long distance and sustainable ideas about global citizenship international cooperation and a shared and common humanity which have not yet been fully understood or realised

Martyrdom and Terrorism Dominic Janes, Alex Houen, 2014 This pioneering collection of essays explores the intertwined histories of martyrdom and terrorism from antiquity to the twenty first century Christian and Islamic traditions of moral witness and debate over the justified use of militant sacrifice are situated in relation to the development of Western nationalism with a particular focus on the French Revolution and imperialism

Victorian Engagements with the Bible and Antiquity Simon Goldhill, Ruth Jackson Ravenscroft, 2023-10-12 The nineteenth century was a period in which ideas of history and time were challenged as never before This is the first book to explore how the study of classical antiquity and the study of the Bible together formed an image of the past which became central to Victorian self understanding These specially commissioned multi disciplinary essays brilliantly reveal the richness of Victorian thinking about the past and how important these models of antiquity were in the expression of modernity In an age of progress cultural anxiety and cultural hope was fuelled by the shock of the old new discoveries about the deep past and new ways of thinking about humanity's place in history The volume provides a rich and readable feast which will be fundamental to all those seeking a greater understanding of the Victorians as well as of the reception of classics and the Bible

Making and remaking saints in nineteenth-century Britain Gareth Atkins, 2016-08-25 This book examines the place of saints and sanctity in a self consciously modern age and argues that Protestants were as fascinated by such figures as Catholics were Long after the mechanisms of canonisation had disappeared people continued not only to engage with the saints of the past but continued to make their own saints in all but name Just as strikingly it claims that devotional practices and language were not the property of orthodox Christians alone Making and remaking saints in the nineteenth century Britain explores for the first time how sainthood remained significant in this period both as an enduring institution and as a metaphor that could be transposed into unexpected contexts Each of the chapters in this volume focuses on the reception of a particular individual or group and together they will appeal to not only historians of religion but those concerned with material culture the cult of history and with the reshaping of British identities in an age of faith and doubt

Painting the Novel Jakub Lipski, 2017-12-22 Painting the Novel Pictorial Discourse in Eighteenth

Century English Fiction focuses on the interrelationship between eighteenth century theories of the novel and the art of painting a subject which has not yet been undertaken in a book length study This volume argues that throughout the century novelists from Daniel Defoe to Ann Radcliffe referred to the visual arts recalling specific names or artworks but also artistic styles and conventions in an attempt to define the generic constitution of their fictions In this the novelists took part in the discussion of the sister arts not only by pointing to the affinities between them but also more importantly by recognising their potential to inform one another in other words they expressed a conviction that the theory of a new genre can be successfully rendered through meta pictorial analogies By tracing the uses of painting in eighteenth century novelistic discourse this book sheds new light on the history of the so called rise of the novel The Open Access version of this book available at <https://www.taylorfrancis.com/books/painting-novel-jakub-lipski/10-4324-9781351137812> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license Metaphors of Confinement Monika

Fludernik, 2019-08-13 Metaphors of Confinement The Prison in Fact Fiction and Fantasy offers a historical survey of imaginings of the prison as expressed in carceral metaphors in a range of texts about imprisonment from Antiquity to the present as well as non penal situations described as confining or restrictive These imaginings coalesce into a carceral imaginary that determines the way we think about prisons just as social debates about punishment and criminals feed into the way carceral imaginary develops over time Examining not only English language prose fiction but also poetry and drama from the Middle Ages to postcolonial particularly African literature the book juxtaposes literary and non literary contexts and contrasts fictional and nonfictional representations of imprisonment and discussions about the prison as institution and experiential reality It comments on present day trends of punitivity and foregrounds the ethical dimensions of penal punishment The main argument concerns the continuity of carceral metaphors through the centuries despite historical developments that included major shifts in policy such as the invention of the penitentiary The study looks at selected carceral metaphors often from two complementary perspectives such as the home as prison or the prison as home or the factory as prison and the prison as factory The case studies present particularly relevant genres and texts that employ these metaphors often from a historical perspective that analyses development through different periods **Pictures of Poverty**

representation of poverty throughout the Victorian period whether disseminated in newspapers illustrated books and lectures presented on the theatre stage or projected on the screen in magic lantern and film performances Detailed case studies reveal the intermedial context of these popular pictures of poverty and their mobility across genres With versatile author George R Sims as the starting point this study explores the influence of visual media in historical discourses about poverty and the highly controversial role of the Victorian state in poor relief

The Death Penalty in Dickens and Derrida

Jeremy Tambling, 2023-06-29 In the nineteenth century Charles Dickens backed the cause of abolition of the death penalty and wrote comprehensively about it in public letters and in his novels At the end of the twentieth century Jacques Derrida ran two years of seminars on the subject which were published posthumously What the novelist and the philosopher of deconstruction discussed independently this book brings into comparison Tambling examines crime and punishment in Dickens's novels *Barnaby Rudge* *A Tale of Two Cities* *Oliver Twist* and *Bleak House* and explores those who influenced Dickens's work including Hogarth Fielding Godwin and Edgar Allen Poe This book also looks at those who influenced Derrida Freud Nietzsche Foucault and Blanchot and considers Derrida's study on terrorism and the USA as the only major democracy adhering to the death penalty A comprehensive study of punishment in Dickens and furthering Derrida's insights by commenting on Shakespeare and blood revenge the French Revolution and the enduring power of violence and its fascination this book is a major contribution to literary criticism on Dickens and Derrida Those interested in literature criminology law gender and psychoanalysis will find it an essential intervention in a topic still rousing intense argument

The Oxford Handbook of Victorian Medievalism Joanne Parker, Corinna Wagner, 2020-09-15 In 1859 the historian Lord John Acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages The influence on Victorian culture of the Middle Ages broadly understood then as the centuries between the Roman Empire and the Renaissance was both pervasive and multi faceted This medievalism led for instance to the rituals and ornament of the Medieval Catholic church being reintroduced to Anglicanism It led to the Saxon Witan being celebrated as a prototypical representative parliament It resulted in Viking raiders being acclaimed as the forefathers of the British navy And it encouraged innumerable nineteenth century men to cultivate the superlative beards we now think of as typically Victorian in an attempt to emulate their Anglo Saxon forefathers Different facets of medieval life and different periods before the Renaissance were utilized in nineteenth century Britain for divergent political and cultural agendas Medievalism also became a dominant mode in Victorian art and architecture with 75 per cent of churches in England built on a Gothic rather than a classical model And it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels Medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by Morris and Co decorated many affluent drawing rooms The Oxford Handbook of Victorian Medievalism is the first work to examine in full the fascinating

phenomenon of medievalism in Victorian Britain Covering art architecture religion literature politics music and social reform the Handbook also surveys earlier forms of antiquarianism that established the groundwork for Victorian movements In addition this collection addresses the international context by mapping the spread of medievalism across Europe South America and India amongst other places
