Dionysiac Poetics and Euripides' Bacchae Charles Segal, 1982

Dionysiac Poetics and Euripides' Bacchae Charles Segal, 1990-01-01 In his play Bacchae Euripides chooses as his central figure the god who crosses the boundaries among god man and beast between reality and imagination and between art and madness In so doing he explores what in tragedy is able to reach beyond the social ritual and historical context from which tragedy itself rises Charles Segal's reading of Euripides Bacchae builds gradually from concrete details of cult setting and imagery to the work's implications for the nature of myth language and theater This volume presents the argument that the Dionysiac poetics of the play characterize a world view and an art form that can admit logical contradictions and hold them in suspension
