Community Work: Theories, Experiences and Challenges Kalpana Goel, Venkat Pulla, Abraham P. Francis, 2014-10-01. This book revisits community development, especially questioning the meaning of the term community in the changing global and international context. The nature and dynamics of what constitutes community are changing to suit the needs of people living in a technologically advanced nature of life. Communities that were based on face-to-face interactions, sense of belonging, and our feelings are being replaced or overtaken by virtual communities. What is seen is that face-to-face human interaction is being minimized by technologically advanced ways of communicating such as Facebook, Twitter, Skype, and various other such mechanisms that have traversed physical boundaries and made human interaction possible. This new development has also been instrumental in generating new ideologies, new ways of working with people, and addressing human causes. The book delivers practical advice and shares strategies that are based on the real-life experience of working with communities across the nations. It gives breadth and depth of knowledge on community development theory, practice, principles, values, and illustrates implications for practice based on research and practice experiences that has wider applicability. All the chapters discuss the community development approach/method as a strategy to bring about change in the society. Following a preliminary discussion by Kalpana Goel of the meanings of community and community development, all the chapters discuss the community development approach/method as a strategy to bring about change in the society.
