separately to avoid duplication. An additional challenge is cases with various medical disorders for emergency surgeries. Efforts have been taken to accommodate them in first section and obstetric section. The contributors of this book work together at LTMMC and LTMGH and have a well balanced team with fresh talent bringing the latest technological knowledge and tenured practitioners supplementing it with applied experience. Part of the team worked on collection of the matter from different sources for an ideal scenario while the senior faculty members used their vast clinical experience for a more practical and realistic application. These combined efforts have been truly beneficial to achieve our goal to rationally mix latest technology with clinical experience and identify potential ways to conduct anesthesia with best results at least costs and minimum risk.

*Lasers in Dermatology and Medicine* Keyvan Nouri, 2011-09-06 Laser technology is constantly evolving and progressing.
