What Makes Music European Marcello Sorce Keller, 2011-11-17 We seldom consider how much we mistakenly presume in hewing to definitions of music that differ dramatically from the standpoint of other cultures In *What Makes Music European* Marcello Sorce Keller examines the limitations of accepted wisdom about the concept of music in Euro Western culture His investigations of the conclusions reached by music researchers of the past several decades considerably upsets

the concepts relied upon by the concert going public Sorce Keller insightfully asks Who makes the music Should music be original and how much can it be Why do people identify with songs pieces styles and repertoire Why is music so ideological Why do we misunderstand the music of different times and places and why do we enjoy doing so He also explores the juxtaposition of economy society and music making as well as the concept of illegal harmonies In What Makes Music European Sorce Keller addresses the little discussed matters that are essential to an understanding of how music intersects with the life of so many people Readers are offered an approach for thinking about music that depends as much on its history as on the concepts and attitudes of the social sciences What Makes Music European concisely demonstrates to those familiar with Western music how peculiar Euro Western concepts of music appear from a cross cultural perspective At the same time it encourages ethnomusicologists to apply their knowledge to Western music and explain to its public how much of what listeners take for granted is at the very least highly debatable [Reader's Guide to Music](#) Murray Steib,2013-12-02 The Reader's Guide to Music is designed to provide a useful single volume guide to the ever increasing number of English language book length studies in music Each entry consists of a bibliography of some 3 20 titles and an essay in which these titles are evaluated by an expert in the field in light of the history of writing and scholarship on the given topic The more than 500 entries include not just writings on major composers in music history but also the genres in which they worked from early chant to rock and roll and topics important to the various disciplines of music scholarship from aesthetics to gay lesbian musicology *De-canonizing Music History* Vesa Kurkela,Lauri Väkevä,2009 This book is about musical canons and de canonizing music history Whenever music is critically examined it is disciplined ordered and corrected the canon functions as a basic tool in defining the scope of this disciplining In recent music history however there has emerged a strong need to redefine the limits of the disciplining and to criticize the principles of canon formation De canonizing can be seen as a tool in this critique This book also shows how different styles and traditions in music have formed their own canons Its main goal is to deconstruct these canons to describe analyze and problematize them in their variety De canonizing also refers to artistic crossover and cross border encounters In this book art meets popular ethnic meets education and avantgarde meets mainstream Here musical past meets modern musicology its various trends and canons **Music in the Nineteenth Century** Walter Frisch,2013 Nineteenth century music in its cultural social and intellectual contexts Music in the Nineteenth Century examines the period from the Congress of Vienna in 1815 to the advent of Modernism in the 1890s Frisch traces a complex web of relationships involving composers performers publishers notated scores oral traditions audiences institutions cities and nations The book's central themes include middle class involvement in music the rich but elusive concept of Romanticism the cult of virtuosity and the ever changing balance between musical and commercial interests The final chapter considers the sound world of nineteenth century music as captured by contemporary witnesses and early recordings Western Music in Context A Norton History comprises six volumes of moderate length each written in an engaging style by a

recognized expert Authoritative and current the series examines music in the broadest sense as sounds notated performed and heard focusing not only on composers and works but also on broader social and intellectual currents *Musics of the World's Cultures* Barbara Reeder Lundquist, C. K.
