Dicionario Umbundu Portugues:

Dicionário Português-Umbundu, 2010 Dicionário português-umbundu Grégoire Le Guennec, José Francisco Valente, 1972 *Dicionário português-umbundu* Grégoire Le Guennec (C.S Sp.), José Francisco Valente, 1972 **Dicionário prático Português-Umbundo** Ralph L. Wilson, 1954 Colonialism, Ethnicity and War in Angola Vasco Martins, 2020-11-19 Making a fresh contribution to our understanding of the history of Angola this book explores the impact of social political and economic change upon the largest ethnic group of the country the Ovimbundu Based on extensive fieldwork conducted in Angola including oral testimonies and life stories participant observation and archival materials this book shifts the viewpoint from the colonial enterprise international politics and ideological alignments to focus on African experiences and responses The author analyses the transformations introduced by Christianity and colonisation and how they contributed to politicised modern notions of ethnic identity creating communal imaginaries that began manifesting during Angolan s anti colonial war He then explains how the weaving of this ethno political landscape assisted UNITA s mobilisation of significant parts of the Ovimbundu during the civil war essentially deepening popular belief in the axiom Ovimbundu UNITA and how the latter created a national imaginary that echoed social anxieties and moral discourses The book then explores the links between ethnicity politics and war on the quality of post war citizenship in Angola particularly on people s integration in the citizenry or marginalisation from it Articulating a reading of ethnicity that connects high politics and elite based explanations with how ordinary people feel and discuss ethnicity politics and citizenship this book will be of interest to scholars of African history and politics as well as ethnicity and nationalism **Dictionary of Portuguese Loanwords in the Languages of Sub-Saharan Africa** Sergio Baldi, 2023-10-16 The main purpose of this dictionary is twofold On the one hand it provides the scholar of African studies with a tool to identify the possible Portuguese origin of terms present in African languages and on the other it offers those who are interested in Portuguese culture an overview of the presence of its lexicon in African languages No doubt the Portuguese were among the first Europeans to explore the world outside of Europe and as such they were also the first to introduce that world to European concepts and words This book is the result of a long and detailed work on texts in African languages as also shown by the rich bibliography in the dictionary *Poisoned Relations* Chelsea Berry, 2024-09-17 Illuminates the competing understandings of poison and power in the Atlantic world By the time of the opening of the Atlantic world in the fifteenth century Europeans and Atlantic Africans had developed significantly different cultural idioms for and understandings of poison Europeans considered poison a gendered weapon of the weak while Africans viewed it as an abuse by the powerful Though distinct both idioms centered on fraught power relationships When translated to the slave societies of the Americas these understandings sometimes clashed in conflicting interpretations of alleged poisoning events In *Poisoned Relations* Chelsea Berry illuminates the competing understandings of poison and power in the Atlantic World Poison was connected to central concerns of life to the well being in this world for oneself and one s relatives

to the morality and use of power and to the fraught relationships that bound people together The social and relational nature of ideas about poison meant that the power struggles that emerged in poison cases while unfolding in the extreme context of slavery were not solely between enslavers and the enslaved they also involved social conflict within enslaved communities Poisoned Relations examines more than five hundred investigations and trials in four colonial contexts British Virginia French Martinique Portuguese Bahia and the Dutch Guianas bringing a groundbreaking application of historical linguistics to bear on the study of the African diaspora in the Americas Illuminating competing understandings of poison and power in this way Berry opens new avenues of evidence through which to navigate the violence of colonial archival silences

Omvattende bibliografie van die volkere van Namibie (Suidwes-Afrika) en die suidwestelike Angola Eckhard Strohmeier, Walter Moritz, 1975 **The Trade in the Living** Luiz Felipe de Alencastro, 2018-10-01 Macro level study of the South Atlantic throughout the sixteenth and seventeenth centuries demonstrating how Brazil's emergence was built on the longest and most intense slave trade of the modern era The seventeenth century missionary and diplomat Father Ant nio Vieira once observed that Brazil was nourished animated sustained served and conserved by the sad blood of the black and unfortunate souls imported from Angola In The Trade in the Living Luiz Felipe de Alencastro demonstrates how the African slave trade was an essential element in the South Atlantic and in the ongoing cohesion of Portuguese America while at the same time the concrete interests of Brazilian colonists dependent on Angolan slaves were often violently asserted in Africa to ensure men and commodities continued to move back and forth across the Atlantic In exposing this intricate and complementary relationship between two non European continents de Alencastro has fashioned a new and challenging examination of colonial Brazil one that moves beyond its relationship with Portugal to discover a darker hidden history

Portuguese grammar Jussara Abraçado, Carlos Alexandre Gonçalves, 2025-01-27 Spoken by millions of people on four continents Portuguese remains a lesser studied language To help improve the linguistic understanding of this pluricentric language the present volume brings together ten studies about different grammatical phenomena observed in Portuguese varieties from suffixation to intercalated temporal clauses and non concatenative verbal inflection among other topics Focusing on two main axes usage and cognition these studies draw on the theoretical frameworks of Functional Linguistics and Cognitive Linguistics but build a cohesive whole insofar as they all offer usage based language approaches By presenting an overview of recent research on Portuguese and its varieties the book paves the way for the inclusion of Portuguese in the set of Neo Latin languages best known to the general public **The Abyss as a Concept for Cultural Theory**, 2024-01-08 This edited volume provides a comparative exploration of corresponding concepts of the abyss in various languages and cultures Fourteen chapters investigate ancient cultures such as Hebrew Ancient Greek Sanskrit and Old Norse but also more contemporary American African and Asian languages such as Hawaiian Umbundu Chinese and Khasi as well as European languages such as German Estonian English French Polish and Russian The book combines ethnolinguistics with history of

ideas literature folklore religion and translation based on the conviction that language and our linguistic concepts give evidence of and shape our ideas about the world and about ourselves

Relações de poder no Bailundo (1880-1930)
 Renata Jesus Da Costa, 2023-04-18 O livro *Relações de poder no Bailundo* relata as experiências cotidianas de sujeitos diversos em busca de reconhecimento e legitimidade de poderes durante o período colonial em Angola. A obra é um convite para conhecer histórias sobre o Bailundo, autoridades locais Ovimbundu e em especial sobre a importância das funções desempenhadas pelas mulheres do soma na sobrevivência do poder deste soberano cujo domínio foi abalado com a fixação dos portugueses e missionários em seus territórios.

Kulturelle und Sprachliche Entlehnung Mechtild Bierbach, Barbara von Gemmingen, 1999
Angola Richard Black, 1992 O trato dos viventes Luiz Felipe de Alencastro, 2020-10-13 Alencastro demonstra que a colonização portuguesa criou um espaço econômico e social constituído por uma zona de produção escravista no litoral americano e uma zona de reprodução de escravos centrada em Angola. Esse sistema bipolar ainda marca profundamente o Brasil contemporâneo. O padre Antônio Vieira escrevia Angola de cujo triste sangue negras e infelizes almas se nutre, anima, sustenta, serve e conserva o Brasil. Em *O trato dos viventes*, o historiador Luiz Felipe de Alencastro mostra que a colonização portuguesa baseada no escravismo deu lugar a um espaço econômico e social bipolar englobando uma zona de produção escravista situada no litoral da América do Sul e uma zona de reprodução de escravos centrada em Angola. Surge então um espaço aterritorial, um arquipélago lusófono composto dos enclaves da América portuguesa e das feitorias de Angola. O autor mostra como essas duas partes unidas pelo oceano se completam num sistema de exploração colonial cuja singularidade ainda marca profundamente o Brasil contemporâneo. O Brasil colonial tem sido estudado da mesma maneira que a lua era observada antes dos vóos espaciais: do lado que reflete o sol do lado de Portugal da Europa. *O trato dos viventes* incorpora os eventos transcorridos em Angola, narrativa dos eventos brasileiros como descobrir o lado escondido da lua, a metade oculta da história do Brasil. O domínio do autor sobre as fontes documentais e arquivísticas impressiona a escrita por vezes brilhante e sobretudo provocativa. *O trato dos viventes* deve ser considerado uma grande obra que mudou a forma de compreender a história do Brasil e de Angola, dando novo entendimento ao lugar e importância do Atlântico Sul na história da escravidão.

Stuart B. Schwartz *Slavery Abolition* *Fugitive Modernities* Jessica A. Krug, 2018-11-15 During the early seventeenth century, Kisama emerged in West Central Africa, present-day Angola, as communities and an identity for those fleeing expanding states and the violence of the trans-Atlantic slave trade. The fugitives mounted effective resistance to European colonialism despite or because of the absence of centralized authority or a common language. In *Fugitive Modernities*, Jessica A. Krug offers a continent- and century-spanning narrative exploring Kisama's intellectual, political, and social histories. Those who became Kisama forged a transnational reputation for resistance and, by refusing to organize their society around warrior identities, they created viable social and political lives beyond the bounds of states and the ruthless market economy of slavery. Krug follows the idea of Kisama to the Americas, where fugitives in the New Kingdom of Granada

present day Colombia and Brazil used it as a means of articulating politics in fugitive slave communities By tracing the movement of African ideas rather than African bodies Krug models new methods for grappling with politics and the past while showing how the history of Kisama and its legacy as a global symbol of resistance that has evaded state capture offers essential lessons for those working to build new and just societies *Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971* New York Public Library. Research Libraries,1979 **Changing Theory** Dilip M Menon,2022-05-02 This book is an original systematic and radical attempt at decolonizing critical theory Drawing on linguistic concepts from 16 languages from Asia Africa the Arab world and South America the essays in the volume explore the entailments of words while discussing their conceptual implications for the humanities and the social sciences everywhere The essays engage in the work of thinking through words to generate a conceptual vocabulary that will allow for a global conversation on social theory which will be necessarily multilingual With essays by scholars across generations and from a variety of disciplines history anthropology and philosophy to literature and political theory this book will be essential reading for scholars researchers and students of critical theory and the social sciences Doze capítulos sobre escravizar gente e governar escravos Denise Vieira Demétrio,Ítalo Domingos Santirocchi,Roberto Guedes ,2018-06-22 A obra apresenta an lises diversas sobre escravid o no Estado e Imp rio do Brasil e escraviza o e escravid o na frica especialmente Angola e Benguela Dividido em tr s partes Governar escravos Alta governa o e escravid o religiosidade e alforria religi o e liberdade e Escraviza o diplomacia guerra e textos o livro mostra por exemplo que a palavra governo no Antigo Regime possu a uma acep o ampla podendo evocar a esfera religiosa governo das almas ou dom stica o governo da casa familiar No mbito da coroa a palavra governo incorporou esse imagin rio dom stico pois era amplamente aceito que a arte de conduzir uma fam lia ou a Rep blica demandava as mesmas exig ncias qualidades e princ pios tico e pol tico Com hist rias sobre aquelas sociedades e seus personagens quer governadores bispos senhores poderosos ou senhores forros que governavam escravos esta obra aborda e relaciona sociedades assentadas na maior das desigualdades a escravid o aceita e naturalizada em terras do Brasil e de Angola onde ela resistiu e findou tardiamente **Palavra banto em Minas** Sônia Queiroz,2019-01-01 A mem ria dos africanos de l nguas e culturas banto no Brasil muito pouco difundida entre a popula o em geral vem sendo preservada em comunidades negras hoje designadas quilombos nas quais ainda se podem encontrar falares e cantares com base lexical de origem banto Nesses falares e cantares podemos ouvir a palavra dos ancestrais transmitida em l nguas rituais resultantes do contato entre africanos e portugueses e preservada como forma de resist ncia diante da imposi o da l ngua e cultura europeia pelo Estado Est o reunidas neste livro todas as palavras de prov vel origem banto encontradas nos vocabul rios e gloss rios elaborados por pesquisadores a partir da observa o em comunidades onde se fala essa mescla lingu stica em territ rio mineiro Tamb m identificamos os registros dessas palavras em dicion rios e gloss rios brasileiros na literatura angolana e em dicion rios de quicongo quimbundo e umbundo as tr s l nguas banto mais faladas no Brasil A publica o deste gloss rio em
