**Advanced Mimo Systems** Kosai Raoof,HuaiBei Zhou,2009 3G, HSPA and FDD versus TDD Networking Lajos Hanzo,Jonathan Blogh,Song Ni,2008-04-30 3G HSPA and FDD versus TDD Networking Second Edition is the only book that contrasts the network capacity gains that may be achieved with the advent of adaptive antenna arrays and HSDPA style adaptive modulation techniques in the context of FDD and TDD CDMA cellular networks In the five years since the first edition of this book was published the wireless landscape has evolved further The new book addresses the recent developments in the field of HSDPA style wireless networking focusing particularly on the issues and challenges of FDD versus TDD networking These solutions

are particularly powerful in shadow faded scenarios when the antenna array elements experience correlated rather than independent fading Furthermore the flexible up link down link time slot allocation of TDD is beneficial for supporting the Wireless Internet but results in erratic interference fluctuations which is efficiently combated by the antenna arrays and adaptive modulation Additionally whilst the adaptive modulation aided system simply drops the instantaneous transmission rate during instances of high interference conventional networks would drop the call Builds on successful previous edition to include recent developments in the field of HSDPA style wireless networking Provides an all encompassing self contained overview of the subject for a wide range of readers of all levels Treats the topics of both physical layer and network layer aspects of wireless systems using a cross layer optimization approach One of the first books to contrast in detail both FDD and TDD networking The material is presented clearly and logically allowing the uninitiated reader to commence reading it at fundamental non mathematical conceptual level at the beginning of the book while advanced readers can turn directly to the required chapter describing solutions to a number of wireless FDD or TDD networking problems This book will inspire researchers practicing engineers operators marketing engineers and advanced postgraduates
