

**HEADLINE FUNCTIONS-** The modern trend in headlines is toward simplicity. Most newspapers now use heads that say what has to be said in a minimum of words. A good headline conveys the news in a story and the significance and meaning behind the story. It never implies more - and should not say too much less - than what actually appears in the story. It does not contain misleading suggestions and it does not leave false impressions.

An easy way to remember the functions of the headline is through the acronym HEADS:

**H** - Heralds the day's news; tells what is of importance.

**E** - Entices the reader with essential or interesting facts.

**A** - Advertises the most important story by size or placement on the page (the most important stories are displayed at the top of the page).

**D** - Dresses up a page with typography; helps make design attractive.

**S** - Summarizes the story with a "super" lead; tells what the story is about.

## **TYPES OF HEADLINES**

- 1) **Cross Line/Bar Line Headline**
- 2) **Double Cross Line**
- 3) **Flush Right Headline**
- 4) **Flush Left Headline**
- 5) **Kicker/ Overline /Shoulder Line**
- 6) **Reverse Kicker /Hammer**
- 7) **Banner Headline**

## Functions Of Newspaper Headlines:

*Truth to Tell* John Morley, 1998-01-01      *Phraseological Substitutions in Newspaper Headlines* Sylvia Jaki, 2014-07-15

The major purpose of newspaper headlines is to trigger the reader's interest. A popular way to achieve this goal is the use of phraseological modifications. Based on previous findings from various linguistic disciplines, this book provides an interdisciplinary approach to shed light on the reception of substitutions like 'More than Meats the Eye'. It develops an empirical methodology for investigating the complex cognitive processes involved using a large sample of authentic examples for illustration. Along these lines, this volume not only shows what associations readers make when they encounter a lexical substitution and what factors facilitate the recognition of the canonical form. It also addresses the question of how meaning is constructed in terms of Conceptual Integration Theory and establishes an experimentally supported model of interpretation. This multifaceted perspective renders *Phraseological Substitutions in Newspaper Headlines: More than Meats the Eye* relevant to scholars and advanced students from a wide range of linguistic areas such as phraseology, cognitive linguistics, psycholinguistics, and humour research, but also to interested journalists.

*The Function of Newspapers in Society* Shannon E. Martin, David A. Copeland, 2003-06-30

The demise of the newspaper has long been predicted. Yet newspapers continue to survive globally despite competition from radio, television, and now the Internet, because they serve core social functions in successful cultures. Initial chapters of this book provide an overview of the development of modern newspapers. Subsequent chapters examine particular societies and geographic regions to see what common traits exist among the uses and forms of newspapers and those artifacts that carry the name newspaper but do not meet the commonly accepted definition. The conclusion suggests that newspapers are of such core value to a successful society that a timely and easily accessible news product will succeed despite or perhaps because of changes in reading habits and technology.

**The Language of Newspapers** Danuta Reah, 2002

From the ideological bias of the press to the role of headlines in newspaper articles and ways in which newspapers relate to their audience, the book provides a comprehensive analysis of newspaper language.

*The Entertainment Functions of Television* P. H. Tannenbaum, 2014-03-18

First published in 1980, this volume is an indirect product of the activities of the Committee on Television and Social Behavior of the Social Science Research Council (SSRC). This is a collection of essays looking at the entertainment function of television in the United States.

**Manual of Information, News and Features Bureau, Office of War Information, Overseas Branch** United States. Office of War Information. News and Features Bureau. Training Desk, 1944

*Handbook Of Reporting And Communication Skills* V. S. Gupta, 2003

This Handbook Is Designed To Meet Every Need Of The Students Of Journalism And Other Disciplines Who Wish To Acquire Communication Reporting And Editing Skills.

*News Discourse* Monika Bednarek, Helen Caple, 2018-10-19

Now reissued and retypeset, this canonical book explores the role of language and images in newspaper, radio, online, and television news. The authors introduce useful frameworks for analysing language, image, and the interaction between the two and

illustrate these with authentic news stories from around the English speaking world ranging from the Oktoberfest to environmental disasters to the killing of Osama bin Laden This analysis persuasively illustrates how events are retold in the news and made newsworthy through both language and image This clearly written and accessible introduction to news discourse is essential reading for students lecturers and researchers in linguistics media and journalism studies and semiotics

Allusions in the Press Paul Lennon,2008-08-22 This corpus based study of allusions in the British press shows the range of targets journalists allude to from Shakespeare to TV soaps from Jane Austen to Hillary Clinton from hymns to nursery rhymes proverbs and riddles It analyzes the linguistic forms allusions take and demonstrates how allusions function meaningfully in discourse It explores the nature of the background cultural and intertextual knowledge allusions demand of readers and sets out the processing stages involved in understanding an allusion Allusion is integrated into existing theories of indirect language and linked to idioms word play and metaphor

*A Functional Analysis of Political Television Advertisements* William L. Benoit,2014-04-01 A Functional Analysis of Political Television Advertisements examines theory and research on election advertisements William Benoit employs the Functional Theory of Political Campaign Discourse to understand the nature or content of television spots in election campaigns Beginning with a look at American presidential spots from 1952 2012 Benoit investigates the three functions acclaims attacks and defenses and the topics of policy and character for these groups of political commercials The following chapters are devoted to reporting similar data on presidential primary advertisements presidential third party spots other theories including Issue Ownership Theory and Functional Federalism Theory as well as nonpresidential and non U S election advertising Benoit considers the data discusses the development of political advertising over time and finally presents areas for further research This book is a uniquely comprehensive examination of the value and use of television spots in political election rhetoric

**News Values from an Audience Perspective** Martina Temmerman,Jelle Mast,2020-12-11 This book focuses on journalistic news values from an audience perspective The audience influences what is deemed newsworthy by journalists not only because journalists tell their stories with a specific audience in mind but increasingly because the interaction of the audience with the news can be measured extensively in digital journalism and because members of the audience have a say in which stories will be told The first section considers how thinking about news values has evolved over the last fifty years and puts news values in a broader perspective by looking at news consumers preferences in different countries worldwide The second section analyses audience response explaining how audience appreciation and clicking behaviour informs headline choices and is measured by algorithms Section three explores how audiences contribute to the creation of news content and discusses mainstream media s practice of recycling audience contributions on their own social media channels

Discourse, Media, and Conflict Innocent Chilwa,2022-04-28 Bringing together contributions from a team of international scholars this pioneering book applies theories and approaches from linguistics such as discourse analysis and pragmatics to analyse the

media and online political discourses of both conflict and peace processes By analysing case studies as globally diverse as Germany the USA Nigeria Iraq Korea and Libya and across a range of genres such as TV news channels online reporting and traditional newspapers the chapters collectively show how news discourse can be powerful in mobilizing public support for war or violence or for conflict resolution through the linguistic representation of certain groups It explores the consequences of this framing effect and shows how peace journalism can be achieved through a non violent approach to reporting conflict It will therefore serve as an essential resource for students scholars and experts in media and communication studies conflict and peace studies international relations linguistics and political science

*Early Modern English News Discourse* Andreas H. Jucker, 2009 Printbegr nsninger Der kan printes 10 sider ad gangen og max 40 sider pr session *Historical Corpus Stylistics* Patrick Studer, 2014-02-25 This book analyzes how news discourse was shaped over time by external factors such as the historical context news production technological innovation and current affairs and as such both conformed to and deviated from generic conventions Using data from a newspaper corpus it offers the first empirical study into the development of style in early mass media In this analysis media style appears as a dynamic concept which is highly sensitive to innovative approaches towards making news not only informative but also entertaining to read This cutting edge survey will be of interest to academics researching corpus linguistics media discourse and stylistics

**Aspects of Cohesion and Coherence in Translation** Krisztina Károly, 2017-08-07 This book deals with the re production of cohesion and coherence in translation Building on the theories and methods of Translation Studies and Discourse Analysis it answers some basic still much debated questions related to translational discourse production Such a question is whether it is possible to analyse the re production of coherence and if yes how Can the models devised for the study of English original not translated and independent texts unlike translations and their sources be applied for the analysis of translation How do cohesive rhetorical and generic structure behave in translation How do particular components of coherence relate to translation universals The volume proposes a complex translational discourse analysis model and presents findings that bring new insights primarily for the study of news translation translation strategies and translation universals It is recommended for translation researchers discourse analysts practicing translators as well as professionals and students involved in translator training

**The Noun Phrase in Functional Discourse Grammar** Daniel García Velasco, Jan Rijkhoff, 2008 The articles in this volume analyse the noun phrase within the framework of Functional Discourse Grammar FDG the successor to Simon C Dik s Functional Grammar In its current form FDG has an explicit top down organization and distinguishes four hierarchically organized interacting levels i the interpersonal level language as communicational process ii the representational level language as a carrier of content iii the morphosyntactic level and iv the phonological level Together they constitute the grammatical component which in its turn interacts with a cognitive and a communicative component This comprehensive approach to linguistic analysis is also reflected in this volume which contains rich and substantial contributions concerning many different

aspects of the noun phrase At the same time the analysis of a major linguistic construction from various perspectives is an excellent way to test a new model of grammar with regard to some of the standards of adequacy for linguistic theories The book contains several papers dealing with matters of representation and formalization of the noun phrase the articles by Kees Hengeveld Jos Luis Gonz lez Escribano Jan Rijkhoff and Evelien Keizer Other contributors are more concerned with the practical application of the model with regard to discourse interpersonal matters Chris Butler John H Connolly whereas the chapters by Dik Bakker and Roland Pfau and by Daniel Garc a Velasco deal with morphosyntactic issues In all the variety of issues addressed and the range of languages considered prove that one of the important advantages of the FDG model is precisely the fact that grammatical phenomena can be treated from a semantic pragmatic morpho syntactic phonological or textual perspective in a coherent fashion      **Language Choice and Identity Politics in Taiwan** Jennifer M.

Wei,2008-04-18 Jennifer M Wei argues that construction and perceptions of language and identity parallel sociopolitical transformations and language and identity crises arise during power transitions Under these premises language and identity are never well defined or well bounded Instead they are best viewed as political symbols subject to manipulation and exploitation during socio historical upheavals A choice of language from phonological shibboleth Mandarin or Taiwanese to choice of official language cuts to the heart of contested cultural notions of self and other with profound implications for nationalism national unity and ethno linguistic purism Wei further argues that because of the Chinese Diaspora and Taiwan s connections to China and the United States arguments and sentiments over language choice and identity have consequences for Taiwan s international and transnational status They are symbolic acts of imagining Taiwan s past as she looks forward to the future      **JavaScript & jQuery: The Missing Manual** David Sawyer McFarland,2014-09-18 JavaScript lets you
