Airline Finance Peter S. Morrell, 2021-06-09 Revised and updated in its fifth edition this internationally renowned and respected book provides the essentials to understanding all areas of airline finance Designed to address each of the distinct areas of financial management in an air transport industry context it also shows how these fit together while each chapter and topic for example aircraft leasing provides a detailed resource that can also be consulted separately Supported at each stage by practical airline examples and recent data *Airline Finance* examines the financial trends and longer term prospects for the airline industry as a whole contrasting the developments for the major regions and airlines together with critical discussion of key issues that affect the industry as a whole Important techniques in financial analysis are applied to the airlines as well as their investors such as banks and other financial institutions Thoroughly amended and updated throughout and expanded with the addition of two new chapters the fifth edition reflects the many developments that have affected the industry such as the impacts of the banking and sovereign debt crises on the airline industry signs of re nationalisation of airlines that have emerged in Europe and the substantial changes that have

occurred in connection with rating agencies and LIBOR New start ups and bankruptcies are covered for the first time in a new chapter joined by airline mergers and acquisitions M A both playing a role in airline concentration Reflecting their status as a permanent feature fuel hedging and fuel surcharges now also have their own chapter The medium to long term future in terms of further concentration and government intervention or the lack of it and a shift in aircraft financing towards capital markets are discussed in the final chapter The book is written for employees of airlines airports and their suppliers and investment bank and other analysts It is also popular for use by universities and in house courses on air transport management within both academia and industry **Foundations of Airline Finance** Bijan Vasigh,Zane C.

Rowe,2019-07-02 There are few industries that have had a more profound impact on business and society over the last century than aviation This book is an accessible up to date introduction to the current state of the aviation industry which provides readers with the tools necessary to understand the volatile and often complicated nature of airline finance Understanding finance is critical in any industry however the financial track record of the airline industry places even more importance on effective financial management Foundations of Airline Finance provides an introduction to the basics of finance including time value of money the valuation of assets and revenue management and the particular intricacies of airline finance where there can be wild fluctuations in both revenues and costs The third edition of this text has been extensively updated to reflect the many changes in the air transport industry that have taken place since the publication of the second edition and features an expanded chapter on aircraft leasing and many new international case examples This thorough introduction to aviation finance is valuable reading as a general introductory financial text or as reading in specialized airline finance classes *Introduction to Financial Models for Management and Planning* James R. Morris,John

P. Daley,2017-05-30 A properly structured financial model can provide decision makers with a powerful planning tool that helps them identify the consequences of their decisions before they are put into practice Introduction to Financial Models for Management and Planning Second Edition enables professionals and students to learn how to develop and use computer based models for financial planning This volume provides critical tools for the financial toolbox then shows how to use them tools to build successful models **Alternative Alternatives** Sona Blessing,2011-10-14 In the aftermath of the financial crisis investors are searching for new opportunities and products to safeguard their investments for the future Riding high on the wave of new financial opportunities are Alternative Alternatives AA However there is a dearth of information on what Alternative Alternatives are how they work and how they can be profited from The book defines what Alternative Alternatives are based on research and the following hypothesis If the source origin of the risk lies outside of the financial markets then it should be insulated from the vagaries of those markets The book identifies and examines such and other unique idiosyncratic and difficult to replicate sources of risk assets and strategies The recent credit and sovereign debt crisis have served to defend the hypothesis and have upheld the conclusion that alternative alternative assets and strategies offer a risk return

profile that is distinct to those offered by traditional and main stream hedge fund strategies These strategies include timberland investing insurance risk transfer asset loan based lending aviation shipping trade entertainment litigation financing etc collectables and extraction strategies such as volatility and behaviour finance This book will be a one stop resource to the new investment class known globally as Alternative Alternatives AA and will provide a comprehensive but accessible introduction to these assets It provides an in depth analysis of the assets and strategies which will leave investors with everything they need to identify and allocate to the best AA for them It reviews the asset on a standalone basis providing an explanation of the product its characteristics a SWOT analysis and details its risk reward drivers The book also looks at how to integrate the asset within a portfolio its peculiarities the challenges and the constraints of each Next the book shows how Alternative Alternatives are used in the real world how they are implemented and the results that they have achieved Finally the book looks at the scope scalability and prospects for each asset in the future

Capital Structure and Shari'ah Compliance of non-Financial Firms Ramazan Yildirim, 2021-03-22 In the present financial world various niche markets play an increasingly important role One of the fastest growing niches is without a doubt Islamic finance Indeed sustainable finance needs constantly evolving innovations and this book offers valuable insights into Islamic capital structure and Shari ah equity screening enriching academic discourse In recent years we have witnessed the emergence of a new generation of academics and professionals specializing in various aspects of Islamic finance as knowledge and practice This has brought about a new dynamism and also further sophistication This book is one of such contributions as it develops knowledge which is then transformed into practice whereby practical impact is also achieved Being an academic book it provokes readers thoughts offering a critique of the implications of the currently applied Shari ah screenings methodologies As a transformative practical piece by developing an innovative screening ratio in this book Dr Yildirim extends his focus on the risk sharing based financing hierarchy covers thoughts and the underlying philosophy and proposes an Islamic version of a pecking order hierarchy This framework can be considered the foundation for developing an Islamic capital structure theory This book will benefit academics professionals investors as well as policymakers working in the Islamic finance industry and would like to explore more Professor Dr Mehmet Asutay Durham University Business School UK This book offers for the first time after the inception of Shari ah screening methodologies a groundbreaking new stock screening solution that is comprehensible practical and foremost entirely derived from the primary sources of Islam Qur an and Sunnah Congratulations to Dr Ramazan for his outstanding contribution to Islamic finance and capital markets Associate Professor Dr Ahcene Lahsasna This excellent book is a must have for all corporate finance students researchers interested in the theoretical aspect of capital structure and the religious discussion of Shari ah equity screening This book should become a companion to those involved in a quantitative research environment and aim to conduct a comparative analysis an ideal resource for everyone from Shari ah scholars to Islamic finance practitioners and beginners to experts Professor Dr M Kabir Hassan University of New Orleans
